Ulhøi,2007 the Handbook of Qualitative Research Methods in Entrepreneurship is an important contribution to the field and should be referenced in any paper using qualitative methodologies to investigate the entrepreneurial phenomenon Craig S Galbraith Journal of Enterprising Communities There is no hiding behind the ramparts of dry scholarship here The credibility of the theory being spoken of is not the stuff of constructed proofs but alignments of critical insight and utility This is where qualitative work can make a difference to the field and where this book makes its mark Robin Holt International Journal of

Entrepreneurial Behaviour and Research The Handbook of Qualitative Research Methods in Entrepreneurship is an unusually solid and multifaceted book on what qualitative methods have done are doing and will do in entrepreneurship research Every serious entrepreneurship scholar should read it It points at the future Bj rn Bjerke University of Kalmar Sweden I would warmly recommend this unique collection of qualitative methods of entrepreneurship research to both mature and beginning researchers as a menu to choose from for their planned empirical studies For those who try to get away from only quantitative studies in both business practice and academic research this book is their chance to find a rich inspiration in reflecting on entrepreneurship as a lived experience using grounded theory and ethnographic discourse and narrative approaches It might convince editors of top journals of entrepreneurship research to welcome qualitative research submissions as an indispensable complement to quantitative only submissions This domain is not physics In bringing together such a variety of experts from so many nationalities in this Handbook our Danish colleagues are making entrepreneurship research a realistic global venture Jan Ulijn Eindhoven University of Technology The Netherlands Helle Neergaard and John Parm Ulh i have compiled a remarkable collection of work that both represents the range of methods and demonstrates the depth of insight that can be achieved through qualitative approaches This book is not simply a handbook of qualitative research methods though it well achieves this aim it is also an important contribution towards the field of entrepreneurship research From the Foreword by Sara Carter This expansive and practical Handbook introduces the methods currently used to increase the understanding of the usefulness and versatility of a systematic approach to qualitative research in entrepreneurship It fills a crucial gap in the literature on entrepreneurship theory and just as importantly illustrates how these principles and techniques can be appropriately and fruitfully employed The Handbook is underpinned by the belief that qualitative research has the potential to charter hitherto unexplored waters in the field of entrepreneurship and thus contribute significantly to its further advancement The contributors seek to assist entrepreneurship researchers in making more informed choices and designing more rigorous and sophisticated studies They achieve this by providing concrete examples of research experiences and tangible how to advice By clarifying what these research methods entail how they are currently being used and how they can be evaluated this Handbook constitutes a comprehensive and highly accessible methodological toolbox Dealing with both well accepted qualitative approaches and lesser known rarer and more novel approaches to the study of entrepreneurship this Handbook will be invaluable to those studying researching and teaching entrepreneurship

### **Handbook of Research Methods for Tourism and Hospitality Management**

Robin Nunkoo, 2018-07-27 As research in tourism and hospitality reaches maturity a growing number of methodological approaches are being utilized and in addition this knowledge is dispersed across a wide range of journals Consequently there is a broad and multidisciplinary community of tourism and hospitality researchers whom at present need to look widely for support on methods In this volume researchers fulfil a pressing need by clearly presenting methodological issues within tourism and hospitality research alongside particular methods and share their experiences of what works what does not work and where challenges and innovations lie The Realities of Money and Missions Jonathan J. Bonk, Michel G. Distefano, J.

Nelson Jennings, Jinbong Kim, Jae Hoon Lee, 2022-03-21 Integrity Viability and Accountability Perhaps there is no greater challenge in missions than money Paul reminds us For we are taking pains to do what is right not only in the eyes of the Lord but also in the eyes of man 2 Cor 8 21 Money sufficient to assure the viability of one's life work carries with it an insidious ethical virus that can easily infect the integrity and accountability of its stewards The Realities of Money Missions provides a unique level of credibility and transparency as it calls for evangelicals to reevaluate their relationship with money both personally and corporately Global case studies workshops and testimonials cover a broad range of topics such as Misalignment between fiscal theology and practice Environmental stewardship community development and business as mission Mobilization fundraising practices and faith financing Short term missions patronage and dependency Power dynamics and structural injustice The Realities of Money Missions was not written by experts in the fields of investment money management or fundraising but by men and women whose calling as missionaries pastors and administrators has brought them face to face with the complex real life issues involving the intersection of money and ministry Read on and be challenged to change Approaches to Qualitative Research in Mathematics Education Angelika Bikner-Ahsbahr, Christine

Knipping, Norma Presmeg, 2014-11-26 This volume documents a range of qualitative research approaches emerged within

mathematics education over the last three decades whilst at the same time revealing their underlying methodologies Continuing the discussion as begun in the two 2003 ZDM issues dedicated to qualitative empirical methods this book presents a state of the art overview on qualitative research in mathematics education and beyond The structure of the book allows the reader to use it as an actual guide for the selection of an appropriate methodology on a basis of both theoretical depth and practical implications The methods and examples illustrate how different methodologies come to life when applied to a specific question in a specific context Many of the methodologies described are also applicable outside mathematics education but the examples provided are chosen so as to situate the approach in a mathematical context

**Compendium for Early Career Researchers in Mathematics Education** Gabriele Kaiser, Norma Presmeg, 2019-04-26 The purpose of this Open Access compendium written by experienced researchers in mathematics education is to serve as a resource for early career researchers in furthering their knowledge of the state of the field and disseminating their research through publishing To accomplish this the book is split into four sections Empirical Methods Important Mathematics Education Themes Academic Writing and Academic Publishing and a section Looking Ahead The chapters are based on workshops that were presented in the Early Career Researcher Day at the 13th International Congress on Mathematical Education ICME 13 The combination of presentations on methodological approaches and theoretical perspectives shaping the field in mathematics education research as well as the strong emphasis on academic writing and publishing offered strong insight into the theoretical and empirical bases of research in mathematics education for early career researchers in this field Based on these presentations the book provides a state of the art overview of important theories from mathematics education and the broad variety of empirical approaches currently widely used in mathematics education research This compendium supports early career researchers in selecting adequate theoretical approaches and adopting the most appropriate methodological approaches for their own research Furthermore it helps early career researchers in mathematics education to avoid common pitfalls and problems while writing up their research and it provides them with an overview of the most important journals for research in mathematics education helping them to select the right venue for publishing and disseminating their work

Professional Empowerment in the Software Industry through Experience-Driven Shared Tacit Knowledge Hui Chen, Miguel Baptista Nunes, 2023-05-19 This book addresses the identification and classification of knowledge acquired through experience that results from engaging in professional

activities within the software industry As a result of this study the book presents an ontology of such professional activities that require and enable the acquisition of experience and that in turn are the basis for tacit knowledge creation The rationale behind the creation of such an ontology was based on the need to externalize this tacit knowledge and then record such externalizations so that these can be shared and disseminated within and across organizations The book discusses the very concise manner in which experienced software development practitioners in China understand the nature and value of experience in the SW industry effectively communicate with other stakeholders in the software development process are able and motivated to actively engage with continuous professional development are able to share knowledge with peers and the profession at large and effectively work on projects and exhibit a sound professional attitude both internally to their own company and externally to customers partners and even competitors The book also discusses the ontology and the qualitative process that are generated by bridging two extremely topical aspects of practice in the software industry namely employability skills and competencies The book is of interest to academics in the areas of knowledge management and information systems as well as human resources practitioners concerned with selection and development and knowledge and information professionals in software organizations
