Complementary and integrative medicine CIM has become big business. Alongside the increased consumption of complementary medicine and the swelling numbers of complementary health practitioners has emerged a growing interest in these medicines and therapies from within the ranks of conventional primary health care. At the level of practice and beyond a culture of confrontation and antagonism has begun to be replaced by a focus upon potential integration, collaboration and common ground. With these significant developments in mind, this ground breaking book is a valuable and timely addition to the CIM and primary health care research literature. The collection outlines the core issues, challenges and opportunities facing the CIM primary health care interface and its study and will provide insight and inspiration for those practising, studying and researching the contemporary relations between CIM and primary health care. The book is the first to be authored by leading international CIM primary health care researchers from diverse disciplines and backgrounds including health, social science, statistics, qualitative methodology, general practice, clinical trials design, clinical pharmacology, health services research and public health. All contributors are active CIM primary health care researchers and their extensive research and practice experience helps lend a unique immediacy and richness to the contributions and collection.

Textbook of Natural Medicine Joseph E. Pizzorno, Jr. ND, Michael T. Murray, ND, 2012-09-14. Covering preventive, non-invasive and natural treatments, *Textbook of Natural Medicine* 4th Edition offers more than just alternative medicine. It promotes an integrated practice that can utilize natural medicine, traditional Western medicine or a combination of both in a comprehensive scientific treatment plan. Based on a combination of philosophy and clinical studies, *Textbook of Natural Medicine* helps you provide health care that identifies and controls the underlying causes of disease, is supportive of the body's own healing processes and is considerate of each patient's unique biochemistry. Internationally known authors Joseph Pizzorno and Michael Murray include detailed pharmacologic information on herbs and supplements, plus evidence based coverage of diseases and conditions to help you make accurate diagnoses and provide effective therapy. Comprehensive, unique coverage makes this book the gold standard in natural medicine. A scientific presentation includes the science behind concepts and treatments and discusses Western medical treatments and how they can work with natural medicine in a comprehensive treatment plan. If natural medicine is not effective, this book recommends the Western treatment. Coverage of pharmacology of natural medicines includes the uses and potential dangers of nearly 80 herbal medicines, special nutrients and other natural agents, addressing topics such as general information, chemical composition, history, pharmacology, clinical applications, dosage and toxicology. In depth, evidence based coverage of 73 diseases and conditions includes key diagnostic criteria, pathophysiology of diseases and therapeutic rationales. Coverage of potential interactions between drugs, herbs and supplements ensures the safest possible use for each of 79 herbs and supplements. Diagnostic procedures include practical, easy to follow descriptions of evidence based techniques, plus discussions of clinical application of diet analysis, food allergy testing, immune function assessment, fatty acid profiling, hair mineral analysis and other diagnostic approaches. Common

therapeutic modalities are described and reviewed including botanical medicine nutritional therapy therapeutic fasting exercise therapy hydrotherapy counseling acupuncture homeopathy and soft tissue manipulation Coverage of syndromes and therapies helps in understanding the underlying causes of diseases by discussing topics such as food reactions functional toxicology sports nutrition stress management and breathing pattern disorders Coverage of the philosophy of natural medicine includes its history and background with discussions of toxicity detoxification and scientific documentation of the healing actions of nature and natural substances Internationally known authors Joseph Pizzorno and Michael Murray and more than 90 expert contributors provide material that is up to date accurate and informed More than 10 000 research literature citations show that the content is based on science rather than opinions or anecdotes 13 useful appendices offer quick lookup of frequently used charts handouts and information New chapters are included on hot topics such as female infertility medicinal mushrooms natural products and quality control pregnancy health and primary prevention and Vitamin K new appendices include a supplier certification questionnaire and cervical escharotics treatment Thorough updates ensure that you use only the most current research and provide the most effective treatment of patients Tabs in Specific Health Problems section separate more than 70 alphabetized diseases conditions One convenient volume replaces the cumbersome two volume set for easy convenient reference Electronic access is available via Pageburst making it easy to search topics drugs herbs and supplements and diseases and conditions Sold separately
