Alternative Femininities Samantha Holland, 2004-06-01 Imagine a world where the oppressive over feminized images of women from advertising television films and magazines have re armed themselves with army boots body modifications and flamboyant hair Is this just another fairy tale and if so why cant it be a reality In *Alternative Femininities* Samantha Holland unpacks the myth of model womanhood and considers how a particular group of real women define and practise femininity These women who see themselves as alternative modify and subvert popular images of femininity The choices they make in clothing appearance and body modifications enable them to construct a personal look that is intimately tied to self identity Getting the balance right between over femininity and not being feminine enough is a frequently voiced concern Holland also addresses head on the much neglected issue of how ageing impacts on notions of femininity What do these women think about fashion gender and appearance as they grow older and less visible in our media dominated society Do they choose to tone down or stay out there and what motivates their choice A revealing look at contemporary femininity *Alternative Femininities* gives voice to a previously silent group of women who struggle to resist sexist gender stereotypes yet age with style individuality and creativity By looking at how real women negotiate self image in an increasingly appearance conscious society Holland has provided a much needed corrective to theoretical accounts of gender and femininity lacking in real data

New Femininities Nina Laurie, Claire Dywer, Sarah L. Holloway, Fiona Smith, 2014-06-03 Geographies of New Femininities examines the emergence of contemporary constructions of femininity in a global context It asks whether these femininities are new and suggests that current celebrations of diversity in the lived experience and performance of women s identities are largely Euro centric Through four in depth case studies Geographies of New Femininities illustrates how constructions of femininities across the world reflect gender inequalities embedded within global local geographies of social and economic change The analysis brings together key themes in geography and feminist studies showing how globalisation and the fracturing of identities are influencing research on gender Throughout the book the authors explore spaces of opportunity and oppression for women and highlight the geographies associated with the negotiation of gender identities Geographies of New Femininities moves between empirical and theoretical debate using first hand accounts to work through methodological issues relating to gender and geography It is deliberately written in an accessible style to encourage students to engage with up to date research on gender

Femininities, Masculinities, Sexualities Nancy J. Chodorow, 2014-04-23 The author of The Reproduction of Mothering examines the problems with how psychoanalysis views sexuality and gender Nancy J Chodorow takes her fellow psychoanalysts to task for their monolithic and pathologizing accounts of deviant gender and sexuality Drawing from her own clinical experience the work of Freud and a close reading of psychoanalytic texts Chodorow argues that psychoanalysis has yet to disentangle male dominance from heterosexuality Further she demonstrates the paucity of psychoanalytic understanding of heterosexuality and the problematic polarizing of normal and abnormal sexualities By returning to Freud and interpreting psychoanalysis through clinical eyes Chodorow contends that psychoanalysis must consider individual specificity and personal cultural and social factors Such a methodology entails a plurality of femininities and masculinities and enables us to understand a variety of sexualities Praise for Femininities Masculinities Sexualities Raises challenging questions but makes no easy answers Psychoanalytic Quarterly Chodorow s convincing analysis leads us to wonder whether it is any longer useful to think in terms of a normative boy and girl man and woman father and mother and heterosexual and homosexual Sally Moskowitz Chodorow helps us through the dense riches of Freud s writing signposting his scattered but significant moments of empathy with women s subjective experience even as she takes apart his objectified masculine images The Women s Review of Books A provocative reminder that these are complex issues and that humans with their capacity for individual variation are complicated subjects Kirkus Reviews

Gender and the Construction of Hegemonic and Oppositional Femininities Justin Charlebois, 2010-12-13 Gender and the Construction of Hegemonic and Oppositional Femininities investigates how hegemonic and nonhegemonic forms of femininity are constructed in the social institutions of school the workplace and the media Hegemonic femininities are those that form a complementary and subordinate relationship with hegemonic masculinity and in doing so legitimize a hierarchical relationship between men and women and masculinity and femininity Nonhegemonic femininities include culturally idealized

dominant femininities which do not legitimize a hierarchical relationship between masculinity and femininity and gender deviant subordinate femininities Through an analysis of existing empirical research and fictional media the book illustrates the relationship between these various femininities and their relationship with masculinity **Representations of**

