Informatics and Management Science contains over 600 contributions to suggest and inspire solutions and methods drawing from multiple disciplines including Computer Science, Communications and Electrical Engineering, Management Science, Service Science, Business Intelligence. Handbook of Welfare in China B. Carrillo, J. Hood, P. I.

Kadetz, 2017-07-28 The Handbook is a timely compilation dedicated to exploring a rare diversity of perspectives and content on the development, successes, reforms and challenges within China's contemporary welfare system. It showcases an extensive introduction and 20 original chapters by leading and emerging area specialists who explore a century of welfare provision from the Nationalist era up to and concentrating on economic reform and marketisation 1978 to the present. Organised around five key concerns: social security and welfare, emerging issues and actors, gaps, future challenges, chapters draw on original case-based research from diverse disciplines and perspectives, engage existing literature and further key debates.
