exclusion under Basque nationalist rule Tongues of Settlement Blake Allmendinger, **Iberian Interfaces** Antonio Sáez Delgado, Santiago Pérez Isasi, 2022-01-24 This book explores a key historical moment for literary and cultural relations between Spain and Portugal Focusing on the period between 1870 and 1930 it analyses the contacts between Portuguese and Spanish writers and artists of this period showing that at least among the cultural elites there were intense and fruitful dialogues across political and linguistic borders The book presents the Iberian Peninsula as a complex and multilingual cultural polysystem in which diverse literary cultures coexist and are mutually dependent upon each other It offers a panoramic view of Iberian literary and cultural history encompassing not just Portuguese and Spanish literary productions but also Catalan Galician and Basque works Combining a clear theoretical foundation with deep historical knowledge and references to specific texts and works the book offers a thorough introduction to Iberian literature in the late nineteenth and early twentieth century Actes du Colloque international sur l'aménagement linguistique Université Laval. Centre international de recherches sur le bilinguisme, 1987 Spanish Literature: A Very Short Introduction Jo Labanyi, 2010-08-26 This title explores the rich literary history of Spain which resonates with contemporary debates on transnationalism and cultural diversity It introduces readers to the ways in which Spanish literature has been read in and outside Spain explaining misconceptions outlining insights of scholarship and suggesting new readings Writing Galicia Into the World Kirsty Hooper, 2011-01-01 Writing Galicia explores a part of Europe's cultural and social landscape that has until now remained largely unmapped the exciting body of creative work that since the 1970s has emerged as a result of contact between the small Atlantic nation of Galicia and the Anglophone world Paying particular attention to the community of London Galicians and their descendants this book traces representations of Galician cultural history through art and close critical readings of literary works by among others Carlos Durán Manuel Rivas Xesús Fraga and Ramiro Fonte Too often neglected in literary studies Galician culture is strongly evident throughout Europe's cultural landscape and this book allows us to reframe this small Atlantic culture **Inventing the modern region** Talitha Ilacqua, 2024-03-12 This book explores the process by which the French Basque country acquired a folkloric regional identity in the long nineteenth century It argues that despite its origins in pre modern customs this stereotypical identity was invented as part of France's process of nation building The abolition of privileges in 1789 prompted a new interest in local culture as the defining feature of provincial France shaping the transition from the pre modern province to the modern region The relationship between the region and the nation however was difficult Regional culture favoured the integration of the French Basque provinces into the French nation state but also challenged the authority of the central state As a result Basque region building reveals the strengths and weaknesses of the unitary model of French nationhood in the nineteenth century as well as today **The Basques of Lapurdi, Zuberoa, and Lower Navarre** Philippe Veyrin, 2011 Classic book on the Basques of Iparralde French Basque Country originally published in 1942 treating Basque history and culture in the region Soccer, Culture and Society in

Spain Mariann Vaczi, 2015-02-11 Spanish soccer is on top of the world at international and club level with the best teams and a seemingly endless supply of exciting and stylish players While the Spanish economy struggles its soccer flourishes deeply embedded throughout Spanish social and cultural life But the relationship between soccer culture and national identity in Spain is complex This fascinating in depth study shines new light on Spanish soccer by examining the role this sport plays in Basque identity consolidated in Athletic Club of Bilbao the century old soccer club located in the birthplace of Basque nationalism Athletic Bilbao has a unique player recruitment policy allowing only Basque born players or those developed at the youth academies of Basque clubs to play for the team a policy that rejects the internationalism of contemporary globalised soccer Despite this the club has never been relegated from the top division of Spanish football A particularly tight bond exists between fans their club and the players with Athletic representing a beacon of Basque national identity This book is an ethnography of a soccer culture where origins nationalism gender relations power and passion lifecycle events and death rituals gain new meanings as they become below and beyond the playing field a matter of creative contention and communal affirmation Based on unique in depth ethnographic research this book investigates how a soccer club and soccer fandom affect the life of a community interweaving empirical research material with key contemporary themes in the social sciences and placing the study in the wider context of Spanish political and sporting cultures Filling a key gap in the literature on contemporary Spain and on wider soccer cultures this book is fascinating reading for anybody with an interest in sport anthropology sociology political science or cultural and gender studies **The Survival of Myth** Paul

Hardwick, David Kennedy, 2010-04-16 What are myths and what are they for Myths are stories that both tell us how to live and remind us of the inescapability and pull of the collective past The Survival of Myth Innovation Singularity and Alterity explores the continuing power of primal stories to inhabit our thinking An international range of contributors examine a range of texts and figures from the Bible to Cormac McCarthy and from Thor to the Virgin Mary to focus on the way that ancient stories both give access to the unconscious and offer individuals and communities personae or masks Myths translated and recreated become in this sense very public acts about very private thoughts and feelings The subtitle of the book Innovation Singularity and Alterity reflects the way in which the history of cultures in all genres is a history of innovation of a search for new modes of expression which paradoxically often entails recourse to myth precisely because it offers narratives of singularity and otherness which may be readily appropriated The individual contributors offer testament to the continuing significance of myth through its own constant metamorphosis as it both reflects and transforms the societies in which it is re produced *Dirty War, Clean Hands* Paddy Woodworth, 2001 The investigations continue and Garzon is still attempting to establish the full extent of the relationship between the former Spanish Government and the GAL's death squads Jacket *Essays in Basque Social Anthropology and History* William A. Douglass, 1989 This book contains fourteen essays by noted scholars in the fields of Basque anthropology history folklore and immigration studies

Modernisierung des Wortschatzes europäischer Regional- und Minderheitensprachen Gunter Spiess, 1999 Nerea and I Laura Mintegi, 2005 Laura Mintegi's *Nerea and I* provides a unique viewpoint from which to examine women's role in the world of Basque nationalism and Linda White's translation gives us a rare example in English of this late twentieth century novel by a prominent Basque writer and political activist This volume also includes White's examination of the role of women in Basque society and the rise of the women's movement in the Basque country of Spain *New Spain, New Literatures* Luis Martín-Estudillo, Nicholas Spadaccini, 2010-09-27 Hispanic Studies Literature Latin American Studies *The Deuteronomistic History and the Book of Chronicles* Raymond F. Person, Raymond F. Person (Jr.), 2010 This volume reexamines and reconstructs the relationship between the Deuteronomistic History and the book of Chronicles building on recent developments such as the Persian period dating of the Deuteronomistic History the contribution of oral traditional studies to understanding the production of biblical texts and the reassessment of Standard Biblical Hebrew and Late Biblical Hebrew These new perspectives challenge widely held understandings of the relationship between the two scribal works and strongly suggest that they were competing historiographies during the Persian period that nevertheless descended from a common source This new reconstruction leads to new readings of the literature
