Creationist Writings Of Byron C Nelson:

The Creationist Writings of Byron C. Nelson Byron Christopher Nelson, 1995 First published in 1995 Routledge is an imprint of Taylor Francis an informa company **The Creationist Writings of Byron C. Nelson** Paul Nelson, 2021-10-17 Originally published in 1995 this is the fifth volume in the series Creationism in 20th Century America It re publishes After Its Kind a critique on theories of biological evolution and a defense of the biblical account of creation which Nelson wrote when he was a Pastor in New Jersey where he also attended classes in genetics and zoology at Rutgers university His 1931 volume The Deluge Story in Stone A History of the Flood Theory of Geology also reprinted here was continuously in print until the 1960s As his scientific and theological correspondence expanded in the wake of his publications Nelson became further involved in the evolution debates During the late 1930s his writings concentrated on early man and the glacial phenomena he saw all about him in Wisconsin and he compiled the materials he thought necessary to relate Scripture to the evidence of human antiquity *The Creationist Writings of Byron C. Nelson* Paul Nelson, 2023-10-31 Originally published in 1995 this is the fifth volume in the series Creationism in 20th Century America It re publishes After Its Kind a critique on theories of biological evolution and a defense of the biblical account of creation which Nelson wrote when he was a Pastor in New Jersey where he also attended classes in genetics and zoology at Rutgers university His 1931 volume The Deluge Story in Stone A History of the Flood Theory of Geology also reprinted here was continuously in print until the 1960s As his scientific and theological correspondence expanded in the wake of his publications Nelson became further involved in the evolution debates During the late 1930s his writings concentrated on early man and the glacial phenomena he saw all about him in Wisconsin and he compiled the materials he thought necessary to relate Scripture to the evidence of human antiquity

Darwinian Heresies Abigail Lustig, Robert J. Richards, Michael Ruse, 2004-08-30 In Darwinian Heresies which was originally published in 2004 prominent historians and philosophers of science trace the history of evolutionary thought and challenge many of the assumptions that have built up over the years Covering a wide range of issues starting in the eighteenth century Darwinian Heresies brings us through the time of Charles Darwin and the Origin and then through the twentieth century to the present It is suggested that Darwin's true roots lie in Germany not his native England that Russian evolutionism is more significant than many are prepared to allow and that the true influence on twentieth century evolution biology was not Charles Darwin at all but his often despised contemporary Herbert Spencer The collection was intended to interest to excite to infuriate and to stimulate further work The Creationists Ronald L. Numbers, 1993-01-01 Forty seven percent of the American people according to a 1991 Gallup poll believe that God made man as man is now in a single act of creation and within the last ten thousand years Ronald L Numbers chronicles the astonishing resurgence of this belief since the 1960s as well as the creationist movement's tangled roots in the theologies of late nineteenth and early twentieth century Baptists Presbyterians Lutherans Adventists and other religious groups Even more remarkable than Numbers's story of today

s widespread rejection of the theory of evolution is the dramatic shift from acceptance of the earth's antiquity to the insistence of present day scientific creationists that most fossils date back to Noah's flood and its aftermath and that the earth itself is not more than ten thousand years old Numbers traces the evolution of scientific creationism and shows how the creationist movement challenges the very meaning of science Science and Christianity in Pulpit and Pew Ronald L. Numbers, 2007-09-10 These essays address broad topics such as the popularization of scientific ideas secularization and the development of the naturalistic worldview Early Creationist Journals Ronald L. Numbers, 2021-10-17 Originally published in 1995 Early Creationist Journals is the ninth volume in the Creationism in Twentieth Century America series reissued in 2021 The book is a concise primary source collection containing a selection of journal articles from the early twentieth century outlining discoveries in biology geology physiology and archaeology and their relation to Christianity The aim of the journals was to provide a platform for creationists of the 1920s to voice their theories on new science and how more recent discoveries fit within creationist beliefs including flood theory These interesting and unique journals will be of interest to academics working in the field of religion and natural history and provide a unique snapshot into the debates between evolutionists and Christianity during a period of great scientific change The Early Writings of Harold W. Clark and Frank Lewis Marsh Ronald L. Numbers, 2021-10-17 Originally published in 1995 The Early Writings of Harold W. Clark and Frank Lewis Marsh is the eighth volume in the Creationism in Twentieth Century America series reissued in 2019 The book is a collection of original writings by the prominent creationist Harold W. Clark and the biologist educator and young Earth creationist Frank Lewis Marsh Although both were significant figures in the anti evolutionist movement of the early 20th century unlike other members of the movement both Marsh and Clark were trained scientists studying under eminent evolutionists of the time Both writers struggled to reconcile new scientific understandings of geology botany and palaeontology supported by Darwin's theory of evolution with their own creationist beliefs in genesis and flood theory Both scientists as such began to develop their own theories of evolution that remained in line with creationist beliefs This compact and unique collection includes the writings of Marsh and Clark from this period featuring some of their well known works on the subject including Back to Creation and Fundamental Biology This volume of original sources will be of interest to academics of religion natural history and historians of the 19th century **Creation and Evolution in the Early American Scientific Affiliation** Mark A. Kalthoff, 2021-10-17 Originally published in 1995 Creation and Evolution in the Early American Scientific Affiliation is the tenth volume in the series Creationism in Twentieth Century America reissued in 2021 The volume comprises of original primary sources from the American Science Affiliation a group formed following an invitation from the president of the Moody Bible Institute in Chicago in answer to the perceived need for an academic society for American Evangelical Scientists to explicate the relationship between science and faith The society confronted the debate between creation and evolution head on leaving a paper trail documenting their thoughts and struggles This diverse and

