

9 Design Rules For Creating Effective Print Ads

Make Sure Copy is Clean and Concise

Stay away from needlessly ornate language and convoluted sentence structure that is not suitable for most advertising mediums.

Don't Be Afraid of White Space

Having a proper white space ratio makes print ads more visually appealing and reader-friendly.

Use Headlines Effectively

Your main title should be simple and short, as you want to peak the curiosity of your target consumers without listing facts about your business.

Simplicity is the #1 Key

Stick to something simple for your body text to maintain an ease of reading for your potential customers.

Create a Notable Call to Action

When designing your ad, try to create a sense of urgency at the end by creating a call to action.

Be As Unique As You Can Be

While your product or service does not have to be the only one on the market, it's best to promote it from a unique angle.

Consider Images Carefully

Avoid using generic photos purely for decorative purposes and make sure any visual imagery works alongside your copy.

Describe the Benefits

Be sure to focus on the solution you provide to a particular need rather than focusing on the problem itself.
