nuanced studies of two major missionary figures in late twentieth century Chinese Buddhism and a fascinating look at the present Dalai Lama's relationships with his devotees and the American government viewed through an exposition of the abiding tradition within Tibetan Buddhism that combines mission activity with the political goals of exiled lamas Contributors Stuart Chandler Peter B Clarke C Julia Huang Steven Kemper Linda Learman Sarah LeVine Richard K Payne Cristina Rocha George J Tanabe Jr Gray Tuttle **Teaching Buddhism** Todd Lewis, Gary Delaney DeAngelis, 2017 Buddhist studies is a rapidly changing field of research constantly transforming and adapting to new scholarship This creates a problem for instructors both in a university setting and in monastic schools as they try to develop a curriculum based on a body of scholarship that continually shifts in focus and expands to new areas Teaching Buddhism establishes a dialogue between the community of instructors of Buddhism and leading scholars in the field who are updating revising and correcting earlier understandings of Buddhist traditions Each chapter presents new ideas within a particular theme of Buddhist studies and explores how courses can be enhanced with these insights Contributors in the first section focus on the typical approaches figures and traditions in undergraduate courses such as the role of philosophy in Buddhism Nagarjuna Yogacara Buddhism tantric traditions and Zen Buddhism They describe the impact of recent developments like new studies in the cognitive sciences on scholarship in those areas Part Two examines how political engagement and ritual practice have shaped the tradition throughout its history Focus then shifts to the issues facing instructors of Buddhism dilemmas for the scholar practitioner in the academic and monastic classroom the tradition's possible roles in teaching feminism and diversity and how to present the tradition in the context of a world religions course In the final section contributors offer stories of their own experiences teaching paying particular attention to the ways in which American culture has impacted them They discuss the development of courses on American Buddhism using course material on the family and children the history and trajectory of a Buddhist Christian dialog and Buddhist bioethics environmentalism economic development and social justice In synthesizing this vast and varied body of research the contributors in this volume have provided an invaluable service to the field **The Air Force Law Review** ,2015 *Essentials of Buddhism* Kogen Mizuno, 2003
