papers presented were carefully reviewed and selected from numerous submissions The papers are organized in the following topical sections new methods in design science research recent developments in inductive research methods emerging themes in interpretive case study research new ideas in positivist research and innovative trends in information systems research

Regulating Hate Speech Created by Generative AI Jay Liebowitz,2024-08-02 Regulating Hate Speech Created by Generative AI explores the new hybrid space of Human Machine Interaction HMI in which hate speech is represented and computed through algorithms and AI generative systems The book is exploratory because there are still many problem solving challenges to be faced It is also innovative because it is not assuming that solutions lie only in technological advancements but on a broader scale In this sense large language models can and are being considered from a holistic view i e from the different dimensions and layers of regulatory and legal governance Highlights of the book include Generative AI and social engines of hate An introduction to generative Artificial Intelligence application trends and ethics The mechanics and validation of generative AI outcomes An evaluation of Generative AI for hate speech detection Best practices and key considerations for AI regulation Using GenAI capabilities for early detection of threats in the digital environment This book is a hard look at ways to regulate generative AI to reduce online hate and secure justice in a digital environment Featuring research and offering practical guidelines the book examines guidelines for regulating generative AI models so they do not contribute to online hate disinformation and imagery

Embedding Evidence-Based Practice in Speech and Language Therapy Hazel Roddam,Jemma Skeat,2010-01-29 Like all health professionals speech and language therapists SLTs need to keep themselves up to date with the research evidence base that is relevant to their field of practice and be able to show how this contributes to their clinical decision making However it is not always clear to practitioners how evidence based practice EBP can be properly embedded in their day to day activities In this valuable book Hazel Roddam and Jemma Skeat present a wealth of instructive examples by SLT contributors from around the world showing how clinicians educators and researchers have risen to the EBP challenge Embedding evidence based practice in speech and language therapy showcases the creative ways that SLTs are developing knowledge and skills for EBP creating contexts that support the use of evidence in practice and working towards making evidence easily accessible and usable It includes real life examples of how SLTs have encountered a clinical problem or situation and have accessed and used the evidence within their day to day practice The contributors come from a wide range of work settings from services situated within large organizations to those in independent practice and represent a range of clinical areas from paediatric to adult and across speech language voice fluency Augmentative and Alternative Communication AAC and dysphagia This book is written for an audience of clinical practitioners at any stage of their career and is additionally a valuable resource for SLT students and lecturers

Prioritising Business Processes Jens Ohlsson,Shengnan Han,2017-11-08 This book addresses business process prioritisation a problem in Business Process Management research that is often ill structured and complex The book

introduces and describes the Prioritisation and Categorisation Method PCM a novel approach well aligned with today's business needs and climate. It embraces an explorative approach to facilitating process innovation and designing new processes in dynamic environments. Three classic theories are employed as the basis for PCM and summarised here: Ackhoff's interactive planning, Winograd and Flores network of commitments and Simon's bounded rationality. In addition, the book features a tutorial on a web-based tool that facilitates the application of PCM together with two industry case studies that illustrate the method in practice and demonstrate its value.

Qualitative Approaches to the Social Psychology of Populism Inari Sakki, 2025-01-24. This edited volume presents a social psychological exploration of populism and provides a unique qualitative understanding of the phenomenon's appeal, bringing together an international mix of experts to interrogate populist attraction worldwide. Featuring contributions from Finland, Greece, and Switzerland, the book offers nuanced theoretical, methodological, and empirical approaches for understanding populism, with chapters investigating topics such as populist communication, lay discourse, social representations of the elite and the people, and the mobilisation of young people. Unmasking the persuasive appeal of populism, the book provides examples of qualitative approaches within social, cultural, and political psychology. It draws from established theoretical traditions such as social representations theory and social identity theory, as well as critical discursive approaches, to demonstrate how to study complex relational phenomena such as populism. With its novel inclusion of innovative qualitative methods for examining the social psychology of populism, providing a useful toolkit for qualitative research across various societal and political topics, this book will appeal to scholars, postgraduate students, and researchers studying social and political psychology, communication, qualitative research methods, and political behaviour more broadly. The Open Access version of this book is available at www.taylorfrancis.com and has been made available under a Creative Commons Attribution Non-Commercial No Derivatives (CC BY-NC-ND 4.0) license.

States, Firms, and their Legal Fictions Melissa J. Durkee, 2024-03-07. Corporations and states are creatures of law that claim rights, trade roles, and avoid responsibility based on legal concepts in international and domestic law. Using the concept of attribution as a touchstone, this cross-disciplinary book explores the law's diverse ways of constructing the identities and responsibilities of firms and states.

The Handbook of Language and Speech Disorders Nicole Müller, 2012-09-17. The Handbook of Speech and Language Disorders presents a comprehensive survey of the latest research in communication disorders. Contributions from leading experts explore current issues, landmark studies, and the main topics in the field and include relevant information on analytical methods and assessment. A series of foundational chapters covers a variety of important general principles, irrespective of specific disorders. These chapters focus on such topics as classification, diversity, considerations of intelligibility, the impact of genetic syndromes, and principles of assessment and intervention. Other chapters cover a wide range of language, speech, and cognitive/intellectual disorders.
