Creating States Studies In The Performative Language Of John Milton And William Blake:

Creating States Angela Esterhammer, 1994 **Creating States** Angela Esterhammer, 1994-01-01 A study of the language of visionary poetry making use of the principles of speech act philosophy to analyze the creative properties of utterance from the Bible to the work of Milton and Blake Speech Acts in Blake's Milton Brian Russell Graham, 2022-11-16 Using a framework based on J L Austin's understanding of performative speech and Angela Esterhammer's work on how things are done with words in Milton's and Blake's poetry this study provides an extended close reading of the speech acts of characters in Blake's epic poem Milton With the exception of what we learn about in the part of the poem known as the Bard's Song Blake's Milton is dedicated to providing an incredibly detailed account of the numerous facets of the instant of time immediately prior to apocalypse an instant in which Milton is the protagonist and Blake himself a participant This study explores how in the poem sacred history proceeds towards and through the instant by means of the speech act This extended commentary is intended for not just Blake scholars but also the common reader who wishes to approach Blake's brief epic for the first time For scholars this monograph offers a full account of a crucial but previously unexplored theme in the scholarship about Milton For the common reader it offers a comprehensive introduction to what Northrop Frye called one of the most gigantic imaginative achievements in English poetry William Blake and the Productions of Time Andrew M. Cooper, 2016-12-05 Challenging the idea that a writer's work reflects his experiences in time and place Andrew M Cooper locates the action of William Blake's major illuminated books in the ahistorical present an impersonal spirit realm beyond the three dimensional self Blake Cooper shows was a formalist who exploited eighteenth century scientific and philosophical research on vision sense and mind for spiritual purposes Through irony dialogism two way syntax and synesthesia Blake extended and refined the prophetic method Milton forged in Paradise Lost to bring the performativity of traditional oral song and storytelling into print Cooper argues that historicist attempts to place Blake's vision in perspective as opposed to seeing it for oneself involve a deeply self contradictory denial of his performativity as a poet artist Rather Blake's expansion of linear reading into a space of creative self conscious collaboration laid the basis for his lifelong critique of dualism in religion and science and anticipated the non Euclidean geometrics of twentieth century Modernism *Northrop Frye on Milton and Blake* Northrop Frye, 2005-01-01 Angela Esterhammer a student of Frye's in the 1980s has provided annotation and an introduction that demonstrates the poet's importance for Frye's literary and cultural criticism and provides a twenty first century perspective on the legacy of his work *Blake, Nationalism, and the Politics of Alienation* Julia M. Wright, 2004 Despite his reputation as a staunch individualist and repeated attacks on institutions that constrain the individual's imagination Julia Wright argues that William Blake rarely represents isolation positively and explores his concern with the kind of national community being established **Samson's Cords** Alex Garganigo, 2018-01-01 Samson's Cords examines the radically different responses of John Milton Andrew Marvell and Samuel Butler to the existential crises caused by an

explosion of loyalty oaths in Britain before and after 1660

A Bastard Kind of Reasoning Andrew M. Cooper, 2023-05-01 What do Einsteinian relativity eighteenth century field theory Neoplatonism and the overthrow of three dimensional perspective have in common The poet and artist William Blake's geometry the conception of space time that informs his work across media and genres In this illuminating inventive new study Andrew M Cooper reveals Blake to be the vehicle of a single imaginative vision in which art literature physics and metaphysics stand united Romantic period physics was not as others have assumed materialist Blake's cosmology forms part of his age's deep reevaluation of body and soul of matter and Heaven and even probes what it is to understand understanding reason and substance Far from being anti Newtonian Blake was prophetically post Newtonian His poetry and art realized the revolutionary potential of Enlightened natural philosophy even as that philosophy still needed an Einstein for its physics to snap fully into focus Blake's mythmaking exploits the imaginative reach of formal abstractions to generate a model of how sensation imparts physical extension to the world More striking still Cooper shows how Blake's art of vision leads us today to visualize four dimensional concepts of space time and Man for ourselves

The Figure of the Shaman in Contemporary British Poetry Shamsad Mortuza, 2014-08-11 This genealogical study

focuses on the work of five contemporary British poets in order to locate them in a counter cultural tradition that is informed by strategic responses to state terrorism It identifies some historical moments of ruptures such as the persecution of the Celtic druids by the Romans the killing of the Welsh bards by Edward I the appropriation of bardic materials by Romantic poets writing in a post French Revolution era and the beatnik response to a post World War bipolar world in order to contextualise and discuss the poets of British Poetry Revival writing under Thatcherism Drawing on Mircea Eliade's notion of shamanism as archaic techniques of ecstasy these poets have transformed Eliade's version of the shaman's elective trauma and enacted a critical rejection of totalitarian tools of the state and society Categorised as the Technicians of the Sacred and the Technicians of the Body these shamanic poets include Iain Sinclair Jeremy Prynne Brian Catling Barry MacSweeney and Maggie O Sullivan Their poetic strategy is not a New Age fad it rather investigates and inventories the hidden energies of past and present to wrest spirituality away from the confines of religion and politics while embodying it in textual praxis

Intertextuality and the Reading of Roman Poetry Lowell Edmunds, 2003-05-01 How can we explain the process by which a literary text refers to another text For the past decade and a half intertextuality has been a central concern of scholars and readers of Roman poetry In Intertextuality and the Reading of Roman Poetry Lowell Edmunds proceeds from such fundamental concepts as author text and reader which he then applies to passages from Vergil Horace Ovid and Catullus Edmunds combines close readings of poems with analysis of recent theoretical models to argue that allusion has no linguistic or semiotic basis there is nothing in addition to the alluding words that causes the allusion or the reference to be made Intertextuality is a matter of reading

Milton and the Politics of Public Speech Helen Lynch, 2016-04-22 Using Hannah Arendt's account of the Greek polis to explain Milton's fascination with the idea of public speech this study reveals what is distinctive about his conception of a godly republican oratory and poetics The book shows how Milton uses rhetorical theory its ideas techniques and image patterns to dramatise the struggle between good and bad oratory and to fashion his own model of divinely inspired public utterance Connecting his polemical and imaginative writing in new ways the book discusses the subliminal rhetoric at work in Milton's political prose and the systematic scrutiny of the power of oratory in his major poetry By setting Milton in the context of other Civil War polemicists of classical political theory and its early modern reinterpretations and of Renaissance writing on rhetoric and poetic language the book sheds new light on his work across several genres culminating in an extended Arendtian reading of his Greek drama Samson Agonistes
