Beautiful Theories The Spectacle Of Discourse In Contemporary Criticism:

Beautiful Theories Elizabeth W. Bruss, 1982-01-01 *Estranging the Familiar* George Douglas Atkins, 1992 In *Estranging the Familiar* G Douglas Atkins addresses the often lamented state of scholarly and critical writing as he argues for a criticism that is at once theoretically informed and personal The revitalized critical writing he advocates may entail but is not limited to a return to the essay the form critical writing once took and the form that is now enjoying a resurgence of popularity and excellence Atkins contends that to reach a general audience criticism must move away from the impersonality of modern criticism and contemporary theory without embracing the old fashioned essay The venerable familiar essay may remain the basis Atkins writes but its conventional openness receptivity and capaciousness must extend to theory philosophy and the candor that seems to mark the tail end of the twentieth century In noting the timeliness if not the necessity of a return to the essay Atkins also considers our culture's parallel return to the personal When the essay combines good writing with the concerns of the personal Atkins says it becomes a form of criticism that is readable vital and potentially attractive to a large readership Atkins hopes critics will tap into the revitalized interest the essay now enjoys without ignoring the considerable insights and advances of contemporary theory He argues that despite claims to the contrary there is no inherent incompatibility between the essay and modern theory As Atkins considers various experiments in critical writing from Plato to the present notably feminist interest in the personal and autobiographical he contends that these attempts although undeniably important fall short of the desired goal when they emphasize the merely expressive and neglect the artful quality good writing can bring to personal criticism The final third of the book consists of a series of experiments in critical writing that represent the author's own attempts to bridge the gap between theory and popular criticism between an academic and a general audience In essays that illustrate the rhetorical power of the form Atkins describes the reciprocal relationship between his life experience and a reading of *The Odyssey* explains the role that theory has played in his personal development and chronicles his attempts to find a voice as a writer

A History of Russian Literary Theory and Criticism Evgeny Dobrenko, Galin Tihanov, 2011-11-27 This edited volume assembles the work of leading international scholars in a comprehensive history of Russian literary theory and criticism from 1917 to the post Soviet age By examining the dynamics of literary criticism and theory in three arenas political intellectual and institutional the authors capture the progression and structure of Russian literary criticism and its changing function and discourse The chapters follow early movements such as formalism the Bakhtin Circle Proletkult futurism the fellow travelers and the Russian Association of Proletarian Writers By the cultural revolution of 1928 literary criticism became a mechanism of Soviet policies synchronous with official ideology The chapters follow theory and criticism into the 1930s with examinations of the Union of Soviet Writers semantic paleontology and socialist realism under Stalin A more humanized literary criticism appeared during the ravaging years of World War II only to be supplanted by a return to the party line Soviet heroism and anti-Semitism in the

