Justice Required Robert J. Durán, Oralia Loza, 2025-10-07 Police have remarkably broad discretion to use deadly force Evidence shows that more than 1 000 shooting deaths occur each year at the hands of the police in the United States disproportionately in minority communities and often under questionable circumstances Despite public outrage there continue to be obstacles to assessing the extent of bias and addressing the harms of police violence including a lack of transparency and limitations on access to data Justice Required is a groundbreaking quantitative and qualitative investigation of police violence Robert J Dur n and Oralia Loza provide a comprehensive data analysis of all police shootings in Denver Colorado over nearly forty years highlighting persistent patterns of racial and ethnic inequality They examine the institutional and political dynamics that thwart efforts to hold police officers accountable after controversial incidents Dur n and Loza contextualize the data with regional comparisons and enliven the analysis with vivid storytelling Justice Required argues that while police shootings are typically treated as a criminal justice issue they should be understood as a public health problem Rigorous and urgent this book provides evidence based data driven solutions to prevent further loss of life and promote accountability **Library Book Catalog** United States. **Youth Justice in**

**America** Maryam Ahranjani, Andrew G. Ferguson, Jamin B. Raskin, 2014-07-01 Youth Justice in America Second Edition engages students in an exciting informed discussion of the U S juvenile justice system and fills a pressing need to make legal issues personally meaningful to young people Written in a straightforward style by Maryam Ahranjani Andrew Ferguson and Jamie Raskin all of whom actively work in the area of juvenile justice the book addresses tough important issues that directly affect today s youth including the rights of accused juveniles search and seizure self incrimination and confession right to appeal and the death penalty for juveniles Focusing on cases that relate to the Fourth Fifth Sixth and Eighth Amendments to the U S Constitution the subject matter comes alive through a wide variety of in book learning aids **Against Prediction**

Bernard E. Harcourt, 2008-09-15 From random security checks at airports to the use of risk assessment in sentencing actuarial methods are being used more than ever to determine whom law enforcement officials target and punish And with the exception of racial profiling on our highways and streets most people favor these methods because they believe they re a more cost effective way to fight crime In Against Prediction Bernard E Harcourt challenges this growing reliance on actuarial methods These prediction tools he demonstrates may in fact increase the overall amount of crime in society depending on the relative responsiveness of the profiled populations to heightened security They may also aggravate the difficulties that minorities already have obtaining work education and a better quality of life thus perpetuating the pattern of criminal

behavior Ultimately Harcourt shows how the perceived success of actuarial methods has begun to distort our very conception of just punishment and to obscure alternate visions of social order In place of the actuarial he proposes instead a turn to randomization in punishment and policing The presumption Harcourt concludes should be against prediction
