Olympics or multitudinous charity events the Who have never faded away Yet while such artists as the Beatles Bob Dylan and Led Zeppelin have been pored over flipped on their backs and examined from every imaginable angle the Who remain somewhat mysterious Questions persist Who were their most important influences and which other bands were their most loyal followers Did they really create the very first rock opera What were their most important collaborations gigs solo projects and phases Where do they stand on politics religion and philanthropy The answers to these questions don't amount to mere trivia but create a clearer portrait of the enigma that is the Who Whether they were Mods or punk pioneers rock Wagners or a gang of guitar smashing thugs the Who are a band beyond categorization or comparison a band that constantly poses new questions and The Who FAQ digs deep to find the answers

Song Means: Analysing and Interpreting Recorded Popular Song Allan F. Moore, 2016-04-01 The musicological study of popular music has developed particularly over the past twenty years into an established aspect of the discipline The academic community is now well placed to discuss exactly what is going on in any example of popular music and the theoretical foundation for such analytical work has also been laid although there is as yet no general agreement over all the details of popular music theory However this focus on the what of musical detail has left largely untouched the larger question so what What are the consequences of such theorization and analysis Scholars from outside musicology have often argued that too close a focus on musicological detail has left untouched what they consider to be more urgent questions related to reception and meaning Scholars from inside musicology have responded by importing into musicological discussion various aspects of cultural theory It is in that tradition that this book lies although its focus is slightly different What is missing from the field at present is a coherent development of the what into the so what of music theory and analysis into questions of interpretation and hermeneutics It is that fundamental gap that this book seeks to fill Allan F Moore presents a study of recorded popular song from the recordings of the 1920s through to the present day Analysis and interpretation are treated as separable but interdependent approaches to song Analytical theory is revisited covering conventional domains such as harmony melody and rhythm but does not privilege these at the expense of domains such as texture the soundbox vocal tone and lyrics These latter areas are highly significant in the experience of many listeners but are frequently ignored or poorly treated in analytical work Moore continues by developing a range of hermeneutic strategies largely drawn from outside the field strategies originating in the most part within psychology and philosophy but still deeply r

Other People Peter Campion, 2005-10 Poem to Fire Fast transparency that explodes the fuel and air in the cylinder and shuts the intake valves and thrusts down on the piston so the crankshaft spins and spins you cut through all material that blocks your way so fast that driving now past rushes and billboards this pull to her could be your own impersonal presence cloaked in the day to day of the malls and condos all those wired sensors keeping on guard for you

except you flicker even inside the wet wall where papillary muscle makes that sweet pulsation in whatever room she is moving through this moment under the cotton and the cool smoothness tinted blue In this debut collection Peter Campion explores both the gaps and the connections between the self and others Like the night blooming jasmine leaving its warm trace these poems arise out of the dark A man awakens in a hotel room to find the neighboring voices merging with the anguished souls of his nightmare A woman living alone beside the ocean hears the words of the dead echo in the crashing waves But if these poems convey a feeling of an enduring emptiness they also offer us the most vital intimacies In one poem two lovers traverse the industrial sweep of strip malls and office towers to arrive at their rendezvous In another the seemingly simple memory of a mother playing with her sons at a park bridges a chasm of pain and loss With great poise keen insight and formal skill Campion moves between shared experience and interior life in the shifting textures of *Other People* Whether writing in rhymed couplets or free verse he matches a deep understanding of the poetic tradition with his own imaginative feel for structure The other people of the title of this extraordinary book are fully alive in the life of its language and so is the poet observing them and observing himself as one of them The book is a sympathetic and unsentimental instrument of truth David Ferry *Going Somewhere* Brian Benson, 2014-06-24 Brian has a million vague life plans but zero sense of direction So when he meets Rachel a self possessed woman who daydreams of bicycling across the States he decides to follow her wherever she'll take him Brian and Rachel soon embark on a ride from northern Wisconsin to Somewhere West infatuated with the promise of adventure and each other But as the pair progress from the Northwoods into the bleak western plains they begin to discover the messy realities of life on the road Mile by mile they contend with merciless winds and brutal heat broken bikes and bodies each other and themselves and the looming question of what comes next Told in a voice as hilarious as it is wise Cheryl Strayed *Going Somewhere* is a candid tale of the struggle to move forward **CMJ New Music Monthly**, 2002-03 CMJ New Music Monthly the first consumer magazine to include a bound in CD sampler is the leading publication for the emerging music enthusiast NMM is a monthly magazine with interviews reviews and special features Each magazine comes with a CD of 15-24 songs by well established bands unsigned bands and everything in between It is published by CMJ Network Inc **Canadian Books in Print 2002** Marian Butler, 2002-02 **Mombelli's Intergalactic Bass Programme**, 2011 **The British National Bibliography** Arthur James Wells, 2001
