Citizenship Rights And Social Movements A Comparative And Statistical Analysis:

Citizenship Rights and Social Movements Joe Foweraker, Todd Landman, 1997 This is the first truly comparative study of the relationship between social movements and citizenship rights Focusing on the experiences of Brazil Chile Mexico and Spain the authors employ sophisticated quantitative research methods to measure comparative variations between these two factors analyzing their relationship both within and across national cases They proceed to test the main connections made between movements and rights in both theory and history evaluating these in the light of the experience of modern authoritarian regimes

Citizenship Rights and Social Movements Joe Foweraker, 1997 This study of the relationship between social movements and citizenship rights identifies the main connections made between collective action and individual rights in theory and in history and tests them in the context of modern authoritarian regimes

Social Movements, Indigenous Politics and Democratisation in Guatemala Roderick Leslie Brett, 2008 Drawing on social movement theory this book presents a comprehensive analysis of the evolution of collective action during Guatemala's democratic transition 1985-1996 and the accompanying impact of social movements on democratisation focusing on three indigenous peoples' social movement organisations

The Blackwell Companion to Political Sociology Kate Nash, Alan Scott, 2008-04-30 The Blackwell Companion to Political Sociology brings together thirty eight original essays covering the wide inter disciplinary field of political sociology Represents the most comprehensive overview available in the field of political sociology Covers traditional questions as well as emerging topics including recent debates on gender citizenship and political identity Includes detailed editorial introduction abstracts further reading lists and a consolidated bibliography

Social Movements, Indigenous Politics and Democratisation in Guatemala, 1985-1996 Mark G. Brett, 2008-02-28 This book analyses patterns of collective action that emerged during Guatemala's democratic transition between 1985 and 1996 focusing in particular on the role of indigenous actors in the political processes undergirding and shaping democratisation and the respective impact of the transition upon indigenous social movements Comparatively little has been written about collective action in Guatemala within the discipline of political science despite the mobilisation of a wide range of social movements in response to the brutal armed conflict rather literature has focused principally on the role of elite actors in democratisation This study presents a fresh perspective presenting an analysis of the political evolution of three social movements and their human rights platforms through the framework of social movement theory

Handbook of Social Movements Across Disciplines Conny Roggeband, Bert Klandermans, 2017-07-31 This book aims to revisit the interdisciplinary roots of social movement studies Each discipline raises its own questions and approaches the subject from a different angle or perspective The chapters of this handbook are written by internationally renowned scholars representing the various disciplines involved They each review the approach their sector has developed and discuss their disciplines contributions and insights to the knowledge of social movements Furthermore each chapter addresses the unanswered

questions and discusses the overlaps with other fields as well as reviewing the interdisciplinary advances so far

Handbook of Social Movements across Latin America Paul Almeida, Allen Cordero Ulate, 2015-07-14 This handbook covers social movement activities in Latin American countries that have had profound consequences on the political culture of the region. It examines the developments of the past twenty years such as a renewed upswing in popular mobilization, the ending of violent conflicts and military governments, new struggles and a relatively more democratic climate. It shows that from southern Chiapas to Argentina, social movements in the 1990s and especially in the 2000s have reached new heights of popular participation. There is a lack of research on the politics of this region in the contemporary era of globalization; this volume partially fills the void and offers a rich resource to students, scholars and the general public in terms of understanding the politics of mass mobilization in the early twenty-first century. The contributors each address social movement activity in their own nation and together they present a multidisciplinary perspective on the topic. Each chapter uses a case study design to bring out the most prominent attributes of the particular social struggles; for instance, the main protagonists in the campaigns, the grievances of the population and the outcomes of the struggles. This Handbook is divided into seven substantive themes providing overall coherence to a broad range of social conflicts across countries, issues and social groups. These themes include: 1. theory of Latin American social movements, 2. neoliberalism, 3. indigenous struggles, 4. women's movements, 5. movements and the State, 6. environmental movements and 7. transnational mobilizations. Issues and Methods in Comparative Politics Todd Landman, 2003 Explores the importance of comparative politics, discusses different comparative methods, investigates the big issues of today and looks forward to the key challenges for comparative politics over the next century. *Research Methods in Human Rights* Bård A. Andreassen, Claire Methven O'Brien, Hans-Otto Sano, 2024-05-02 In this thoroughly revised second edition, editors Bård A. Andreassen, Claire Methven O'Brien and Hans-Otto Sano advance contemporary discussions on human rights methodology, bringing together an array of leading scholars to offer instruction and guidance on the methodological approaches to human rights research. **The Sociology of Law and the Global Transformation of Democracy** Chris Thornhill, 2018-06-21 Provides a new legal sociological theory of democracy reflecting the impact of global law on national political institutions. This title is also available as Open Access. **Best Practices in Marketing and their Impact on Quality of Life** Helena Alves, José Luis Vázquez, 2013-06-04 This book is based on the premise that marketing is central to understanding and advancing companies, businesses, countries, major economic areas and everyday problems. It opposes the view held by some social scientists that the positive effects of marketing in a society are a product of capitalist enterprises and that marketing involves excessive exploitation and is a tool for creating and maintaining their power structures. To illustrate its point, the book examines successful marketing practices with implications for consumers' quality of life. Its compilation of cases from all over the world provides a unique and concise review of best practices in marketing and their impact on QOL. Each case in the book presents a specific social problem and

