Basic Documents Of International Economic Law:

Basic Documents on International Trade Law Chia-Jui Cheng, 2024-11-25 *Basic Documents of International Economic Law* Stephen Zamora, 1990 International Economic Law Philip Kunig, 1989 **Basic Documents of International Economic Law** Stephen Zamora, **International Economic Organizations in the International Legal Process** Sergei A. Voitovich, 2023-08-28 Voitovich presents a clear and lucid discussion of the manner and form in which international economic organizations IEOs participate in two main stages of the international legal process law making and law implementation The book is based on normative instruments and fragments of practice of about fifty IEOs In order to ensure a proper and timely realization of their normative acts IEOs exercise a number of law implementing functions which are subject to a thorough comparative examination The author concludes that existing IEOs not being ideal institutional models possess a sufficient arsenal of law implementing instruments to make a considerable impact on the international legal regulations in the economic field The book will be of interest to academics and economic political scientists

International Economic Law Philip Kunig, Niels Lau, Werner Meng, 2019-11-05 No detailed description available for International Economic Law **Documents in International Economic Law** Christian J. Tams, Christian Tietje, 2012 International economic law is one of the crucial branches of international law and of major importance both practically and conceptually This document collection brings together all of the most important treaties regulations and other documents in this area It presents the key documents of contemporary international economic law in one single volume so to provide students as well as practitioners with an accessible reference guide The book will feature a brief introduction providing readers with a roadmap through what is perceived by many as the maze of international economic law The collection brings together documents relating to the three main pillars of international economic law namely world trade law international monetary law and international investment law These are preceded by texts of a more general character notably issued by the United Nations and clarifying the parameters of international economic relations This broad focus enables readers to view international economic law in its breadth and to avoid the pitfalls of a compartmentalised approach which exclusively focuses on for example WTO law or investment law without appreciating their interrelation By bringing together key texts of all three branches the book should be invaluable to students taking general courses of international economic law as well as more specialised courses such as WTO law or investment law **Basic Documents of International Economic Law**, 1990

Principles of International Trade Law as a Monistic System Hercules Booyesen, 2003

Basic Documents of International Economic Law Ronald A. Brand, 1994

The American Society of International Law's First Century Frederic L. Kirgis, Jr., 2006 From the historic launch of the organization by such luminaries as Elihu Root and Charles Evans Hughes to the recent era when international law is more and more in the public realm Kirgis's book traces the evolution of the organization and its relationship to events in the United States and around the world As he says in the preface In the end the reader will have to make his/her own judgment about how well the Society has run the course it set out for itself in 1906 I hope this book will provide a basis for that judgment And of course no judgment at this stage can be final The American Society of International Law will carry on into its second century with new and continuing programs that take into account what it has done in its first one hundred years It will continue to do its best to demonstrate not only what international law is or should be but also that in the words of former ASIL President Louis Henkin international law matters

International Economic Law, Globalization and Developing Countries Julio Faundez, Celine Tan, 2010 This book is both breathtaking in its scope and impressive in its attention to legal and institutional detail in situating developing countries in the evolving body of international economic law Essays in this volume canvas most important areas of international economic law including international trade law international financial regulation the regulation of foreign direct investment and multinational corporations foreign aid the enforcement of human rights standards and core international labour standards on multinational corporations international enforcement of anti corruption conventions international competition law international intellectual property rights and international environmental law A pervasive theme compellingly developed in most of these papers is the asymmetric structure of international institutions that generate rules in these various areas in which developing countries are mostly rule takers rather than equal participants The current global financial crisis may provide a welcome opportunity for re-evaluating these institutional asymmetries In any such re-evaluation this book will provide a veritable cornucopia of constructive new insights

Good Faith and International Economic Law Andrew D. Mitchell, M. Sornarajah, Tania Voon, 2015 The past two decades have seen a significant proliferation of trade and investment treaties around the world States are increasingly negotiating agreements that regulate both trade and investment such as the Trans Pacific Partnership Agreement and the Transatlantic Trade and Investment Partnership The number of investor state dispute settlement cases is growing dramatically each year yet states enthusiasm for investor state arbitration has become more qualified as concern has intensified that the system can be abused by foreign investors Good faith is therefore becoming increasingly important as a principle particularly in the investment

context due to disputes about investor conduct such as corporate restructuring in order to gain the protection of a particular investment treaty regarding an existing or foreseeable dispute and States responses to public policy concerns through attempts to modify or terminate investment treaties in the face of ongoing or expected claims Tribunals adjudicating investment disputes have used the principle of good faith in a haphazard and uncoordinated manner causing serious problems of uncertainty and inconsistency In response to these developments this book contains the first comprehensive and integrated analysis of the treatment of good faith in international investment law noting the broader implications of good faith in public international law and international trade law

The United Nations and International Law Christopher C. Joyner, 1997-04-28 This volume provides students and scholars with a text that examines explains and appraises contributions made by the United Nations to contemporary international law and the law creating process The authors consider how UN institutions have made the law what law has been made and the extent to which that law has been meaningfully accepted by and evidenced in contemporary state practice The study first deals with processes and measures that cut across law making covering practical as well as conceptual aspects Then the substantive law is addressed in terms of the different fields of activity that the United Nations has made subject to legal rules and processes Some chapters cover prominent areas such as human rights use of force and economic relations others deal with topics which have not previously been examined with sufficient care such as labor the environment refugees and women The book s final section deals with the internal law of the UN system itself the international civil services and financial contributions

International Economic Law after the Global Crisis Chin Lim, C. L. Lim, Bryan Mercurio, 2015-04-30 This collection explores the theme of fragmentation within international economic law following the global financial crisis
