Buller, Robert E. Cipriano, 2021-06-01 Many colleges and universities are struggling to strike a balance between protecting free speech as a way of supporting their goal of academic freedom and promoting civility as a way of creating an environment where students can learn and faculty members can teach and conduct research There have been numerous recent incidents of audiences shouting down speakers burning books and demanding that specific students be expelled or faculty members be terminated In this highly fractious environment schools are wondering What works when seeking to attain the twin goals of permitting unrestricted speech but insisting on rules of decorum for debate and the exchange of perspectives This book explores what schools have actually attempted in some cases successfully and in some cases not successfully to address these issues It concludes that there are three primary strategies that tend to be effective treating challenges to free speech and campus civility as teachable moments exploring hypothetical scenarios with students faculty members and administrators before there is a serious incident and approaching free speech and campus civility across the curriculum The book also surveys United States case law on the topics of free speech academic freedom the right to protest and similar subjects so as to provide faculty members and administrators with a concise resource filled with practical and accurate information *Ritual Communication* Bloomsbury Publishing, 2015-03-06 *Ritual Communication* examines how people create and express meaning through verbal and non verbal ritual Ritual communication extends beyond collective religious expression It is an intrinsic part of everyday interactions ceremonies theatrical performances shamanic chants political demonstrations and rites of passage Despite being largely formulaic and repetitive ritual communication is a highly participative and self oriented process The ritual is shaped by time space and the individual body as well as by language ideologies local aesthetics contexts of use and relations among participants *Ritual Communication* draws on a wide range of contemporary cultures from Africa America Asia and the Pacific to present a rich and diverse study for students and scholars of anthropology sociology and sociolinguistics **Ethnicity in Ancient Amazonia** Alf Hornborg, Jonathan D.
