Challenges in Brazil Mary Garcia Castro, Lorena Bernadete da Silva, 2005 *Challenges and Issues facing the Education System in South Africa* Wilfred Legotlo, 2014-05-05 The quality of education is pivotal for the production of human capital and this cannot be compromised by failing to refocus on the quality of education offered in schools The inputs in the system such as trained and motivated teachers buildings and classrooms including sanitation clean water instructional material such as textbooks as well as strong leadership with vision to steer the winds of change are important in providing the desired

outcomes The chapters in this volume are broadly divided into three subsections as follows learner related issues farm and rural schools poverty and schooling school violence and students rights teacher related issues teacher morale and motivation teachers for all schools management needs of school principals and administrative policy related issues inclusive education and school community relations The social demand for better schools effective principals qualified and committed teachers and better opportunities for all place a huge challenge to provinces and the state to protect the rights of all citizens This volume sets out the challenges facing the education system in South Africa such as poor school infrastructure poor learning conditions and a lack of learning materials and provides recommendations on how some of these can be overcome

Healthcare Management Strategy, Communication, and Development Challenges and Solutions in Developing Countries
Emmanuel K. Ngwainmbi, 2014-05-08 Healthcare Management Strategy Communication and Development Challenges and Solutions in Developing Countries analyzes the ways in which health services public health administration and healthcare policies are managed in developing countries and how intercultural intergroup and mass communication practices are weakening those efforts If developing countries are to reach their development goals their leaders must have a firm understanding of the impact of infectious diseases on their people and take prompt action to fix socioeconomic issues arising from the problems associated with poor health practices Drawing on experiences from international health organizations such as the United Nations Population Fund UNFPA commissioned in poor countries to assist national governments in improving the wellbeing of their citizens this volume analyzes maternal and child mortality and the spread of infectious diseases and offers communication strategies for the management of malaria HIV Aids Polio tuberculosis and others in Somalia Madagascar Ghana South Africa Zimbabwe Nigeria the Democratic Republic of Congo and India *Confronting Challenges to the Liberal Arts Curriculum* Patti McGill Peterson, 2012-03-15 Comparative research on higher education in developing and transitional countries is often focused on such issues as access finance student mobility and the impact of globalization but there has been little attention to curriculum and the forces that shape it *Confronting Challenges to the Liberal Arts Curriculum* fills an important gap in the literature by examining the context content challenges and successes of implementing liberal arts coursework within undergraduate curriculum In order to fully understand the place of liberal education in each location chapter authors have employed a wide lens to investigate the influences upon curricular content in China India Mexico Pakistan Poland Russia South Africa and Turkey Thus this volume explores how curricular content is decided how educational programs are being structured and whether countries are viewing higher education as more than just the preparation of students for specialized knowledge By providing detailed case studies of these countries at crucial transition points in their higher education systems each chapter outlines the state of higher education system and the government's role the impact of imported models the presence of a liberal education the curricular formation and best examples of successful programs Ultimately this volume depicts how global influences have come to rest in developing

countries and how market forces far removed from faculty and students have shaped the undergraduate curriculum This valuable book is of interest to scholars and researchers in Higher Education as well as practitioners working to foster student and faculty exchange and raise awareness of curricular issues

Masculinity and Its Challenges in India Rohit K. Dasgupta, K. Moti Gokulsing, 2014-01-03 This volume of new

interdisciplinary essays provides insights into the emerging field of masculinities and the challenges it poses to the Indian male. Masculinities research has evolved considerably and demonstrates that men are not an homogenous group but are instead diverse. There are many masculinities. Manliness can no longer be studied from just a North American or European perspective but from those of every part of the world. Covering an array of topics such as the construction of identity and the negotiation of power and sexuality, these essays aim to show how masculinities are experienced and embodied within India.

AIDS, Counselling and Nutritional Therapy Augustine Nwoye, 1994 **Primary health care services delivery. Issues and challenges** Makar Linus Iornenge, 2020-10-15

Case Study from the year 2020 in the subject Health Health system language English abstract The study attempts to explore the impact and challenges of PHC delivery system with the intension of generating data for policy and planning The goal of primary health care PHC was to provide accessible health for all by the year 2020 and beyond Unfortunately this is yet to be achieved in Nigeria and seems to be unrealistic in the next decade The PHC aims at providing people of the world with the basic health services Though PHC centers were established in both rural and urban areas in Nigeria with the intention of equity and easy access regrettably the rural populations in Nigeria are seriously underserved when compared with their urban counterparts About two thirds of Nigerians reside in rural areas therefore they deserve to be served with all the components of PHC Primary health care which is supposed to be the bedrock of the country s health care policy is currently catering for less than 20% of the potential patients While most PHC facilities are in various state of disrepair with equipment and infrastructure being either absent or obsolete the referral system is almost non existent The goal of the National Health Policy 1987 is to bring about a comprehensive health care system based on primary health care that is promotive protective preventive restorative and rehabilitative to all citizens within the available resources so that individuals and communities are assured of productivity social well being and enjoyment of living The health services based on PHC include among other things education concerning prevailing health problems and the methods of preventing and controlling them promotion of food supply and proper nutrition material and child care including family planning immunization against the major infectious diseases prevention and control of locally endemic and epidemic diseases and provision of essential drugs and supplies The provision of health care at PHC level is largely the responsibility of local governments with the support of state ministries of health and within the overall national health policy Private medical practitioners also provide health care at this level
