

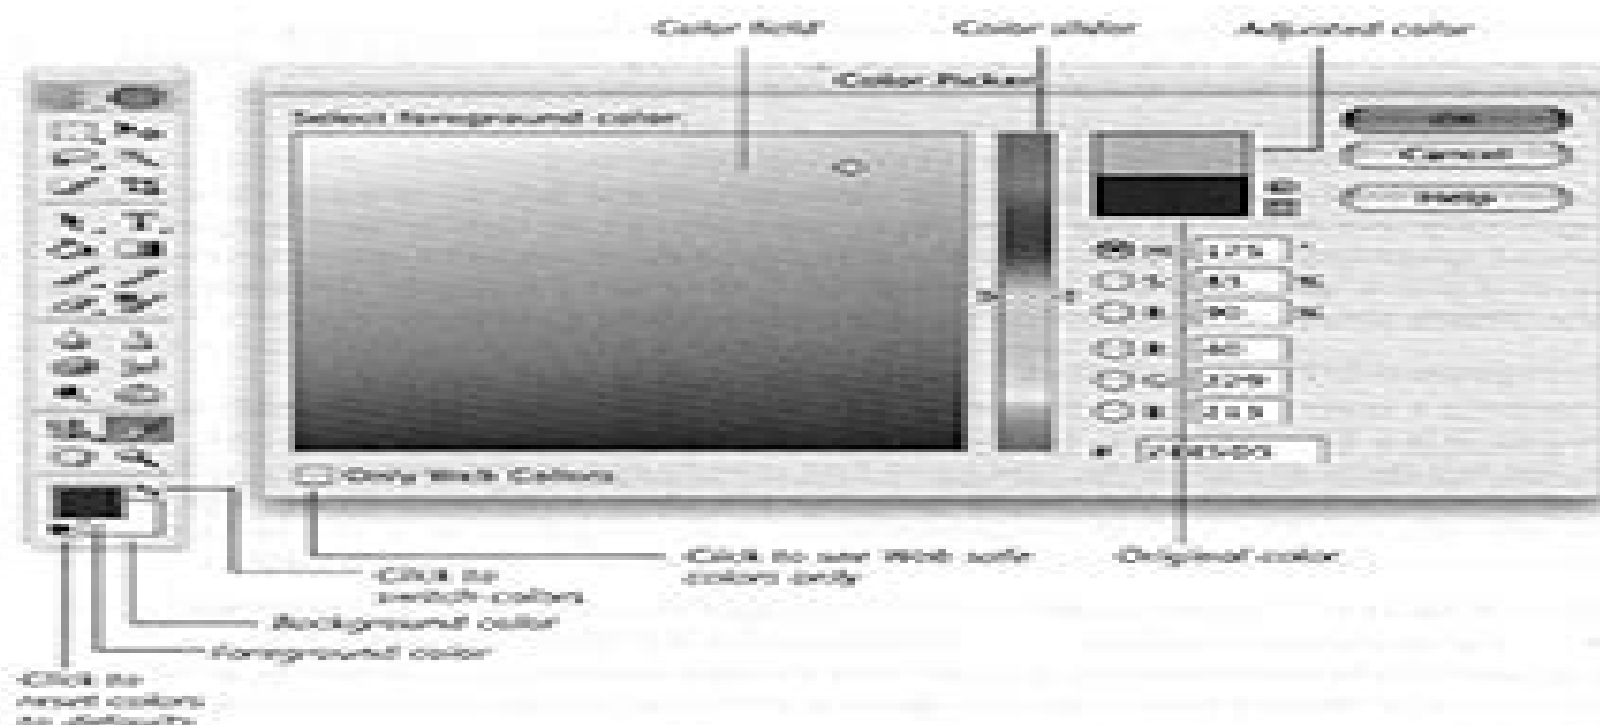

**Figure 6-2** Specify a color of paint with the Color Picker.

**AS A MATTER OF FACT** The number values in the RGB or CMYK fields of the Color Picker can be useful if you're trying to precisely match colors; otherwise, you can ignore them.

Once you see a range of desirable colors, click anywhere in the color field to choose a specific color. Watch the top color swatch as you pick different colors; it shows you a swatch of the new or adjusted color, while the swatch below it shows the original color. When you're pleased with your color choice, click **OK**.

### Swatches Palette

If you only need one color of paint, you don't have to mess with a palette of colors. But most painters use lots of colors, and they have a tool (called an artist's palette)
