Creating Union:

The Atonement Creating Unions Godfrey Kesari, 2019-01-01 Why did Jesus die on the cross Does the atonement have any spiritual significance This book is a bold and imaginative endeavor to make atonement theology rational in a fresh way in our interreligious world Seeking connections between Christian and Hindu thinking in order to create hermeneutical bridges Godfrey Kesari aims to open up creative ways of reimagining the doctrine of the atonement which is so central to the Christian message Kesari retains the particularity of the unique events embracing the life suffering and death of Christ while linking clearly to the more universal considerations that are encountered within Visistadvaitic Hinduism These explorations in turn contribute to a new way of seeing the Christian revelation This is a ground breaking work that attempts to find a way of treating and defending the centrality and theological significance of the atonement with contextual relevance **To Create the National Credit Union Bank** United States. community through an investigation of the term historically black In *Historically Black* Mieka Brand Polanco examines the concept of community in the United States how communities are experienced and understood the complex relationship between human beings and their social and physical landscapes and how the term community is sometimes conjured to feign a cohesiveness that may not actually exist Drawing on ethnographic and historical materials from Union Virginia *Historically Black* offers a nuanced and sensitive portrait of a federally recognized Historic District under the category Ethnic Heritage Black Since Union has been home to a racially mixed population since at least the late 19th century calling it historically

black poses some curious existential questions to the black residents who currently live there Union's identity as a historically black community encourages a perception of the town as a monochromatic and monohistoric landscape effectively erasing both old timer white residents and newcomer black residents while allowing newer white residents to take on a proud role as preservers of history Gestures to community gloss an oversimplified perspective of race history and space that conceals much of the richness and contention of lived reality in Union as well as in the larger United States They allow Americans to avoid important conversations about the complex and unfolding nature by which groups of people and social physical landscapes are conceptualized as a single unified whole This multi layered multi textured ethnography explores a key concept inviting public conversation about the dynamic ways in which race space and history inform our experiences and understanding of community
