Basic Rights Subsistence Affluence And Us Foreign Policy:

Basic Rights Henry Shue,1996-11-17 I Three Basic rights **The Nature of the Obligations Under the International Covenant on Economic, Social and Cultural Rights** María Magdalena Sepúlveda Carmona,2003 1 2 A new momenttim **Basic Rights** Henry Shue,2020-04-28 An expanded and updated edition of a classic work on human rights and global justice Since its original publication Basic Rights has proven increasingly influential to those working in political philosophy human rights global justice and the ethics of international relations and foreign policy particularly in debates regarding foreign policy s role in alleviating global poverty Henry Shue asks Which human rights ought to be the first honored and the last sacrificed Shue argues that subsistence rights along with security rights and liberty rights serve as the ground of all other human rights This classic work now available in a thoroughly updated fortieth anniversary edition includes a substantial new chapter by the author examining how the accelerating transformation of our climate progressively undermines the bases of subsistence like sufficient water affordable food and housing safe from forest fires and sea level rise Climate change threatens basic rights **Human Rights and US Foreign Policy** Jan Hancock,2007-06-11 This book analyzes the role of human rights in the foreign policy of the George W Bush Administrations References to human rights freedom and democracy became prominent explanations for post 9 11 foreign policy yet human rights have been neither impartially nor universally integrated into decision making Jan Hancock addresses this apparent paradox by considering three distinct explanations The first position holds that human rights form a constitutive foreign policy goal the second that evident double standards refute the first perspective This book seeks to progress beyond this familiar discussion by employing a Foucaultian method of discourse analysis to suggest a third explanation Through this analysis the author examines how a discourse of human rights has been artificially produced and implemented in the presentation of US foreign policy This illuminating study builds on a wealth of primary source evidence from human rights organizations to document the contradictions between the claims and practice of human rights made by the Bush Administrations as well as the political significance of denying this disjuncture Human Rights and US Foreign Policy will be of interest to advanced students and researchers of US foreign policy human rights international relations and security studies *The Human Right to Food as a U.S. Nutrition Concern 1976-2006* Ellen Messer and Marc J. Post-Trial Access to Drugs in Developing Nations Evaristus Chiedu Obi, 2017-07-26 This book begins the discourse on post trial access to drugs in developing countries Underlying ethical issues in global health inequalities and global health research serve as the context of the debate Due to rampant allegations of violations of rights of research participants especially in developing countries it discusses the regulatory infrastructure and ethical oversight of international clinical research thus emphasizing the priority of safeguarding the rights of research participants and host populations as desiderata in conducting clinical trials in developing countries This is the first book that analyzes the major obstacles of affordable access to drugs in developing countries patent and non patent factors and how they can be overcome through a middle ground approach and a new paradigm to establish global health justice which includes national and global health responsibilities The book also deals extensively with all complex aspects of the discourse on affordable access to drugs in developing countries including intellectual property law international regulations political and cultural systems international trade agreements Furthermore it contains a robust ethical debate and in depth analysis The book crafts a paradigm of global health justice involving a sliding scale of national and global responsibilities for the realization of the right to health in general and access to drugs in particular *The Right to a Human Minimum* Stephen Onyango Ouma, 2025-08-02 This book provides a profound exploration of the concept of a human minimum as articulated by the renowned African philosopher H Odera Oruka It delves into the pressing issue of global inequality and examines how basic rights such as access to food

shelter education and healthcare are fundamental to human dignity and should be accessible to all regardless of socioeconomic status In a world where the gap between the rich and the poor continues to widen Oruka s philosophical framework is a blueprint for addressing this divide Through a critical analysis of Oruka s work this book presents the philosophy of a human minimum and describes why basic rights are essential to ensuring justice equity and sustainable development It contextualizes these ideas within contemporary challenges including poverty unemployment and the global disparities exacerbated by economic systems that favor wealth accumulation by the few This exploration pushes beyond abstract theory offering practical insights into policy solutions and societal structures that can uphold the dignity of every individual It argues that achieving this requires not only ethical responsibility but systemic change in political and economic structures By rethinking development governance and social justice through the lens of Oruka s philosophy the book presents a compelling case for policies and actions that guarantee the human minimum for all This book is of interest to scholars of philosophy social justice advocates policymakers and anyone committed to addressing global inequality It provides a roadmap for how societies can move toward a more equitable future

