Foreordained Failure Steven Douglas Smith, 1999 Ever since the Supreme Court began enforcing the First Amendment's religion clauses in the 1940s courts and scholars have tried to distill the meaning of those clauses into a useable principle of religious freedom In *Foreordained Failure* Smith argues that efforts to find a principle of religious freedom in the original meaning are futile but not because the original meaning is irrecoverable The difficulty is that the religion clauses were not originally intended to approve any principle or right of religious freedom Rather the clauses were purely jurisdictional in nature they were intended to do nothing more than confirm that authority over questions of religion remained with the states This work will be of great interest to law scholars lawyers judges and other readers concerned with the subject of religious freedom

Legal Reductionism and Freedom Martin V.B.P.M. van Hees, 2012-12-06 Martin van Hees presents a new approach to the study of law legal reductionism which combines elements of legal positivism new institutionalism and decision theory From legal positivism Van Hees derives some fundamental insights into the nature of legal systems but he also revises some of its key tenets He argues that law can be reduced to facts moreover he re-establishes the relation between law and morality by arguing that law and positive morality are inherently related He subsequently uses decision theoretic tools to develop and defend his reductionist methodology The second part of the study applies the resulting approach to an analysis of legal freedom By showing that legal reductionism allows us to analyse the value of liberal legal systems Van Hees makes a forceful case for including the study of law in moral and political philosophy The book is accessible to a wide readership including legal and moral philosophers political theorists and social scientists

Freedom, Teleology, and Evil Stewart Goetz, 2011-10-27 In *Freedom Teleology and Evil* Stewart Goetz defends the existence of libertarian freedom of the will He argues that choices are essentially uncaused events with teleological explanations in the form of reasons or purposes Because choices are uncaused events with teleological explanations whenever agents choose they are free to choose otherwise Given this freedom to choose otherwise agents are morally responsible for how they choose Thus Goetz advocates and defends the principle of alternative possibilities which states that agents are morally responsible for a choice only if they are free to choose otherwise Finally given that agents have libertarian freedom Goetz contends that this freedom is integral to the construction of a theodicy which explains why God allows evil
