Beck on Mithraism Roger Beck, 2020-11-25 Roger Beck a world authority on Mithraism brings together his major writings on the Mysteries of Mithras in the context of the culture and religions of imperial Rome In these studies he opens new vistas on myth making ritual symbolism the role of astrology in the cult recently discovered Mithraic monuments and artefacts and the emergence of Mithraism and Christianity concurrently in the first century Beck offers new introductions to his thematically framed groups of writings and adds six entirely new essays published here for the first time These essays link his research to contemporary studies in cognitive science of religion and anthropology of religion This collection will appeal particularly to scholars exploring contemporary aspects in anthropology of religion astronomy and astrology cults and myths images and symbols as well as traditional scholars of Greco Roman antiquity and Christian origins **Past Minds** Luther H Martin, Jesper Sørensen, 2016-06-16 How do historians understand the minds motivations intentions of historical agents What might evolutionary and cognitive theorizing contribute to this work What is the relation between natural and cultural history Historians have been intrigued by such questions ever since publication in 1859 of Darwin s *The Origin of Species* itself the historicization of biology This interest reemerged in the latter part of the twentieth century among a number of biologists philosophers and historians reinforced by the new interdisciplinary finding of cognitive scientists about the universal capacities of and constraints upon human minds The studies in this volume primarily by historians of religion continue this discussion by focusing on historical examples of ancient religions as well as on the theoretical promises and problems relevant to that study **Thiselton on Hermeneutics** Anthony C. Thiselton, 2017-05-15 Hermeneutics is an interdisciplinary study of how we interpret texts especially biblical texts in the light of theories of understanding in philosophy meaning in literary theory and of theology This volume brings together the seminal thought of a leading contemporary pioneer in this field Thiselton s *The Two Horizons* was a classic on how horizons of biblical texts engage creatively with the horizons of the modern world The author s later *New Horizons in Hermeneutics* explored still more deeply the transforming capacities of biblical texts while his massive commentary on 1 Corinthians interpreted an epistle This volume collects many of Anthony Thiselton s more notable writings from some seven books and 70 articles to which he adds his own re appraisals of earlier work It uniquely expounds the thought of a major contemporary British theologian through his own words and includes his own critical assessments *Philology of the Grasslands*, 2018-01-16 Professor Gyrgy Kara an outstanding member of academia celebrated his 80th birthday recently His students and colleagues commemorate this occasion with papers on a wide range of topics in Altaic Studies with a focus on the literacy culture and languages of the steppe civilizations Religious Networks in the Roman Empire Anna Collar, 2013-12-12 Examines the relationship between social networks and religious transmission to reappraise how new religious ideas spread in the Roman Empire *Beyond Priesthood* Richard L. Gordon, Georgia Petridou, Jörg Rüpke, 2017-08-21 The last decade has seen a surge of scholarly interest

in these religious professionals and a good number of high quality publications Our volume however with its unique intercultural character and its explicit focus on appropriation and contestation of religious expertise in the Imperial Era is substantially different Unlike the rather narrow focus of earlier studies of civic priests the papers presented here examine a wider range of religious professionals their dynamic interaction with established religious authorities and institutions and their contributions to religious innovation in the ancient Mediterranean world from the late Hellenistic period through to Late Antiquity from the City of Rome to mainland Greece Asia Minor Syria and Egypt from Greek civic practice to ancient Judaism A further advantage of our volume is the wide range of media of transmission taken into account Our contributors look at both old and new materials which derive not only from literary sources but also from papyri inscriptions and material culture Above all this volume assesses critically convenient terminological usage and offers a unique insight into a rich gamut of ancient Mediterranean religious specialists

The Books of Jeu and the Pistis Sophia as Handbooks to Eternity Erin Evans, 2015-08-11 Despite the surge of interest in Gnostic texts following the discovery of the Nag Hammadi library the Coptic Books of Jeu and Pistis Sophia remain understudied Often dismissed as convoluted confused and repetitious Erin Evans convincingly shows that these texts represent the writings of a distinct religious group with a consistent system of theology cosmology and ritual practice This book offers an in depth examination of these texts their relationship to other contemporary Gnostic ideas and their use in the context of a practicing religious group Three thematic sections demonstrate how the collection of texts functions as a whole covering baptisms and mystical ascent procedures guides to moral living and introductory texts and myths
