The American Indian Experience Philip Weeks,1988 Presents a profile of relations between American Indians and Europeans and later Americans from 1524 to 1988 The author points out that Indian policy was formulated from the white perspective rather than the reverse And it was and largely still is whites who so dramatically affected the American Indians their lives culture and history Spotted Tail's Folk George E. Hyde,1976-10-01 Spotted Tail the great head chief of the Brule Sioux was an intelligent and farseeing man who realized alone of all the Sioux that the old way of life was doomed and that to war with the white soldiers was certain suicide Although he was branded a traitor by many members of his tribe the canny Brule with all the skill of an accomplished diplomat fought a delaying action over the council tables with the high officials in Washington The only man in the tribe big enough to stand up to the whites and insist upon the rights of the Brule under existing treaties with the U S government he used every means available to him short of a shooting war to protect his people from being rushed into the white man's ways by government agents and eastern Friends of the Indians Thus the story of Spotted Tail is the story of the Brule struggle against being made into imitation whites overnight even when they were forced on the reservation where they were expected to farm the land raise cattle send their children to school and adopt Christianity all at once The assassination of Spotted Tail in 1881 by his political enemy Crow Dog ended the history of the Brule Sioux as a tribe With the great voice stilled at Rosebud Agency only the voices of little men were heard quarreling about little matters With his death the government effected its purpose to break the tribal organization to bits and put the Brule under the control of their white agent **Books in Print** ,1994 **Small Press Record of Books in Print** ,1988
