Douglass, Joseba Zulaika, 2007 Topics in this textbook cover the prehistoric period to the present day and include Basque physical anthropology archaeology language sociolinguistics and identity formation Distributed for the Center for Basque Studies Arizona Journal of Hispanic Cultural Studies, 2004 *Toward an Urban Cultural Studies* Benjamin Fraser, 2015-04-01 *Toward an Urban Cultural Studies* is a call for a new interdisciplinary area of research and teaching Blending Urban Studies and Cultural Studies this book grounds readers in the extensive theory of the prolific French philosopher Henri Lefebvre **Basque Sociolinguistics** Estibaliz Amorrortu, 2003 In this study of the Basque language and its influence in Basque politics and cultural practices Amorrortu asks whether Basque will survive in the 21st century and explores its role in the definition of Basque identity Distributed for the Center for Basque Studies *Anthropologists, Indigenous Scholars and the Research Endeavour* Joy Hendry, Laara Fitznor, 2012 This collection offers the fruits of a stimulating workshop that sought to bridge the fraught relationship which sometimes continues between anthropologists and indigenous native aboriginal scholars despite areas of overlapping interest Participants from around the world share their views and opinions on subjects ranging from ideas for reconciliation the question of what might constitute a universal science indigenous heritage postcolonial museology the boundaries of the term indigeneity different senses as ways of knowing and the very issue of writing as a method of dissemination that divides and excludes readers from different backgrounds This book represents a landmark step in the process of replacing bridges with more equal patterns of intercultural cooperation and communication **Nerea and I** Laura Mintegi, 2005 Laura Mintegi's *Nerea and I* provides a unique viewpoint from which to examine women's role in the world of Basque nationalism and Linda White's translation gives us a rare example in English of this late twentieth century novel by a prominent Basque writer and political activist This volume also includes White's examination of the role of women in Basque society and the rise of the women's movement in the Basque country of Spain **Basques, Today** Ramón Zallo, 2006 Ramón Zallo offers us with this informative book an overall synthesis of Basque culture society and history Thanks to its contents it may be destined to become a road map for understanding some keys about the country of the Basques The

author starts from a broad concept of Basque culture which while it is not very well known is proportionally very rich for such a small country He conceives it as a whole culture and as having a history of its own although it is very closely related to its surroundings And its trajectory indicates the need to prioritize its development and singularity in this global world full of uncertainty In Part One he traces and vindicates the cultural and spatial idea of Euskal Herria and briefly describes its history society and characteristics its economic evolution and the political systems of Euskadi Navarra and Iparralde He presents a society with deeply rooted values and a very dense civil society that now needs to review without amnesia the tragedies and disappointments of recent years In Part Two he offers a new vision of each one of the various branches of culture Giving Euskara the attention that it deserves as the most specific defining trait the book offers an added dimension through an updated look at the styles works and names within architecture the visual theatre and musical arts Basque literature in Euskara and Spanish and the different types of heritage It ends with a gallery of historical and contemporary figures that demonstrate the country s diversity Its method is descriptive orderly and not overly interpretative Interpretation is left to the reader

Iberian Crime Fiction Nancy Vosburg, 2011-02-15 Iberian Crime Fiction is the first volume in English to provide an extensive overview of crime fiction in Spain and Portugal While the origins of peninsular crime fiction are traced in Nancy Vosburg s introductory chapter to the volume the essays focus on specific topics that provide readers with a sense of the development of the genre in the second half of the 20th century and current trends in the 21st century Patty Hart whose *The Spanish Sleuth* introduced English speaking readers to early crime fiction in Spain provides a summary account of the development of the crime novel from the 1950s through the 1980s highlighting the major authors and works that set the stage for the boom that followed the establishment of the *novela negra* tradition in the 1970s This tradition spearheaded by Manuel Vazquez Montalban is the subject of a separate essay by Maria Balibrea that analyzes the socio political conditions that gave rise to the *novela negra* Nancy Vosburg studies the emergence of a feminine feminist crime novel in the 1980s and 1990s and the subversion of masculine codes associated with crime fiction while Stewart King analyzes crime fiction from the Catalan Basque and Galician autonomous regions of Spain focusing on the political realities that resulted in a different use of the genre as a vehicle of regional nationalism David Knutson traces contemporary trends in Spanish crime fiction beginning in the 1990s and up to the present Paul Castro s essay documents the emergence of crime fiction in Portugal and the major works authors through to the present

Indigenous, Traditional, and Folk Sports Mariann Vaczi, Alan Bairner, 2023-10-06 This is the first book to focus on indigenous traditional and folk sports and sporting cultures It examines the significance of sporting cultures that have survived the emergence and diffusion of western sports and have carved out a unique position not only in spite of modernity but also in response to it Presenting case studies from around the world including from Europe Asia Africa and the Americas this book draws on multidisciplinary work from sociology anthropology history cultural studies and political science exploring key themes in the social sciences including nationalism

identity decolonisation and gender From Turkish oil wrestling kabaddi in South Asia Iroquois lacrosse to wushu and sumo in East Asia and various European traditional sports these sporting practices continue to capture the indigenous imagination on the margins of the western hegemonic sport complex Situated in the fissures between the local the national and the global between the archaic and the modern and between ritual and record they inhabit a liminal space of transformation as they assume new cultural and political meanings offering important perspectives on the complexities and contradictions of modernity The volume s decolonial perspective lies in its promotion of indigenous and subaltern worldviews through their traditional movement cultures on the margins of the western hegemonic sport complex This is a fascinating reading for anybody with an interest in sport nationalism Indigenous studies heritage and folklore studies anthropology social and cultural history or globalisation *The Cambridge Handbook of Endangered Languages* Peter K. Austin, Julia

