Make an Ethical Difference Mark Pastin, 2013-11-04 We are plagued today by a decline in ethical behavior Scandals come so thick and fast that any attempt to list them is out of date in weeks if not days But ethics isn't just a matter of headlines it's a part of everyone's life We're called on to make ethical decisions large and small all the time This can be particularly tricky in the workplace where our decisions can affect not just ourselves but coworkers clients customers and even the entire company Existing ethics books are of limited use They generally feature one author's opinions on very specific situations which may well have nothing to do with the problems we're facing And anyway we don't need expert advice Mark Pastin insists every one of us is qualified to resolve even the thorniest dilemmas ourselves and in this profoundly practical book he gives us the tools to do just that Pastin argues that we all have an innate ethical he calls it the ethics eye The problem is we're not aware we have it or how to develop it Here he provides practical tools we can use to open up our ethics eye so that we can consistently see what is right and do it *Make an Ethical Difference* shows how to apply these tools using actual ethical dilemmas drawn from Pastin's decades of experience as an advisor to governments corporations and NGOs The point is not to try to wedge your situation into one of the examples it's to show how a tool that can be applied to any situation is used in one particular instance And once you've reached a decision Pastin offers strategies for building consensus with those who might disagree with you People often feel hopeless and skeptical that there is anything they as individuals can do to raise society's ethical level or resolve long standing impasses By using the unique tools in this book we will gain confidence in our innate ethical sense and take actions that will elevate the ethical level of the groups and organizations we belong to and society as a whole *Creating a Thinking Organization* Rikki Hunt, 1999 ***Managing Human Behavior in Public and Nonprofit Organizations*** Robert B. Creating Organizational Value through Dialogical Leadership Rens van Loon,2017-07-27 This book demonstrates Dialogical Leadership which is the workplace application of the Dialogical Self Theory first developed by Dutch psychologist Hubert Hermans in the 1990s It encourages scientists and science practitioners interested in leadership issues to discuss the power of dialogue in solving workplace culture problems Van Loon s work extends the concept of Dialogical Self Theory to the leadership of organizations drawing on social constructionism by the American psychologist Ken Gergen and the leadership framework of British academic Keith Grint This book explicitly links the health of organizations to the psychological and emotional health of those who lead them concluding with the factors of teamwork and motivation Dialogical Leadership jettisons the idea that organizations are run by superheroes presenting a more realistic picture of the workplace This is the first book to isolate generative dialogue as the key mechanism for successful change and transformation programs in organizations It rejects the idea that successful organizations are rational systems conforming to scripts laid down by leaders and it places dialogue and co creation reciprocal exchange at the heart of successful change programs It starts from the kinds of questions leaders ask themselves their interior dialogue and the quality of their interactions with others their external dialogues which can as shown in this book be the difference between success and failure
