Beasts of the Field Richard Steven Street, 2004 Written by one of America's preeminent labor historians this book is the definitive account of one of the most spectacular captivating complex and strangely neglected stories in Western history the emergence of migratory farmworkers and the development of California agriculture Street has systematically worked his way through a mountain of archival materials more than 500 manuscript collections scattered in 22 states including Spain and Mexico to follow the farmworker story from its beginnings on Spanish missions into the second decade of the twentieth century The result is a comprehensive tour de force Scene by scene the epic narrative clarifies and breathes new life into a controversial and instructive saga long surrounded by myth conjecture and scholarly neglect With its panoramic view spanning 144 years and moving from the US Mexico border to Oregon *Beasts of the Field* reveals diverse patterns of life and labor in the fields that varied among different crops regions time periods and racial and ethnic groups Enormous in scope packed with surprising twists and turns and devastating in impact this compelling revelatory work of American social history will inform generations to come of the history of California and the nation

The Oxford Handbook of Agricultural History Jeannie M. Whayne, 2024 Agricultural history has enjoyed a rebirth in recent years in part because the agricultural enterprise promotes

economic and cultural connections in an era that has become ever more globally focused but also because of agriculture's potential to lead to conflicts over precious resources. The Oxford Handbook of Agricultural History reflects this rebirth and examines the wide-reaching implications of agricultural issues featuring essays that touch on the green revolution, the development of the Atlantic slave plantation, the agricultural impact of the American Civil War, the rise of scientific and corporate agriculture, and modern exploitation of agricultural labor.

An African American and Latinx History of the United States Paul Ortiz, 2018-01-30. An intersectional history of the shared struggle for African American and Latinx civil rights. Spanning more than two hundred years, *An African American and Latinx History of the United States* is a revolutionary, politically charged narrative history arguing that the Global South was crucial to the development of America as we know it. Scholar and activist Paul Ortiz challenges the notion of westward progress as exalted by widely taught formulations like manifest destiny and Jacksonian democracy and shows how placing African American, Latinx, and Indigenous voices unapologetically front and center transforms US history into one of the working class organizing against imperialism. Drawing on rich narratives and primary source documents, Ortiz links racial segregation in the Southwest and the rise and violent fall of a powerful tradition of Mexican labor organizing in the twentieth century to May 1, 2006, known as International Workers' Day, when migrant laborers, Chicanas/os, Afrocubanos, and immigrants from every continent on earth united in resistance on the first Day Without Immigrants. As African American civil rights activists fought Jim Crow laws and Mexican labor organizers warred against the suffocating grip of capitalism, Black and Spanish language newspapers, abolitionists, and Latin American revolutionaries coalesced around movements built between people from the United States and people from Central America and the Caribbean. In stark contrast to the resurgence of America First rhetoric, Black and Latinx intellectuals and organizers today have historically urged the United States to build bridges of solidarity with the nations of the Americas. incisive and timely, this bottom-up history told from the interconnected vantage points of Latinx and African Americans reveals the radically different ways that people of the diaspora have addressed issues still plaguing the United States today and it offers a way forward in the continued struggle for universal civil rights. 2018 Winner of the PEN Oakland Josephine Miles Literary Award.

Women and the Sikh Diaspora in California Nicole Ranganath, 2024-05-31. This book charts the transoceanic history of South Asian women in California through their speech and songs across the twentieth century. Nicole Ranganath reimagines the history of the South Asian diaspora through an examination of gender and the dynamic interplay of water and land in the cultural history of Sikhs, a faith and cultural community that emerged in the Punjab region of north South Asia over 550 years ago. It shows how the history and music of transoceanic communities in this case, Sikhs, spilled beyond the boundaries of regions, empires, and nation-states. It emphasizes the heterogeneity of the South Asia diaspora by uncovering the distinct history of women's migration experiences as well as an alternative oceanic imaginary among Sikhs that envisions unity in the cosmos. It foregrounds the pivotal role that women played in transforming

Sikh communities in California through songs and female affinities Based on six years of fieldwork in rural northern California it explores song as a window into the interior lives of Sikh women through their performance of diverse genres gadar anti colonial songs folk music hymns and autobiographical songs This sonic history of South Asian women in the diaspora dislodges dominant paradigms in diaspora studies and oceanic humanities that depict men as mobile and women as stationary Women and the Sikh Diaspora in California will interest scholars of migration South Asia and South Asian American studies oceanic humanities Sikh studies music and women s studies It is also essential reading for anyone who is curious about global music and migration as well as Sikh history

Raising the Redwood Curtain Michael T. Karp,2025-10 Raising the Redwood Curtain explores how shifting land use practices and exploitative labor patterns spurred by the colonial settlement of the Pacific world influenced the genocide of California s Native people anti Asian campaigns and the oppression of eastern European immigrant workers By carefully examining these local developments it explores how global capitalism fundamentally reordered labor patterns and social relations By analyzing the history of three episodes of labor and racial violence in Humboldt County California Michael T Karp spans nearly a century in a detailed examination of the causes and interconnections between the Indian Island massacre of 1860 the expulsion of Chinese and Japanese people from the county between 1885 and 1906 and the killing and persecution of eastern Europeans during the Great Lumber Strike of 1935 Regional labor and land use patterns shaped these events but so did global economic developments and environmental change connecting disparate acts of racial violence across time By bringing together new scholarship on the American West environmental history and the Pacific world Michael T Karp illustrates the importance of considering communities on the periphery to better understand the violence that defined the colonial settlement of North America
