Basic Income Grant For South Africa:

A Basic Income Grant for South Africa Guy Standing, Michael Samson, 2003 This book provides a critical analysis of the feasibility and impact of a universal basic income grant for South Africans which has been discussed extensively in parliament and the media for the past two years The authors assess how comprehensive social security reform including a universal grant will impact on the severe inequality in the country and promote economic growth and employment Their research reveals that it is affordable and they argue that it would reduce the criminality that is associated with poverty and inequality The implications for women and children and for the black majority would be considerable At the Presidential Jobs Summit in 1998 COSATU negotiated an agreement with the government to investigate a universal social grant for all South Africans the Basic Income Grant Government policy makers civil society stakeholders and South African and international thinkers recognised the merit of addressing the problem of poverty directly and efficiently In March 2002 the South African government's Committee of Inquiry into Comprehensive Social Security completed its evaluation of policy options for addressing the severe levels of poverty afflicting the country Accepting the findings of research commissioned from the Economic Policy Research Institute the Committee's report stated that the Basic Income Grant has the potential more than any other possible social protection intervention to reduce poverty and promote human development and sustainable livelihoods This book provides an accessible collection of the current research on the issue with chapters by both proponents and critics of the Basic Income Grant Some of the issues discussed include How can the grant be financed In what ways will the grant promote job creation economic growth and social development And will the government demonstrate the political will to implement what is likely to be the single most effective policy for reducing poverty and eradicating destitution

Basic Income Philippe Van Parijs, Yannick Vanderborght, 2017-03-20 Powerful as well as highly engaging a brilliant book Amartya Sen A Times Higher Education Book of the Week It may sound crazy to pay people whether or not they're working or even looking for work But the idea of providing an unconditional basic income to everyone rich or poor active or inactive has long been advocated by such major thinkers as Thomas Paine John Stuart Mill and John Kenneth Galbraith Now with the traditional welfare state creaking under pressure it has become one of the most widely debated social policy proposals in the world Basic Income presents the most acute and fullest defense of this radical idea and makes the case that it is our most realistic hope for addressing economic insecurity and social exclusion They have set forth clearly and comprehensively what is probably the best case to be made today for this form of economic and social policy Benjamin M Friedman New York Review of Books A rigorous analysis of the many arguments for and against a universal basic income offering a road map for future researchers Wall Street Journal What Van Parijs and Vanderborght bring to this topic is a deep understanding an enduring passion and a disarming optimism Steven Pearlstein Washington Post **Handbook on Social Protection Systems** Schüring, Esther, Loewe, Markus, 2021-08-27 This exciting and innovative Handbook provides readers with a

comprehensive and globally relevant overview of the instruments actors and design features of social protection systems as well as their application and impacts in practice It is the first book that centres around system building globally a theme that has gained political importance yet has received relatively little attention in academia The Palgrave International Handbook of Basic Income Malcolm Torry, 2023-10-20 This handbook brings together scholars from various disciplines and from around the world to examine the history characteristics effects viability and implementation of basic income The first edition of this book contributed a comprehensive treatment of multiple aspects of the basic income debate This updated expanded edition tackles new topics that are becoming increasingly prominent in the global debate New chapters are devoted to recent research on the history of basic income the development and peacemaking potential of basic income in conflict zones municipal experiments in the United States requirements for pilot projects and experiments and the public health implications of basic income Existing chapters on the implementation of basic income have also been substantially updated to take account of new research on microsimulation land value tax local currencies and blockchain technology and cryptocurrency along with new material on the increasing use of opinion polls and the difficulties related to that New political and ethical perspectives on the role of trade unions and their increasing engagement with the basic income debate are also introduced while the section on pilot projects and experiments has been updated to cover recent political developments Fully updated to reflect new global developments in the basic income debate this handbook will be of interest to researchers teachers and research oriented policymakers in a range of fields

Universal Basic Income in Historical Perspective Peter Sloman, Daniel Zamora Vargas, Pedro Ramos Pinto, 2021-11-19 This new edited collection brings together historians and social scientists to engage with the global history of Universal Basic Income UBI and offer historically rich perspectives on contemporary debates about the future of work In particular the book goes beyond a genealogy of a seemingly utopian idea to explore how the meaning and reception of basic income proposals has changed over time The study of UBI provides a prism through which we can understand how different intellectual traditions political agents and policy problems have opened up space for new thinking about work and welfare at critical moments Contributions range broadly across time and space from Milton Friedman and the debate over guaranteed income in the post war United States to the emergence of the European basic income movement in the 1980s and the politics of cash transfers in contemporary South Africa Taken together these chapters address comparative questions why do proposals for a guaranteed minimum income emerge at some times and recede into the background in others What kinds of problems is basic income designed to solve and how have policy proposals been shaped by changing attitudes to gender roles and the boundaries of social citizenship What role have transnational networks played in carrying UBI proposals between the global north and the global south and how does the politics of basic income vary between these contexts In short the book builds on a growing body of scholarship on UBI and lays the groundwork for a much richer understanding of the history of this radical proposal Chapter 3 is available open