expansive collection includes 53 selections that appeared during the organisation's first two decades and focuses on the encounter between science and American evangelicalism in the twentieth century in particular the debates surrounding the ever increasing preference for evolutionary theory The collection will be of especial interest to natural historians and theologians as well as academics of philosophy and history

Selected Works of George McCready Price Ronald L. Numbers, 2021-10-17 Originally published in 1995 The Selected Works of George McCready Price is the seventh volume in the series Creationism in Twentieth Century America reissued in 2021 The volume brings together the original writings and pamphlets of George McCready Price a leading creationist of the early antievolution crusade of the 1920s McCready Price labelled himself the principal scientific authority of the Fundamentalists and as a self taught scientist he enjoyed more scientific repute amongst fundamentalists of the time This interesting and unique collection of original source material includes five of his writings between 1906 and 1924 challenging the new Darwinian theory of evolution and natural selection through his writings on the natural sciences His literature covers the topics of evolution and biology and critiques biological arguments for evolution He also wrote widely on geology offering his own alternative argument of flood geography in opposition to the Darwinian theory concerning palaeontology and geology This volume will be of interest to historians of natural history and the creationism movement as well as scholars of religion and American history

The Antievolution Works of Arthur I. Brown Ronald L. Numbers, 2021-10-17 Originally published in 1995 The Antievolution Works of Arthur I Brown is the third volume in the series Creationism in Twentieth Century America The volume brings together original sources from the prominent surgeon and creationist Arthur I Brown Brown discredited evolution as it was contrary to the clear statements of scripture which he believed infallible stating evolution instead to be both a hoax and a weapon of Satan The works included focus on Brown's polemic through his early twentieth century writings The essays focus on his scientific investigations and provide a negative commentary upon Darwin's theory of evolution instead focusing on biblical explanations for evolution As a scientist Brown's unique view of evolution from a creationist and scientific viewpoint provides a fascinating lens through which to view the historical debates surrounding evolution and provides a unique insight into how Darwinian theory affected both the scientific and religious communities This book will be of interest to natural historians and theologians as well as academics of philosophy and history

The Antievolution Pamphlets of William Bell Riley William Vance Trollinger, 2021-10-17 Originally published in 1995 The Antievolution Pamphlets of William Bell Riley is the fourth volume in the series Creationism in Twentieth Century America reissued in 2021 The volume comprises of nine antievolution pamphlets written by William Bell Riley during the interwar years The pamphlets detail Riley's antievolutionist ideas and activities and the book attempts to place the work in the larger contexts of Riley's career as well as discussing the pamphlets included The collection will be of especial interest to natural historians and theologians as well as academics of philosophy and history

Antievolutionism Before World War I Ronald L. Numbers, 2021-10-17 Originally published in 1995

Antievolutionism Before World War I is the first volume in the series Creationism in Twentieth Century America reissued in 2021 The volume brings together original sources from the beginning of the twentieth century critiquing Darwinism and the theory of natural selection The sources included in this collection debate the role of natural selection in evolution as well wider aspects of Darwinian theory from a creationist stance The essays feature prominent figures from the period in the fields of naturalism philosophy and theology and includes contributions from Alexander Patterson Eberhard Dennert Luther Tracy Townsend and George Frederick Wright The collection will be of especial interest to natural historians and theologians as well as academics of philosophy geology and history

The Antievolution Pamphlets of Harry Rimmer Edward B. Davis, 2021-10-17 Originally published in 1995 The Antievolution Pamphlets of Harry Rimmer is the sixth volume in the series Creationism in Twentieth Century America The volume brings together original sources from the prominent evangelist and pastor Harry Rimmer The consortium of pamphlets in this volume detail Rimmer s antievolutionist sentiments a notion which characterized his early writings The pamphlets detail Rimmer s rhetoric on evolution and science from the early part of the 20th century as he travelled across America to disseminate his writings The works in this volume address Rimmer s polemic on the danger posed by modern science and the consequential disassociation with religion While Rimmer did not discount science itself he argued for what he termed true science claiming that modern science was based only in scientific opinion and not fact As a self proclaimed scientist these writings take a unique view of the relationship between religion and science from this period through Rimmer s dual nature as both scientist and pastor This volume will be of great interest to historians of natural history science and religion