late Stalinist period During Khrushchev's Thaw there was a remarkable rise in liberal literature and criticism that was later refuted in the nationalist movement of the long 1970s The same decade saw on the other hand the rise to prominence of semiotics and structuralism Postmodernism and a strong revival of academic literary studies have shared the stage since the start of the post Soviet era For the first time anywhere this collection analyzes all of the important theorists and major critical movements during a tumultuous ideological period in Russian history including developments in emigre literary theory and criticism Encyclopedia of the American Novel Abby H. P. Werlock, 2015-04-22 Praise for the print edition no other reference work on American fiction brings together such an array of authors and texts as this **Hungarian Perspectives on the Western Canon** László Bengi, Gábor Mezei, Ernő Kulcsár Szabó, 2017-05-11 In this collection Hungarian literature is read together with canonical works of the Western literary tradition The book studies the distinction between major and minor literatures showing that such parallel readings may highlight previously unknown components of the literary tradition The book does not hold traditional comparative methods based on verifiable mediations or transactions between national philologies and national literary narratives to be the exclusive standard of interpretation readings can concentrate on common surfaces and textual events instead This is what is meant by post comparative perspectives a term to indicate that the conditions of a comparative reading never precede the reading itself On this basis the present volume points at several possibilities of how a common ground between texts can be created especially because the chapters within it perform parallel readings in highly different ways A Marriage of Philosophy and Music Erich Welling, 2014-04 How to use philosophy and music to open your horizons and enjoy being yourself put theory to work and help you experience personal growth is discussed in A Marriage of Philosophy and Music It is all about after After having a liberal education you are comfortable in modern culture and after further education and becoming a specialist in some field you enjoy using your skills We learn the ideas and methods of many social cultures and our own chosen specialty but we often neglect the liberal art of disciplining and enjoying the ideas and methods of our own individuality This book offers a path toward the education of privacy with the key words being selection design and beauty The book relates five areas of general human interest spirituality philosophy science art and body awareness The interrelation is accomplished by using personal patterns of experience that are available from philosophy and music Because of the plurality of subject matters and methods used in philosophy and music their patterns of discipline are comparable to self discipline A Marriage of Philosophy and Music attempts to create a path in this direction because besides the enjoyment of social culture and personal skills there is enjoyment in being yourself which is a neglected liberal art **Readings for A History of Anthropological Theory** Paul A. Erickson, Liam Donat Murphy, 2010-01-01 This comprehensive anthology presents 40 readings that are critical to an understanding of anthropological theory and the development of anthropology as an academic discipline The readings have broad anthropological appeal emphasizing social and cultural anthropology The third edition has been completely revised

throughout and organized to work more closely alongside the companion overview text *A History of Anthropological Theory* It includes six new readings as well as two original essays written by contemporary anthropologists on *Why Theory Matters* These new essays help ground the more abstract readings in the collection The glossary has been significantly expanded and the discussion questions have been revised The result is a volume that offers not only a strong foundation in the history of the discipline but also a good overview of developments in twentieth and twenty first century anthropological theory including feminist anthropology postmodernity medical anthropology globalization postcolonialism and public anthropology

Criticism and Literary Theory 1890 to the Present Chris Baldick, 2014-06-11 Presents a coherent and accessible historical account of the major phases of British and American Twentieth century criticism from decadent aestheticism to feminist deconstructionist and post colonial theories Special attention is given to new perspectives on Shakespearean criticism theories of the novel and models of the literary canon The book will help to define and account for the major developments in literary criticism during this century exploring the full diversity of critical work from major critics such as T S Eliot and F R Leavis to minor but fascinating figures and critical schools Unlike most guides to modern literary theory its focus is firmly on developments within the English speaking world *Sibyls, Scriptures, and Scrolls* Joel Baden, Hindy Najman, Eibert J.C. Tigchelaar, 2016-10-11 This volume a tribute to John J Collins by his friends colleagues and students includes essays on the wide range of interests that have occupied John Collins's distinguished career Topics range from the ancient Near East and the Hebrew Bible to the Dead Sea Scrolls and Second Temple Judaism and beyond into early Christianity and rabbinic Judaism The contributions deal with issues of text and interpretation history and historiography philology and archaeology and more The breadth of the volume is matched only by the breadth of John Collins's own work *Folklore, Literature, and Cultural Theory* Cathy L. Preston, 2014-06-23 First published in 1996 The need to write particularly in pre technological recording days in order to preserve and to analyze lies at the heart of folklore and yet to write means to change the medium in which much folk communication and art actually took and takes place In Part I of the collection the contributors address literary constructions of traditional and emergent cultures those of Leslie Marmon Silko Sandra Cisneros Pat Mora Carmen Tafolla Julio Cortázar Milan Kundera Franz Kafka Philip Roth Thomas Hardy and Dacia Maraini The contributors to Part II of the collection offer readings of a variety of traditional vernacular and local performances *The Yale Critics* Jonathan Arac, Wlad Godzich, Wallace Martin, 1983 *Criticism in the Borderlands* Héctor Calderón, José David Saldívar, 1991-05-30 This pathbreaking anthology of Chicano literary criticism with essays on a remarkable range of texts both old and new draws on diverse perspectives in contemporary literary and cultural studies from ethnographic to postmodernist from Marxist to feminist from cultural materialist to new historicist The editors have organized essays around four broad themes the situation of Chicano literary studies within American literary history and debates about the canon representations of the Chicana o subject genre ideology and history and the aesthetics of Chicano literature The volume as a whole aims at generating new

