Descent into Darkness Richard D. Chessick M.D. Ph.D., 2011-02-15 This book is unique because it presents a thorough coverage of the psychodynamics of mental illness in the form of a novel The characters engage on a trip to Europe beginning

in Chicago and proceed to Ankara Berlin Cappadocia Hattusas Ephesus Pergamum Troy Istanbul and Milan The reason for the novel form is that the author feels the fullest understanding of the human psyche requires a dialogue between science and the humanities The basic plot of the novel is that Martin an aging Chicago psychoanalyst receives a grant to lead an educational tour He centers it on Turkey in order to build on Freud's metaphor of the mind being similar to archeological layers where what is new is built on and incorporates the remnants of the past The party of five couples a collection of mental health professionals academics spouses and others provide living examples of the psychopathology also articulated in the numerous lectures Martin delivers on the tour So they inadvertently serve as clinical examples At the same time the personal internal sufferings of Martin are described beginning with his infatuation with a patient and ending with a serious psychosomatic condition illustrating how psychological problems can lead to the development and exacerbation of such illnesses Woven into the dramatic stories and lectures are references to philosophers psychiatrists novelists historians play writers composers artists and ancient writers as well as historical dissertations that illustrate the weaving of one strata of human and social development upon another There is a discussion of training of therapists and treatment procedures based on a profound empathy and deep concern for the mental suffering and pain that can characterize the human condition The conclusion of the novel has a clever twist that drives the messages of the novel directly to the reader This is a book to read for fun and adventure but also teaches a great deal the author is an internationally known author teacher lecturer and clinician and offers it here in an unusual and dramatic way
