Legal Reasoning and Legal Writing Richard K. Neumann, 1998 A revision of Neumann's very successful basic legal writing text, this edition continues to give a strong foundation in legal analysis and to writing while refining and further improving the text based on user's responses. The text focuses on constructing a proof of a conclusion of law and teaches format style and grammar alongside the reasoning skills. Chapter 9 How to Organize Proof of a Conclusion of Law is widely regarded as the best explanation of this topic in any legal writing text. The goal is to help students learn how to make writing decisions based on the need to prove analysis. Of special interest are chapters on client interviewing and client letters, sample client letters. An updated citation quotation chapter to reflect changes in the 16th Edition of the Blue Book sections that show students how to convert their raw materials into an organized first draft and explanations on the process of writing in detail and in many contexts. Combining clear readable text with effective sample documents and exercises, Neumann has succeeded in creating a sophisticated yet accessible text carefully crafted for beginning legal writers.