Femininity in Contemporary South Korean Women's Literature Joanna Elfving-Hwang, 2010-03-01 This book discusses perceptions of femininity in contemporary South Korea and the extent to which fictional representations in South Korean women's fiction of the 1990s challenges the enduring association of the feminine with domesticity docility and passivity While existing literature addresses Korean women's legal educational political and employment issues this study is the first to analyse the cultural values that define femininity in the context of the Korean cultural imagination concentrating on literary representations of femininity **The Eloquent Blood** Manon Hedenborg White, 2020 The Eloquent Blood focuses

on the changing construction of femininity and feminine sexuality in interpretations of the goddess Babalon A central deity in Thelema the religion founded by the notorious British occultist Aleister Crowley 1875 1947 Babalon is based on Crowley's favorable reinterpretation of the biblical Whore of Babylon and is associated with liberated female sexuality and the spiritual ideal of passionate union with existence Combining research on historical and contemporary Western esotericism with feminist and queer theory the book sheds light on the ways in which esoteric movements and systems of thought have developed over time in relation to political movements Tattooing and the Gender Turn Emma Beckett, 2023-10-19

usually unsympathetic social order Creating a feminist femininity they have reinscribed their place in the culture and provided models for their audiences to do the same This comprehensive tome part of the Cambria Contemporary Global Performing Arts headed by John Clum Duke University is an essential addition for theater studies and women s studies

Insights Into Gender Equity, Equality and Power Relations in Sub-saharan Africa Mansah Prah,2013 Since gender entered the development discourse in the Seventies African countries have increasingly taken the concept on board in policy and practice This concern may be due to either one or a combination of the following factors the ideological positioning of African countries demands by their donors and development partners and demands by organised local groups and NGOs Gender in the development discourse ought to transform power relations between men and women and shift them to social relations that reflect their equal access to productive resources opportunities and social and material benefits The result of such actions should be an achievement of comparable status of women and men This volume initiated by OSSREA seeks to examine in more depth issues regarding the gender power imbalance in sub Saharan African countries with a specific focus on the eastern and southern African regions The chapters in this book present research that examines and analyses the effectiveness and efficiency of gender mainstreaming policies strategies and projects developed and implemented by national and international actors The themes inter weave with each other although they address gender issues in specific countries and specific contexts This can be explained by the shared colonial and post colonial heritage of African countries It is useful therefore to view the structure of the book as a spiral of inter connected issues that address similar themes approaching them from different levels Purely for ease of reading the contributions have been organised into three parts with over arching themes that at first glance may seem not to fit well together A theme that runs through all the chapters is the persistence of patriarchal values and attitudes in Africa and its constraining effect on the achievement of gender equity and equality

Femininity, Feminism and Gendered Discourse Janet Holmes, Meredith Marra, 2010-08-11 The chapters in this book illustrate a range of cutting edge research in language and gender studies with contributions from a number of internationally recognised experts The three themes femininity feminism and gendered discourse are central to research in language and gender and the book thus makes a valuable contribution to a number of current debates Femininity comprises a central aspect of gender performance and the process of gendering individuals is on going and unavoidable For

many people the word femininity has associations with frilly pink party dresses with demureness deference and lack of power and influence The first section of this book demonstrates some alternative conceptions of femininity and a range of ways in which femininity is performed in different contexts and cultures The analyses illustrate that we are all continually performing aspects of femininity and masculinity in flexible dynamic ambiguous predictable and unpredictable ways Language and gender research has a long tradition of engagement with the political and specifically with feminism and feminist goals The chapters in the second section of this book demonstrate the value of identifying gendered patterns in order to challenge their potentially repressive effects in social interaction in a range of spheres The researchers analyse contemporary international evidence of sexism in language use including material from Japanese spam emails expressing sexual desire and from media reporting on male and female candidates in the 2007 French elections The final section of this book focuses on the different ways in which we negotiate our gender through discourse Gender is just one of many facets of our intrinsically hybridized social identities Nevertheless it is a very significant facet a salient dimension in everyday life with a pervasive social influence on everything we do and say Interaction is typically viewed through gendered spectacles much of the time The chapters in the third section focus in detail on diverse ways in which gender is constructed through discourse examining the interaction between individual agency and the larger constraining social structures including socio cultural norms within which that agency is enacted Finally the different contributions in this book represent research from a multiplicity of geographic and cultural backgrounds supporting efforts to internationalise language and gender research and to raise awareness of empirical studies undertaken in a wide range of linguistic and cultural contexts