Contesting Earth's History in Transatlantic Literary Culture, 1860-1935 Richard Fallon, 2025-02-14 By the mid nineteenth century geologists and palaeontologists had reconstructed an authoritative narrative of Earth s deep history from the planet s molten origins to the rise of humanity Many figures in transatlantic science across subsequent decades however had problems with this narrative it was too secular inhuman and evolutionary or controlled too exclusively by elite scientists Speaking from palaeoscience s unevenly professionalized and controversy racked borders Christian fundamentalists charismatic psychics and respected scholars alike voiced their objections Until now no study has brought their work together for detailed comparative analysis Spanning from the 1860s to the interwar decades Contesting Earth s History examines the fascinating stories of five significant examples of fringe or borderline palaeoscience old and young earth creationism hollow earth theory clairvoyant time travel and sunken continent catastrophism Innovatively combining methods from literary studies with the history of science this book attends not just to the conceptual content of these strange sciences but also to their proponents communication of truth claims through diverse genres ranging from the scientific textbook and the technical monograph to the lost world romance and the epic poem By paying close attention to the hitherto overlooked textual forms and literary strategies of these works of pseudoscience this volume throws into relief the variant conceptions of audience evidence and method that jostled and competed in wider scientific culture during this period

It also demonstrates that for all their diversity authors of borderline palaeoscience shared the desire to shift the balance of power creating textual spaces where exclusive hierarchies of scientific expertise could be levelled away These conjurors of lost worlds often captivated wide audiences and many of their bizarre astonishing and iconoclastic ideas remain with us to this day Some even inspired early science fiction by the likes of H P Lovecraft and Edgar Rice Burroughs Hijacking geologists and palaeontologists longstanding effort at making the prehistoric past visible authors on the borderlines of palaeoscience asserted their right to scientific authority and encouraged readers to gaze into time s abyss with bold new eyes **B.H.**

Roberts, Moral Geography, and the Making of a Modern Racist Clyde R. Forsberg Jr.,Phillip Gordon

Mackintosh,2022-03-22 A transdisciplinary Mormon history this book is a work of American religious history theology science history and cultural and historical geography It deconstructs the race creationism White supremacy and Christian imperialism of leading interwar Mormon theologian B H Roberts Roberts hoped to introduce the front rank post Darwinian scientific and philosophical postulates of his time polygeny preadamitism electromagnetism idealism the multiverse infinity and interstellar travel to an increasingly fundamentalist Mormon establishment Church authorities however including eventual prophet Joseph Fielding Smith Jr proscribed and rejected Roberts modernist manuscript The Truth The Way The Life An Elementary Treatise on Theology circa 1930 Paradoxically however Roberts thinking appeared uncited in Smith s 1954 theology Man His Origin and Destiny Here Smith accelerated Roberts racism toward African Americans while reviling science philosophy and free thought This book contextualizes all such fundamentalist Mormon thinking within today s struggle for social and environmental justice and especially the Black Lives Matter movement *Genesis Kinds* Todd Charles Wood,Paul A. Garner,2009-01-22 Mission statement coresci.org Series Editor Todd Charles Wood Core Academy of Science encourages young Christian scholars to explore the hardest problems in creation Engineers sometimes classify problems as easy hard and impossible Easy problems are trivial because they can be solved merely by applying known principles Impossible problems cannot be solved no matter how hard we try Hard problems are the problems in between that require the most work but yield the greatest rewards Sometimes hard problems are accumulations of many easy problems and sometimes they turn out to be impossible When a hard problem is solved though it is widely celebrated For Christians and especially young age creationists understanding creation has many hard problems Evidences of the great age of the universe and earth can be difficult to explain Likewise with evidences of evolution Creationists reject the conventional explanations that involve millions of years and humans evolving from animals but alternative explanations that satisfy our scientific curiosity and our desire to remain true to the revealed Word of God are much rarer and not widely accepted It is much easier to focus on the detection of error rather than the more difficult discovery of truth This focus on error rather than truth pervades evangelical Christianity because it s relatively easy We all like the easy and impossible We teach our children to recite verses from the Bible and answers to our catechisms but when they ask difficult questions we say Only God knows

We might even scold them for being impertinent or irreverent Core Academy equips the next generation to tackle these great mysteries by first and most importantly helping young scholars to develop a bold confident faith All too often scholars who face challenging puzzles become disillusioned and stray from the faith Our first goal then must be enriching and nurturing strong faith in Jesus Christ as Savior and Creator *The Creation/Evolution Controversy* James L. Hayward, 1998-04-30 This collection of 447 annotated references provides an overview of the literature addressing the creation evolution controversy for students teachers lawyers writers historians scientists sociologists clerics and other interested persons Fifty four annotations in the chapter on historical references highlight influential volumes published between 1543 and 1980 classic works that inform the views of later writers These historical works are listed chronologically in order of publication The remaining 393 entries feature books published from 1981 the year of the Scopes II trial in Arkansas to 1996 and include works that address historical sociological philosophical religious cosmological geological biological and anthropological issues surrounding the creation evolution controversy The annotations are written in an informative impartial style Except for references in the chapter containing historical sources and in the chapter featuring works on the history of the creation evolution controversy references are grouped under theistic and non theistic headings An introductory essay describes the history of evolutionary theory and creationism and defines the distinguishing features of each thought system An annotated list of periodicals featuring articles on creationism and evolutionism is also provided With author title and subject indexes