discusses details of the marketing strategy adopted to resolve it as well as the results obtained both for society at large and in terms of the citizens quality of life In addition each case addresses the theoretical background of the specific area of marketing used in the case

The Architecture of Democracy Andrew Reynolds, 2002 This text discusses the successes and failures of constitutional design Chapters analyse the effect of presidential and parliamentary systems federalism and autonomy and electoral systems

Democracy and Political Change in the Third World Jeff Haynes, 2003-09-02 This book examines the experience of democracy in developing countries such as Mexico Zambia India and Indonesia It considers the patchy democratic record of such countries as well as investigating the relationship between external and domestic factors to democratisation The contributors assess the importance to democratic progress of a number of key variables including the institutionalisation of political parties and electoral systems the role of civil society the influence of external actors such as the European Union

Determinants of Democratization Jan Teorell, 2010-10-28 What are the determinants of democratization Do the factors that move countries toward democracy also help them refrain from backsliding toward autocracy This book attempts to answer these questions through a combination of a statistical analysis of social economic and international determinants of regime change in 165 countries around the world in 1972 2006 and case study work on nine episodes of democratization occurring in Argentina Bolivia Hungary Nepal Peru the Philippines South Africa Turkey and Uruguay The findings suggest that democracy is promoted by long term structural forces such as economic prosperity but also by peaceful popular uprisings and the institutional setup of authoritarian regimes In the short run however elite actors may play a key role particularly through the importance of intra regime splits Jan Teorell argues that these results have important repercussions both for current theories of democratization and for the international community's effort in developing policies for democracy promotion

From Movements to Parties in Latin America Donna Lee Van Cott, 2007-04-30 Provides a detailed treatment of an important topic that has received no scholarly attention the surprising transformation of indigenous peoples movements into viable political parties in the 1990s in four Latin American countries Bolivia Colombia Ecuador Venezuela and their failure to succeed in two others Argentina Peru The parties studied are crucial components of major trends in the region By providing to voters clear programs for governing and reaching out in particular to under represented social groups they have enhanced the quality of democracy and representative government Based on extensive original research and detailed historical case studies the book links historical institutional analysis and social movement theory to a study of the political systems in which the new ethnic cleavages emerged The book concludes with a discussion of the implications for democracy of the emergence of this phenomenon in the context of declining public support for parties

