Models of Criminal Procedure System Ruihua Chen, 2022-10-01 This book is an in depth study on the criminal procedure in China Using the social science research method the author studies some systems and reforms such as the criminal reconciliation the sentencing procedure the criminal incidental civil action the trial hearing the exclusionary rule and the defense system The author puts forward some new theories and opinions He points out that there are two modes of criminal procedure in China the adversarial mode and the cooperative mode He has advanced a new theory based on the practice of the procedure where the defendant pleads guilty or the parties reach a reconciliation Also the author has summarized three forms of criminal trial and three modes of criminal incidental civil action He analyzes conviction trial sentencing trial and procedural trial and points out their defects He holds that the coexistence of the three models of incidental civil action reflects some problems in the criminal procedure

The criminal procedure has the problem of malfunction which refers to the fact that the procedure prescribed by the law is not effectively implemented. The author points out five sources of the process's malfunction through factual and empirical analysis. He describes them as the 5 rules of malfunction of the criminal procedure. As for the criminal defense system, the author thinks that it not only has made great progress but also has a great deal of problems. Also, the author puts forward a theory of coordinating defense which aims at rebuilding the relationship between the defense lawyer and the accused. China has established the exclusionary rule with its own characteristics. The author points out that the reformers should not only enact the rule but also pay attention to its implementation. A series of judicial reforms will arrive for which the exclusionary rule is the activator and the start.

International Criminal Procedure Göran Sluiter, Sergey Vasiliev, 2013-03-21. The ambitious aim of the work is to create a guiding framework for international criminal procedural law and practices in the future. As explained by the working groups, the overarching objective of the project is to assist the challenge of delivering fair but also effective trials.

FOREWORD

Soviet Criminal Law and Procedure Russian S.F.S.R., Harold Joseph Berman, 1972. There is no better key to the strengths and weaknesses of the Soviet social system than Soviet law. Here in English translation is the Criminal Code and Code of Criminal Procedure of the largest of the fifteen Soviet Republics containing the basic criminal law of the Soviet Union and virtually the entire criminal law applicable in Russia and the Law on Court Organization. These two codes and the Law which went into effect on January 1, 1961, are among the chief products of the Soviet law reform movement which began after Stalin's death and are a concrete reflection of the effort to establish legality and prevent a return to Stalinist arbitrariness and terror. In a long introductory essay, Harold Berman, a leading authority on Soviet law, stresses the extent to which the codes are expressed in authentic Soviet legal language based in part on the pre-Revolutionary Russian past but oriented to Soviet concepts, conditions, and policies. He outlines the historical background of the new codes with a detailed listing of the major changes reflected in them, interprets their significance, places them within the system of Soviet law as a whole, and discusses some of the principal similarities and differences between Soviet criminal law and procedure and that of Western Europe and of the United States.

China's Journey Toward the Rule of Law Cai Dingjian, 董建明, 2010. The thirty years since China's reform and opening have been very eventful for the country's legal reforms, and this volume presents a multi-disciplinary look at the current scholarship going on in China on the subject. The articles have been translated into English to assist scholars worldwide in understanding China's recent legal history and also to help familiarize them with the currents of contemporary Chinese scholarship. Individual subjects include commercial law, the evolving relationship between the Chinese government and its citizens, administrative law, and criminal justice. There are also chapters on newly emerging areas of the law that are crucial to China's future development, such as the chapters on environmental law and intellectual property. The volume also includes a chapter on legal education and the legal profession, judicial reform, and the development of law to protect the rights of the disadvantaged.