Basic Income in the World Marek Hrubec, Martin Brabec, Markéta Minářová, 2022-01-01 This book offers an introduction to the important idea and practice of unconditional basic income which is becoming a topic increasingly discussed not only among researchers but also among citizens and the politicians who represent them. The topic is also increasingly making its way into the mass media. Unconditional basic income is a financial sum that is provided to all citizens or otherwise legally defined residents by the state or a city, a county, etc. at regular intervals, usually monthly, without any conditions being attached, i.e. regardless of whether the citizen has other income from wages or other sources, regardless of age, sex and gender, marital status or other characteristics. The provision of a basic income enables citizens' basic needs to be met and their creative potential to be unlocked for their other activities, which could then significantly raise their standard of living. This book discusses basic income by presenting the main arguments and experiments with basic income in Europe, the Americas, Africa, and Asia. Basic income offers the possibility of a major social and civilizational change for all.

Socio-economic Rights in South Africa Danie Brand, Christof H. Heyns, 2005

Basic Income Worldwide Matthew Murray, Carole Pateman, 2012-07-25 In the midst of growing criticism of current economic orthodoxies and welfare systems, basic income is growing in popularity. This is the first book to discuss existing examples of basic income in both rich and poor countries and to consider its prospects in other places around the world.

Social Welfare and Social Work in Southern Africa Ndangwa Noyoo, 2021-06-11 This book is written by Southern African social welfare, social work, social development, social security, and social policy academics, practitioners, and advocates who have varying degrees of experience. The authors who contributed chapters to this book added their perspectives to ongoing debates about academic areas in the region. Thus, the book's primary objective is to discuss the development of social welfare and social work in Southern Africa. The chapters are examined through different theoretical lenses and historical perspectives. In this book, African scholars, academics, and practitioners provide a deep and critical reflection of social welfare, social work, and related disciplines during the colonial

and post colonial era a period characterised by a deliberate move by Africa s political administrations to focus on nation building and to attempt to make Africa a global player Despite being endowed with rich natural resources like minerals agriculture and solid family and extended family life the continent is weak globally Furthermore the book focuses on the pre colonial period a golden thread running through the chapters The book discusses the colonial era when Western countries capture and oppression of Africa characterised the continent s history This book is an appropriate publication at this point in our history a resource that can be used to generate appropriate narratives and questions within the social welfare and social development sector particularly on delivery education and training

Entrepreneurial Responses to Covid-19 in Africa Maud van Merriënboer, Neema Komba, Chanyoung Park, Lotte-Marie Brouwer, Magnus Godvik Ekeland, Hanaâ Benchrifa, Steven Kator Iorfa, 2022-12-15
Globally small and medium enterprises SME entrepreneurs were hit hard by the Covid 19 pandemic and subsequent measures such as lockdowns and market closures Africa was no exception Entrepreneurial intentions and activities were expected to have a broad downturn with established entrepreneurs being forced to downsize or quit their businesses while fewer novel entrepreneurs entered the market and started their own companies At the same time entrepreneurship is considered one of the few viable options to ensure an income during uncertain economic times Furthermore the Covid 19 crisis was said to drive innovation and technological advancements globally and perhaps even more so in Africa due to its young demographic This edited volume includes insights gathered during the 2021 NVAS Africa Day which had the theme entrepreneurial responses to Covid 19 in Africa This volume shines a light on two broader themes entrepreneurial intentions and entrepreneurial resilience in Africa in times of Covid 19 The conference was organized by NVAS Nederlandse Vereniging voor Afrikastudies and the African Studies Centre of Leiden University The first two chapters consider whether the pandemic and its broader consequences increase entrepreneurial intentions Is entrepreneurship a pathway out of the crisis for individuals providing an income and financial stability in a stressed labour market Or have individuals turned away from entrepreneurship due to the risk and a lack of start up funds and subsequent investments The final two chapters consider how the Covid 19 pandemic spurred entrepreneurial resilience and innovation in terms of new products markets and strategies Together these studies provide a cross sectional and cross methodological anthology of entrepreneurial responses to Covid 19 in Africa With contributions from Neema Komba Chanyoung Park Lotte Marie Brouwer Magnus Godvik Ekeland Hana Benchrifa Steven Kator Iorfa and Maud van Merri nboer

Class, Race, and Inequality in South Africa Jeremy

Seekings, Nicoli Nattrass, 2008-10-01 The distribution of incomes in South Africa in 2004 ten years after the transition to democracy was probably more unequal than it had been under apartheid In this book Jeremy Seekings and Nicoli Nattrass explain why this is so offering a detailed and comprehensive analysis of inequality in South Africa from the midtwentieth century to the early twenty first century They show that the basis of inequality shifted in the last decades of the twentieth century from race to class Formal deracialization of public policy did not reduce the actual disadvantages experienced by the poor nor the advantages of the rich The fundamental continuity in patterns of advantage and disadvantage resulted from underlying continuities in public policy or what Seekings and Nattrass call the distributional regime The post apartheid distributional regime continues to divide South Africans into insiders and outsiders The insiders now increasingly multiracial enjoy good access to well paid skilled jobs the outsiders lack skills and employment