ways of understanding what counts as culture and theory and who counts as a theorist A selected and annotated bibliography of contemporary Chicano literary criticism is also included By recovering neglected authors and texts and introducing readers to an emergent Chicano canon by introducing new perspectives on American literary history ethnicity gender culture and the literary process itself Criticism in the Borderlands is an agenda setting collection that moves beyond previous scholarship to open up the field of Chicano literary studies and to define anew what is American literature Contributors Norma Alarcón Hector Calderón Angie Chabram Barbara Harlow Rolando Hinojosa Luis Leal José E. Limón Terese McKenna Elizabeth J. Ordóñez Genaro Padilla Alvina E. Quintana Renato Rosaldo José David Saldívar Sonia Saldívar Hull Rosaura Sánchez Roberto Trujillo Readings for a History of Anthropological Theory, Sixth Edition Paul A. Erickson, Liam D.

Murphy, 2021-04-23 The sixth edition of this bestselling text offers a concise history of anthropological theory from antiquity to the twenty first century with new and significantly revised sections that reflect the current state of the field Susan Sontag Leland Poague, Kathy A. Parsons, 2021-12-12 Susan Sontag An Annotated Bibliography catalogues the works of one of America's most prolific and important 20th century authors Known for her philosophical writings on American culture topics left untouched by Sontag's writings are few and far between This volume is an exhaustive collection that includes her novels essays reviews films and interviews Each entry is accompanied by an annotated bibliography *A Reference Guide for English Studies* Michael J. Marcuse, 2023-11-15 **Aesthetics and the Literature of Ideas** François Jost, Melvin J. Friedman, 1990 This collection explores the aesthetic principles that pervade all sectors of human activities involving intellectual perceptiveness The three areas of investigation are aesthetics and rationality in the realm of literary history and criticism the genres and meanings in the metamorphosis of the arts and aesthetics in literature society and politics

Readings for a History of Anthropological Theory, Fifth Edition Paul A. Erickson, Liam D. Murphy, 2016-10-19 The fifth edition of this bestselling reader builds a strong foundation in both classical and contemporary theory with a sharpened focus on gender and anthropology and the anthropology of new media and technology Short introductions and key terms accompany every reading and light annotations have been added to aid students in reading original articles Used on its own or together with *A History of Anthropological Theory Fifth Edition* this anthology offers a flexible and unrivalled introduction to anthropological theory that reflects not only the history but also the changing nature of the discipline today **Acts of Meaning** Jerome Seymour Bruner, 1993-01-01 Bruner argues that the cognitive revolution with its fixation on a computational model of mind has led psychology away from the deeper objective of understanding mind as a creator of meanings Only by breaking out of the limitations of this model can we grasp the interaction through which mind both constitutes and is constituted by culture **Theories on the Move** Şebnem Susam-Sarajeva, 2006-01-01 Within translation studies books on translating conceptually dense texts such as philosophical or theoretical writings are remarkably few Although the translation of literature has been a favourite topic for many decades the translation of theories on literature has

been neglected The phrase theories of translation is everywhere but translation of theories is a rare sight On the other hand the term translation has become a commonplace in literary and cultural studies yet usually as a rhetorical figure describing the fate of those who struggle between two worlds and two languages such as migrants or women Not much attention has been paid to the role of translation proper in contemporary circulation of ideas The book addresses these gaps in translation studies and in literary studies for the first time by examining two specific cases where translation strategies and patterns crucially influenced the reception of imported schools of thought By examining the importation of structuralism and semiotics into Turkish and of French feminism into English it invites the readers to think about the impact of translation on the transmission of ideas across linguistic cultural borders and power differentials It is therefore of particular interest to the scholars working in translation studies in literary and cultural theory and in gender studies
