*The Status and Conservation of the Bears of the World* Christopher Servheen, 1990 **Bears** Kevin J. Van Tighem, 2013 Fear of bears seems almost to be part of what it is to be human Our species emerged out of the depths of time into a world already populated by these great carnivores Before we mastered iron and later developed firearms we had few defences against bears only watchful caution and elaborate ceremonies and sacrifices to ward off fear Where human populations grow bears have traditionally dwindled or disappeared But when we return to the wild to places where bears still survive all our primeval fears awaken again The risk of an automobile accident on the way to bear country far outstrips the risk of a close range encounter with a bear but it s the bear that worries us as we hurtle down the pavement at a hundred kilometres an hour In this timely and sensitive book Kevin Van Tighem calls on decades of experience knowledge and understanding in order to enlighten readers about our relationship with and attitude toward bears Along the way we are confronted with the realities confronting these great animals as a result of our ever expanding human population and their ever shrinking natural habitat Through historical research field observation practical advice personal anecdotes and an array of stunning photos Van Tighem has written a comprehensive book that is meant to demystify bears in order to promote a deeper understanding of these powerful yet vulnerable creatures **Carnivores of the World** Luke Hunter, 2018 This is an expanded and fully revised new edition of a highly acclaimed guide to the world s carnivores some of the most spectacular and feared creatures in nature Covering all 250 species of terrestrial true carnivores from the majestic polar bear and predatory wild cats to the tiny least weasel Luke Hunter s comprehensive up to date and user friendly guide features 93 color plates by acclaimed wildlife artist Priscilla Barrett that depict every species and numerous subspecies as well as more than 400 drawings of skulls and footprints Features new to this edition include revised and expanded species coverage a distribution map for every species 25 new behavioral illustrations and much more Detailed species accounts describe key identification features distribution and habitat feeding ecology behavior social patterns reproduction and demography status threats lifespan and mortality An introduction includes a concise overview of taxonomy conservation and the distinct families of Carnivora Amazon com
