Recording for the Blind & Dyslexic, ... Catalog of Books ,1996 Basic skills in English David L. Clawson,1986
Official Textbook Adoption List ,1983 *Basic skills in English* Mcdougal Littell,1985 Building English Skills Joy
Littell,1985 *English Journal* ,1981 *Secondary Textbook Review* ,1988 This book is intended as a resource for teachers
and curriculum developers who select textbooks for secondary English courses It includes a compilation of 32 factual
textbook reviews obtained from the application of a review instrument which was based on the California Model Curriculum
Standards Grades Nine through Twelve English Language Arts and the English Language Arts Framework for California
Public Schools Kindergarten through Grade Twelve The instrument described in the book was applied to selected English
composition grammar and reading literature textbooks The book suggests that the resulting reviews can be used by teachers
as a screening device to reduce the number of books they review and pilot studies they conduct thus educators will have
more time to do in depth reviews of two or three textbooks which appear to match their course requirements and their
students academic needs The book also states that the review instrument can be adapted by districts to reflect their own
English objectives and test results Every review in the book includes two parts and a publisher s description which appears in
the Appendix a section which depicts the extent to which the emphasis on content and process is given to each of the topics
in the textbooks reviewed and a section which includes topics on content and processes which might be found only in
teachers editions The book does not make assessments regarding the quality of the books reviewed but rather provides
information which teachers may find useful in making quality judgments and selecting specific textbooks for English
