Alternatives To Prisons:

Alternatives to Prison Anthony Bottoms, Sue Rex, Gwen Robinson, 2013-01-11 As the UK and many other western societies face up to the consequences of a rapidly increasing prison population so the search for alternative approaches to punishment and dealing with offenders has become an increasingly urgent priority for government policy and society as a whole This book reports the results of the research programme commissioned by the Coulsfield Inquiry into Alternatives to Prison which was funded by the Esm e Fairbairn Rethinking Crime and Punishment initiative It is written by leading authorities in the field and provides a comprehensive authoritative and wide ranging review of the range of issues associated with the use of noncustodial sanctions examining experiences in Scotland and Northern Ireland as well as England and Wales **Radical Alternatives to Prison and the Penal Lobby** Mick Ryan, 1978 *Alternatives to Prison Sentences* J. Junger-Tas, 1994 This report surveys and summarizes the literature on the use of alternative sanctions in 12 western countries with a particular focus on its effectiveness and efficiency *Alternatives to Prison* Antony A. Vass, 1990 An outline and critical appraisal of alternatives to custody this book is written in response to escalating prison costs severe overcrowding and rising recidivism rates It assesses the validity of punishment in the community as a means of solving some of these problems **Alternatives to Women's Imprisonment** Pat Carlen, 1990 Carlen criminology U of Keele UK examines some of the fundamental issues concerning custodial and non custodial penalties She reports on existing provisions for women in England and Wales innovative projects in other countries and the impediments both ideological and political to reducing the female prison population Finally she outlines a strategy for the abolition of women s imprisonment Annotation copyrighted by Book News Inc Portland OR **Alternatives to Imprisonment in England and Wales, Germany and Turkey** Öznur Sevdiren, 2011-02-24 The book focuses on one of the most problematic areas of Turkish penal justice the overreliance on custodial measures and a corresponding growth in the prison population and compares Turkey with two major European countries in this respect England and Wales and Germany The underlying question throughout the study is the extent to which prison alternatives can be seen as genuine alternatives to immediate custodial sentences *Alternatives to Prison* Stephen Stanley, Mary Baginsky, 1984 Stephen Stanley and Mary Baginsky examine and evaluate the range of non custodial sentences available to the courts discussing their effectiveness and exploring the often complex issues they raise Drawing on a wide range research literature this is both a clear and informative synthesis of thinking on a pressing problem and an important contribution to the wider debate about how society should deal with crime and criminals *Alternatives to Imprisonment in Comparative Perspective* Uglješa Zvekić, 1994 This publication consists of two volumes V 1 presents regional and case study reports volume 2 presents a review of the literature and the International bibliography of alternatives to imprisonment 1980 1989 *Prison Alternatives and Rehabilitation* Craig Russell, 2018 The United States has almost three times as many prisoners as it did just twenty five years ago Although the cost of keeping people in prison is rising there are

less expensive alternatives that may also be more effective at keeping people from returning to jail after they are released Recent changes in the U S criminal code allow judges more freedom to give sentences other than prison Of the almost seven million convicted criminals in the U S only about two million of them are behind bars The rest nearly five million are serving alternative sentences This book explores the various prison alternatives from rehabilitation and community service to boot camps day reporting and house arrest Prison Alternatives and Rehabilitation provides a comprehensive look at the advantages and disadvantages of nontraditional punishments and what the future may hold for alternatives to prison

The Fall of the Prison Lee Griffith,1993 Examining prisons from the perspectives of sociology theology history and biblical exegesis Griffith argues that the church has taken a woefully wrong turn by aligning itself with the traditional justice system He shows how prisons are clearly ineffective at deterring crime and rehabilitating offenders and maintains that Christians should be even more concerned with how the prison fails in principle than how it fails in practice

[Encyclopedia of Criminological Theory](#) Francis T. Cullen,Pamela Wilcox,2010-09-23 Consistently excellent The level and coverage of the content make this an invaluable reference for students studying criminology or taking criminal psychology modules at degree level and beyond Adam Tocock Reference Reviews In discussing a criminology topic lecturers and course textbooks often toss out names of theorists or make a sideways reference to a particular theory and

move on as if assuming their student audience possesses the necessary background to appreciate and integrate the reference. However, university reference librarians can tell you this is often far from the case. Students often approach them seeking a source to provide a quick overview of a particular theory or theorist with just the basics: the who, what, where, how, and why. If you will, And reference librarians often find it difficult to guide these students to a quick one-stop source. In response, SAGE Reference is publishing the two-volume *Encyclopedia of Criminological Theory*, available in both print and electronic formats. This serves as a reference source for anyone interested in the roots of contemporary criminological theory. Drawing together a team of international scholars, it examines the global landscape of all the key theories and the theorists behind them, presenting them in the context needed to understand their strengths and weaknesses. In addition to interpretations of long-established theories, it also offers essays on cutting-edge research as one might find in a handbook. And like an unabridged dictionary, it provides concise-to-the-point definitions of key concepts, ideas, schools, and figures. Coverage will include contexts and concepts in criminological theory, the social construction of crime, policy implications of theory, diversity and intercultural contexts, conflict theory, rational choice theories, conservative criminology, feminist theory.

Alternative Societies Luke Martell, 2023-02-24. In a time of great gloom and doom internationally and of major global problems, this book offers an invaluable contribution to our understanding of alternative societies that could be better for humans and the environment. Bringing together a wide range of approaches and new strands of economic and social thinking from across the US, Mexico, Latin America, Europe, Asia, Middle East, and Africa, Luke Martell critically assesses contemporary alternatives and shows the ways forward with a convincing argument of pluralist socialism. Presenting a much-needed introduction to the debate on alternatives to capitalism, this ambitious book is not about how things are but how they can be.

A World Without Prisons Calvert R. Dodge, 1979. *Alternatives to Prisons* Ronald D. Lankford, 2012. These books provide a range of opinions on a social issue; each volume focuses on a specific issue and offers a variety of perspectives, e.g., eyewitness accounts, governmental views, scientific analysis, newspaper accounts, to illuminate the issue. This edition in the At Issue series offers readers a comprehensive look at the issues surrounding alternative prisons. The title explores the effectiveness of the American prison system, the use of boot camps as a potential alternative for juveniles, and a Greenhaven Press's At Issue series provides a wide range of opinions on individual social issues. Enhancing critical thinking skills, each At Issue volume is an excellent research tool to help readers understand current social issues and prepare reports.

Alternatives to Prison Craig Russell, 2015-02-03. In 2003, there were almost seven million criminals in the United States. But only about two million of them were behind bars. In *Alternatives to Prison*, you'll learn why those other five million people are out on parole or probation. You'll also learn about rehabilitation, community service, boot camps, day reporting, house arrest, and what the future may hold for other alternatives to prison.