Sallabank, 2011-03-24 It is generally agreed that about 7 000 languages are spoken across the world today and at least half may no longer be spoken by the end of this century This state of the art Handbook examines the reasons behind this dramatic loss of linguistic diversity why it matters and what can be done to document and support endangered languages The volume is relevant not only to researchers in language endangerment language shift and language death but to anyone interested in the languages and cultures of the world It is accessible both to specialists and non specialists researchers will find cutting edge contributions from acknowledged experts in their fields while students activists and other interested readers will find a wealth of readable yet thorough and up to date information *Territory and Terror* Jan Mansvelt Beck, 2004-11-10 All

Basque interpretations of national power have resulted in an uneasy mix of often fragmented and conflicting territorial identifications Basques can identify themselves with France Spain or an imagined Basque nation state *Territory and Terror* confronts the imagined and actual territorial dimensions of nationalism shedding new light on the Basque conflict The study provides a rich description of territoriality analysed from a comparative perspective and explores the relation between territoriality and regional differences in conflict intensity It supplies an account of the oft overlooked internal struggles between Basques arguing that overestimation of Basque nationalism as the ideological force behind the conflict often leads to a disregard of the identification of many with France or Spain In addition the author investigates the conflicts between Basque nationalists themselves over key issues such as terrorist activity *Territory and Terror* will appeal to students and researchers of nationalism and territoriality in particular to those with an interest in the Basque country **Reclaiming**

Basque Jacqueline Urla, 2012-03-31 The Basque language Euskara is one of Europe s most ancient tongues and a vital part of today s lively Basque culture *Reclaiming Basque* examines the ideology methods and discourse of the Basque language revitalization movement over the course of the past century and the way this effort has unfolded alongside the simultaneous Basque nationalist struggle for autonomy Jacqueline Urla employs extensive long term fieldwork interviews and close examination of a vast range of documents in several media to uncover the strategies that have been used to preserve and

revive Euskara and the various controversies that have arisen among Basque language advocates Journal of the Society of Basque Studies in America ,2010 **Democracy and Ethnography** Carol J. Greenhouse, Roshanak Kheshti, 1998-01-01 Examines the contemporary connections between liberal democracy and ethnography through the development of national case studies on the United States and Spain **Art/Museums** Christine Sylvester, 2015-12-03 Art Museums takes the study of international relations to the art museum. It seeks to persuade those who study international relations to take art museums seriously and museum studies to take up the insights of international relations. And it does so at a time when both international relations and art are said to be at an end that is out of control and beyond sight of their usual constituencies. The book focuses on the British Museum, the National Gallery of London, the Museum of Iraq, the Museum of Modern Art in New York, the Getty museums, the Guggenheim museums, and museum spaces instantly created by the attacks on the World Trade Center in 2001. The art includes works over which museums might struggle to acquire through questionable means, hoard and possibly lose, such as the Parthenon sculptures, Raphael's Madonna of the Pinks, the ancient art of Babylon, modern art, and the art museum itself in an era of rapid museum expansion. Bringing art museums and international relations together draws on the art technique of collage which combines disparate objects, themes, and time periods in one work to juxtapose unexpected elements, leaving the viewer to relate objects that are not where they are expected to be **Featuring Post-National Spain. Film Essays.** Andrés Zamora, 2016-05-06 The book explores post-Franco Spanish film's tacit or explicit but always resolute essays from 1975 to 2000 to make over Spain's national identity in fact post-national identity *Ethics and Aesthetics of Translation* Harriet Hulme, 2018-11-19 *Ethics and Aesthetics of Translation* engages with translation in both theory and practice as part of an interrogation of ethical as well as political thought in the work of three bilingual European authors: Bernardo Atxaga, Milan Kundera, and Jorge Semprín. In approaching the work of these authors, the book draws upon the approaches to translation offered by Benjamin, Derrida, Ricœur, and Deleuze to highlight a broad set of ethical questions focused upon the limitations of the monolingual and the democratic possibilities of linguistic plurality upon our innate desire to translate difference into similarity and upon the ways in which translation responds to the challenges of individual and collective remembrance. Each chapter explores these interlingual but also intercultural, interrelational, and interdisciplinary issues, mapping a journey of translation that begins in the impact of translation upon the work of each author, continues into moments of linguistic translation, untranslatability, and mistranslation within their texts, and ultimately becomes an exploration of social, political, and affective untranslatability. In these journeys, the creative and critical potential of translation emerges as a potent, often violent but always illuminating vision of the possibilities of differentiation and connection, generation, and memory in temporal, linguistic, cultural, and political terms.
