contributor integrates this theory and research with stories of how passionate teachers teacher educators and pre service teachers along with administrators artists and professionals from a variety of fields have transcended disciplinary boundaries to engage the arts as a meaning making process for young children and for themselves *Strategies for Success with English Language Learners* Virginia Pauline Rojas, Association for Supervision and Curriculum Development, 2007

Approximately 4 7 million designated English language learners attend public schools Office of English Language Acquisition 2002 It is predicted that by the 2030s English language learners will account for about 40 percent of the school age population Yet very few teachers have been trained to address the needs of these students and the questions they ask are the same as they asked decades ago Who are English language learners and what are effective ways for schooling them What kind of educational program brings about the best results What are sound practices for facilitating English language acquisition How can English language learners have academic success in subject areas How do we teach English language learners in our classrooms p 5

Beyond the Education Machine J. Scott Husted, 2010-07-26 Human beings are complex organisms and as such no one size fits all educational approach will ever be truly effective for the majority of students Many educational theorists have identified this cookie cutter approach as the factory model of education Business and manufacturing have developed more effective and flexible methods but our schools have remained essentially static for over one hundred years This factory model is the universal standard for what is considered traditional education in America and is carried out with little regard for the ways humans or individuals learn But we can change all this with our kids and in our classrooms Let s do it **Write from the Start** Robin M.