Democratic Consolidation in Eastern Europe: Volume 2: International and Transnational Factors Jan Zielonka, Alex Pravda, 2001-06-14 This is the second volume in a two volume series of books on democratic consolidation in Eastern Europe The first volume focused on the issue of institutional engineering This second volume analyses the external

parameters of democratic consolidation in thirteen Eastern European countries how different international actors and various economic cultural and security types of transnational pressures have shaped democratic politics in the region The aim is to contrast a set of democracy theories with empirical evidence accumulated in Eastern Europe over the last ten years The volume tries to avoid complex debates about definitions methods and the uses and misuses of comparative research Instead it seeks to establish what has really happened in the region and which of the existing theories are helpful in explaining these developments The volume is divided into two parts The first part presents a conceptual and comparative frame of analysis the second consists of detailed studies of individual countries undergoing democratic consolidation Case study chapters deal with the following countries Estonia and Latvia Hungary Poland the Czech Republic Slovakia Romania Bulgaria and Macedonia the states of former Yugoslavia Belarus and Ukraine and finally Russia The concluding chapter identifies a set of variables responsible for the enormous impact of external factors on democratic consolidation in Eastern Europe It conceptualises the interplay of internal and external factors impinging upon democracy and shows the interplay of different positive and negative types of external pressures It also evaluates the conscious Western effort to craft or engineer democracy in Eastern Europe

Democratic Consolidation in Eastern Europe Jan Zielonka, Alex Pravda, 2001 This second volume in a series of books on democratic consolidation in Eastern Europe analyzes the external parameters of such a consolidation in thirteen Eastern European countries It explores how different international actors and various economic cultural and security types of transnational pressures have shaped democratic politics in the region especially over the last decade

Annuaire Europeen 2000/European Yearbook 2000 Francis Rosensteel, 2001-07-01 The year 2000's most significant international event was almost certainly neither political nor military but scientific the announcement in June that the human genome had been almost totally decoded Future generations may well see this as a major turning point opening the way to radical changes in diagnosis prognosis and medical treatment Often compared with the space programme this vast enterprise still generates misgivings this new power which human beings now have to modify the genetic heritage of living creatures raises fundamentally new ethical questions and society as a whole will have to find the answers In fact the accelerating pace of scientific and technical progress seems to be reviving atavistic anxieties some rational others less so Recent public health crises including the mad cow disease scare which lasted into 2000 have fuelled these fears The public's rejection of GMOs Genetically Modified Organisms verging on a crusade in some countries tells its own story As regards conflict 2000 saw the Middle East peace process grind to a halt and the Intifada resume In Europe the situation in Kosovo and Chechnya both the scenes of fighting in 1999 stayed precarious Peace and democracy did score some successes however particularly in Europe the centre left's victory in Croatia sweeping former President Tudjman's party off the scene the democratic party's triumph in Bosnia and the fall of the Milosevic regime in Serbia

Regimes, Politics, and Markets José María Maravall, 1997 This study analyzes the mutual relationships between politics and the economy Focusing on the

experiences of Southern and Eastern Europe it examines the complex interdependence between democracies economic growth social redistribution and political culture

Democratic Consolidation in Eastern Europe: Volume 1: Institutional Engineering Jan Zielonka, 2001 This is the first volume in a series of books on democratic consolidation in Eastern Europe The series focuses on three major aspects of democratic consolidation in Eastern Europe institutional engineering transnational pressures and civil society This first volume analyses constraints on and opportunities of institutional engineering in Eastern Europe to what extent and how elites in Eastern Europe have been able to shape if not manipulate the politics of democratic consolidation through institutional means The aim is to contrast a set of democracy theories with empirical evidence accumulated in Eastern Europe over the last ten years The volume tries to avoid complex debates about definitions methods and the uses and misuses of comparative research Instead it tries to establish what has really happened in the region and which of the existing theories have proved helpful in explaining these developments The volume starts with a presentation of conceptual and comparative frameworks followed by in depth empirical analyses of the thirteen individual countries undergoing democratic consolidation The first conceptual and comparative part contains three chapters The first chapter explains what institutional engineering is about and describes our experiences with institutional engineering in former transitions to democracy It also focuses on the import and export of institutional designs The second chapter analyses the utility of constitutions in the process of democratic consolidation The third chapter compares constitutional designs and problems of implementation in Southern and Eastern Europe The empirical case studies deal with the following countries Estonia Latvia Lithuania Bulgaria Romania Ukraine Russia Belarus the Czech Republic Slovakia Slovenia Hungary and Poland And the conclusions evaluate the enormous impact of institutions on politics in Eastern Europe and show how central constitutional designs are to the institutional engineering in the societies undergoing transitions to democracy
