Mary Crawford

Aids In Nepal Communities Confronting An Emerging Epidemic:

AIDS in Nepal Jill Hannum, 1997-11-04 In 1993 the American Foundation for AIDS Research AmFAR began a three year community based AIDS prevention program in 17 sites scattered throughout the Himalayan Kingdom of Nepal with the objective of enabling people to protect themselves and their sexual partners against HIV AIDS through information education and access to means of prevention The program also aimed to reduce people s individual and collective vulnerability to HIV AIDS through the teaching of literacy and other skills needed for alternate income generation In *AIDS in Nepal Communities Confronting An Emerging Epidemic* Jill Hannum presents the voices of people who are at the forefront of the response to HIV AIDS in Nepal She reveals the many discoveries that the community based organizations made through their interaction with young people and adults across the country as they opened a dialogue on sexuality and disseminated information on safer sexual behavior in culturally appropriate ways This book is a powerful resource for individuals and organizations concerned with community based health and social development programs both within and outside Nepal It carries a message of hope as communities and those who support them demonstrate how they can respond effectively to an emerging epidemic

relationship with Nepal and the women who guide the study and the realization that a more accessible research approach was needed than the techniques otherwise commonly used it discusses the use of clay and photography as ideal entry points to engaging with the women in the research and creating this ethical methodology for self empowerment Not only does the volume highlight extraordinary insights offered by the women involved in this study through the application of CERM but also the recognition that its use requires expertise that can deal with the potential elicitation of trauma The book makes the case for further study on improving the method s use in research education and therapy involving low literate stigmatized oppressed and marginalized populations particularly where cultural sensitivity is an important consideration A Feminist Approach to Sensitive Research is suitable for students scholars and researchers in Gender Studies Sociology Health Studies Anthropology and Asian Studies