War and International Justice Brian Orend, 2010-10-30 Can war ever be just By what right do we charge people with war crimes Can war itself be a crime What is a good peace treaty Since the Cold War ended in the early 1990s many wars have erupted inflaming such areas as the Persian Gulf Central Africa and Central Europe Brutalities committed during these conflicts have sparked new interest in the ethics of war and peace Brian Orend explores the ethics of war and peace from a Kantian perspective emphasizing human rights protection the rule of international law and a fully global concept of justice Contending that Kant's just war doctrine has not been given its due Orend displays Kant's theory to its fullest impressive effect He then completely and clearly updates Kant's perspective for application to our time Along the way he criticizes pacifism and realism explores the nature of human rights protection during wartime and defends a theory of just war He also looks ahead to future developments in global institutional reform using cases from the Persian Gulf War Somalia Bosnia and Rwanda to illustrate his argument Controversial and timely perhaps the most important contribution War and International Justice A Kantian Perspective makes is with regard to the question of justice after war Orend offers a principled theory of war termination making an urgent plea to reform current international law

The ECHR and Human Rights Theory Alain Zysset, 2016-10-04 The European Convention of Human Rights ECHR has been relatively neglected in the field of normative human rights theory This book aims to bridge the gap between human rights theory and the practice of the ECHR In order to do so it tests the two overarching approaches in human rights theory literature the ethical and the political against the practice of the ECHR system The book also addresses the history of the ECHR and the European Court of Human Rights ECtHR as an international legal and political institution The book offers a democratic defence of the authority of the ECtHR It illustrates how a conception of democracy more specifically the egalitarian argument for democracy developed by Thomas Christiano on the domestic level can illuminate the reasoning of the Court including the allocation of the margin of appreciation on a significant number of issues Alain Zysset argues that the justification of the authority of the ECtHR its prominent status in the domestic legal orders reinforces the democratic process within States Parties thereby consolidating our status as political equals in those legal and political orders

The Global Health Crisis Thana Cristina de Campos, 2017-03-30 Proposing a new view of global justice based on natural law this book examines the ethics of health as they relate to neglected diseases

Protecting Human Rights in Africa Claude Emerson Welch, 1995 The first major comparative study of the way human

rights south of the Sahara have been revolutionized by NGOs which have become the most effective detectives in discovering abuses and the most active advocates in seeking solutions

Universal Human Rights and Extraterritorial Obligations Mark Gibney, Sigrun Skogly, 2012-07-03 Globalization challenges fundamental principles governing international law especially with respect to state sovereignty and international relations This transformation has had a significant impact on the practice of trade law financial regulation and environmental law but relatively little effect on one area of law and regulation human rights Universal Human Rights and Extraterritorial Obligations examines both the international and domestic foundations of human rights law What other contemporary human rights debates have almost totally ignored is that in an increasingly interdependent world where public and private international actors have great influence on the lives of individuals everywhere it is insufficient to assess only the record of domestic governments in human rights It is equally important to assess the effect of actions taken by intergovernmental organizations international private entities and foreign states From this standpoint contributors to this book address how states actions or omissions may affect the prospects of individuals in foreign states and asks important questions To what extent do agricultural policies of rich countries influence the right to food in poorer countries How do decisions to screen asylum seekers outside state borders affect refugee rights How does cooperation among different states in the war on terror influence individuals rights to be free from torture This volume presents a brief for a more complex and updated approach to the protection of human rights worldwide
