Effective Probation Practice Peter Raynor, David Smith, Maurice Vanstone, 1994-03-15 Drawing on the authors experience of research and practice in probation the book provides a positive and realistic view of the contribution the probation service can make to the criminal justice system It covers court work face to face work with offenders wider work in the community and probation organisation and management It is informed both by research on what works and by a commitment to anti discriminatory practice

Probation Practice and the New Penology John Deering, 2016-04-22 The criminal justice system has been in a state of flux in recent decades accompanied by growing levels of insecurity and intolerance of crime and offenders among the general population Along with government policy and practice these developments are seen as contributing to an increasingly punitive system that imprisons more than ever before and seeks to punish and manage offenders in the community rather than to attempt their rehabilitation For these reasons along with a loss of faith in rehabilitation the probation service is now described by many as having become a law enforcement agency charged by government with the assessment and management of risk the protection of the public and the management and punishment of offenders rather than their transformation into pro social citizens This book explores the extent to which practitioners within the National Probation Service for England and Wales and the National Offender Management Service ascribe to the values attitudes and beliefs associated with these macro and mezzo level changes and how much their practice has changed accordingly By viewing examples of real practice through the lens of the modernisation of public services managerialism and theories of organisation change the book considers how real practice is likely to emerge as something unpredictable and perhaps different from the intentions of both government management and practitioners

Contemporary Probation Practice Gwyneth Boswell, Andrew Wright, Martin Davies, 1993 The tenet of this text is that penal policy is currently subject to radical reappraisal by a government concerned to improve standards of performance and efficiency in the criminal justice system It argues that for 80 years probation officers have played an increasingly crucial part in the treatment of offenders but there are question marks over their future role In particular this text suggests their identity as social workers is being critically considered both inside and outside the service

Probation Rob Canton, 2013-03-01 This book provides a comprehensive and accessible introduction to the work of the probation service It brings together themes of policy theory and practice to help students and practitioners to better understand the work of probation its limitations as well as potential but above all its value Setting probation in the context of the criminal justice system the book explores its history purposes and contemporary significance It explains what probation is discusses emerging ideas around offender management and the value of an approach that centres on the idea of desistance It considers the practice realities of working with offenders in the community The book also covers the governance of probation and how policy and practice are responding to contemporary concerns about crime and community safety for example through the management of risk

Although the main focus is on England and Wales there is some discussion of other UK jurisdictions and of contemporary trends in European probation practices This book will encourage readers to appreciate the practical and theoretical strengths and shortcomings of contemporary probation practice Information and discussion are presented clearly with guidance about further study and pointers towards more specialized readings Probation Working with Offenders will be essential reading for trainee probation officers and students of probation and offender management **Probation Practice**
Nigel Fielding,1984 Probation Tim May,1991 Examines the effect that changes in the criminal justice system and society in general have had on the organization and everyday work of the probation service in England and Wales The primary change noted is the Conservative government s shift from a rehabilitative to a punitive model for the correction system
