Older Women and Well-Being Mala Kapur Shankardass, 2021-09-24 This book provides deep insights into concerns related to the well being in older women across the globe Written by experts in the field it explores social roles health quality of life well being as well as concerns related to abuse and neglect impacting the health of older women It discusses important conditions for the holistic health of older women from different perspectives and provides practical guidelines towards improving the overall status of older women s well being in society The chapters analyze the wider implications of older women s experiences as family members drivers of economies and members of a diverse population worldwide Covering a focus which is applicable to countries across continents whether developed or developing the book has an overall appeal to academicians health care policy makers as well as researchers in areas such as aging gerontology social work and psychology

Ageing in Singapore Peggy Teo, Kalyani Mehta, Leng Leng Thang, Angelique Chan, 2006-09-27 Providing original critical discourse from Asian writers recording Asian voices this fascinating text is an invaluable resource giving an in depth analysis of the experience of ageing in Singapore

Intermediate Care of Older People Siân Wade, 2006-02-22 Intermediate care has become a buzzword within health and social care over the last few years Seen as the panacea for a number of woes particularly for older people intermediate care has been held up as a way forward within contemporary health and social care This text explores in detail what is understood by the concept of intermediate care and in particular ways in which the needs of older people can be best met by this new range of services Initial discussion centres on the concept of intermediate care and the motives for its development This is followed by a summary of the range of intermediate care services that have been developed with a discussion of some of the confusion that surrounds the concept The debate then moves on to centre on older people discussing first why older people have come to be perceived as one of the main client groups that may benefit from intermediate care and then how intermediate care could be developed to better serve their needs An overview of ageing and the uniqueness of older people is then provided followed by an exploration of some of the challenges faced by older people within society and how this has extended into the delivery of health and social care

Developmental Theories Through the Life Cycle Sonia G. Austrian, 2008-02-18 In this bestselling textbook contributors describe theories of normal human development advanced by such pioneers as Sigmund Freud Anna Freud Jean Piaget Nancy Chodorow Daniel Levinson Erik

Erikson and Margaret Mahler Beginning with infancy toddlerhood and preschool each chapter examines corresponding ideologies concerning maturation and development in middle childhood adolescence adulthood and old age while acknowledging that no one theory can encompass all aspects of human development In depth analyses of the psychology and sociology of development provide educators and practitioners with insights into the specific social contexts of human behavior and help identify variables and deviations This second edition features up to date empirical information including additional studies on diverse populations and a new chapter on attachment theory a growing area of interest for today s clinicians

Handbook of Communication and Aging Research Jon F. Nussbaum, Justine Coupland, 2004-04-12 This second edition of the Handbook of Communication and Aging Research captures the ever changing and expanding domain of aging research Since it was first recognized that there is more to social aging than demography gerontology has needed a communication perspective Like the first edition this handbook sets out to demonstrate that aging is not only an individual process but an interactive one The study of communication can lead to an understanding of what it means to grow old We may age physiologically and chronologically but our social aging how we behave as social actors toward others and even how we align ourselves with or come to understand the signs of difference or change as we age are phenomena achieved primarily through communication experiences Synthesizing the vast amount of research that has been published on communication and aging in numerous international outlets over the last three decades the book s contributors include scholars from North America and the United Kingdom who are active researchers in the perspectives covered in their particular chapter Many of the chapters work to deny earlier images of aging as involving normative decrement to provide a picture of aging as a process of development involving positive choices and providing new opportunities A recurring theme in many chapters is that of the heterogeneity of the group of people who are variously categorized as older aged elderly or over 65 The contributors review the literature analytically in a way that reveals not only current theoretical and methodological approaches to communication and aging research but also sets the future agenda This handbook will be of great interest to scholars and researchers in gerontology developmental psychology and communication and in this updated edition will continue to play a key role in the study of communication and aging

Vision and Aging Alberta L. Orr, 1992 This overview of the service delivery systems in the aging and blindness fields covers the essential issues concerning vision loss among older persons in this country the growth of visual impairment among the increasing number of elderly people in the United States and the policy and service questions that will demand national attention throughout this and the coming decade

Later Life Harold Cox, 2015-11-17 An interdisciplinary introduction to the aging process which uses symbolic interactionism as the main theoretical perspective Accessible interdisciplinary coverage with chapters covering a variety of subject matter areas from biology to psychology from economics to sociology from political science to religion Utilizes symbolic interaction perspective to explain behavior problems and an individual s adaptations associated with the process of

aging Cinematic Representations of Alzheimer's Disease Raquel Medina, 2018-08-09 This book offers a cross cultural approach to cinematic representations of Alzheimer's disease in non mainstream cinema Even though Alzheimer's disease the most common form of dementia is a global health issue it is not perceived or represented homogenously around the world Contrary to very well known mainstream films the films discussed do not focus on the negative aspects normally associated with Alzheimer's disease but on the importance of portraying the perspective of the persons living with Alzheimer's and their personhood Similarly this book analyses how the films use Alzheimer's as a trope to address issues relating to different areas of life and society such as for example family matters intergenerational relationships gender issues national traditions versus global modernity and caring for people with dementia By examining an array of films from crime fiction to documentary that each present non stigmatising representations of Alzheimer's disease this in depth study ultimately demonstrates the power of culture in shaping meaning

Challenges of the Third Age Robert Stuart Weiss, Scott A. Bass, 2002 This volume addresses the issues of the Third Age that time after retirement when financial stability and reduced obligations to others together allow for freedom and good health makes it possible to enjoy that freedom How in this special time of life is meaning and purpose to be found And what alternatives are available These difficult questions are responded to by scholars in the field of aging some themselves in the Third Age

Recreation Activities for the Elderly Kay Flatten, Barbara Cathryn Wilhite, Eleanor Reyes-Watson, 1988

Population Aging in Societal Context Mark Tausig, Janardan Subedi, Saruna Ghimire, 2025-07-30 This book offers an explanatory schema for comprehending aging in a societal context focusing on the country of Nepal Contributions to this book use an institutional contextual approach and a life course perspective to document and assess societal responses to the increase in the number of older adults in a specific country This emerging age group entails the development of new and modified social institutions new and modified cultural norms and the reallocation of social resources within a given country The study represents a means to understand the status and needs of older adults systematically and to orient policies and programs intended to address the increase in the older population It can be applied to countries grappling with similar challenges of rapid population aging and significant social change A pioneering effort in understanding aging as a social process embedded in social economic cultural and life course contexts this book fills a gap in Asian Studies Social Policy and Population Studies
