Back To Middletown Three Generations Of Sociological Reflections

Dennis Gilbert

Back To Middletown Three Generations Of Sociological Reflections:

Back to Middletown Rita Caccamo De Luca, 2000 *Back to Middletown* differs from the numerous other investigations and analyses of one of the most famous community studies in the history of sociology. The book addresses from a fresh perspective major issues that have confronted sociology and social anthropology: relative levels of analysis, the relationship of empirical observation to theory building and conceptual frameworks of interpretation and controversies focusing on the structure of power in America. In addition to its value and import as a theoretical work, the book takes up questions that reflect the contemporary contradictions and dissonances in the American social fabric.

Back to Middletown Rita Caccamo, 2002-09-01 Published in 1929 Robert Lynd and Helen Merrell Lynd's *Middletown: A Study in Modern American Culture* was destined to become a sociological point of reference for the quality of life in an average American town in the 1920s. Their *Middletown in Transition* a 1937 restudy of the same community now known to be Muncie, Indiana, provided a second point of reference on community values in the midst of the great American depression. Achieving the status of cultural benchmarks, these two books have generated an enormous secondary literature on Muncie, Middletown, including a two-volume restudy by Theodore Caplow published in the 1980s and a series of six documentary films. *Back to Middletown* differs from the numerous other investigations and analyses of one of the most famous community studies in the history of sociology. The author, an Italian sociologist, examines the complete Middletown saga through the distinctive lens of an outsider, tracing the character and evolution of middle America from the Lynds' time down to the present. She has been resourceful and meticulous in her discovery of previously unknown sources, data, documents, and correspondence that shed new light on the formation and elaboration of the Lynds' Middletown project and on the changing evaluation of the project by generations of scholars. In the process, the book addresses from a fresh perspective major issues that have confronted sociology and social anthropology: relative levels of analysis, the relationship of empirical observation to theory building and conceptual frameworks of interpretation and controversies focusing on the structure of power in America. In addition to its value and import as a theoretical work, the book takes up questions that reflect the contemporary contradictions and dissonances in the American social fabric. As the author demonstrates, the story of Middletown is a continuing narrative whose end is yet to be written, encapsulating the pain of social and economic alienation, political war, religious messianism, and personal demoralization.

Rooting for the Home Team Daniel A. Nathan, 2013-05-01 *Rooting for the Home Team* examines how various American communities create and maintain a sense of collective identity through sports. Looking at large cities such as Chicago, Baltimore, and Los Angeles, as well as small rural towns, suburbs, and college towns, the contributors consider the idea that rooting for local athletes and home teams often symbolizes a community's preferred understanding of itself and that doing so is an expression of connectedness, public pride and pleasure, and personal identity. Some of the wide-ranging essays point out that financial interests also play a significant role in encouraging fan bases, and modern media have made every

seasonal sport into yearlong obsessions Celebrities show up for big games politicians throw out first pitches and taxpayers pay plenty for new stadiums and arenas The essays in *Rooting for the Home Team* cover a range of professional and amateur athletics including teams in basketball football baseball and even the phenomenon of no glove softball Contributors are Amy Bass Susan Cahn Mark Dyreson Michael Ezra Elliott J Gorn Christopher Lamberti Allison Lauterbach Catherine M Lewis Shelley Lucas Daniel A Nathan Michael Oriard Carlo Rotella Jaime Schultz Mike Tanier David K Wiggins and David W Zang

The Blackwell Companion to the Sociology of Families Jacqueline Scott, Judith Treas, Martin Richards, 2008-04-15 Tackling issues relevant to family life today this authoritative Companion shows why studying social change in families is fundamental for understanding the transformations in individual and social life across the globe Contains original essays by expert contributors on a wide range of topics relating to the sociology of families Includes coverage of social inequality parenting practices children's work the changing patterns of citizenship and multi cultural families Gives special attention to European and North American examples Discusses previously neglected groups including immigrant families and gays and lesbians Explores how revolutionary changes in aging longevity and sexual behavior have radically affected the experience of different generations and the relationships between them *Encyclopedia of American Urban History* David Goldfield, 2007 Publisher description [The Averaged American](#) Sarah E. Igo, 2009-06-30 supports the death penalty that half of all marriages end in divorce and that four out of five prefer a particular brand of toothpaste But remarkably such data now woven into our social fabric became common currency only in the last century With a bold and sophisticated analysis Sarah Igo demonstrates the power of scientific surveys to shape Americans sense of themselves as individuals members of communities and citizens of a nation [New Directions in Rural Studies](#) Sam Hillyard, 2025-04-21 Using theory and method this book seeks to critique and illuminate rural matters Rural issues are tenacious and contested as we continue to value the green and pleasant land but in a rose tinted way The opening chapter provides a contextualising discussion of the new ways rurality has been conceptualised Critical debates by leading scholars in recent years have expressed concern about the direction of travel inside rural areas and also with associated academic disciplines These are overviewed and evaluated as are the general trends in rural scholarship This chapter then frames subsequent chapters on substantive areas of rural studies both benign and contested The subsequent chapters unpack specific issues through original case studies illuminating the contemporary rural They are the green wellbeing zeitgeist narrowed to focus upon gardening and at the other extreme the more emotive issue of country sports and live quarry game shooting A third and final substantive chapter offers new empirical evidence of a rural coastal community experiencing acute healthcare needs Offering original case studies that illuminate and inform new theoretical ideas around the rural this book is essential reading for academics and students across disciplines interested in rural matters [Science, Democracy, and the American University](#) Andrew Jewett, 2014-05-01 This book reinterprets the rise of the natural and social sciences as sources of political authority in modern America Andrew

Jewett demonstrates the remarkable persistence of a belief that the scientific enterprise carried with it a set of ethical values capable of grounding a democratic culture a political function widely assigned to religion The book traces the shifting formulations of this belief from the creation of the research universities in the Civil War era to the early Cold War years It examines hundreds of leading scholars who viewed science not merely as a source of technical knowledge but also as a resource for fostering cultural change This vision generated surprisingly nuanced portraits of science in the years before the military industrial complex and has much to teach us today about the relationship between science and democracy **The**

Extended Case Method Michael Burawoy,2009-05-27 In this remarkable collection of essays Michael Burawoy develops the extended case method by connecting his own experiences among workers of the world to the great transformations of the twentieth century the rise and fall of the Soviet Union and its satellites the reconstruction of U S capitalism and the African transition to post colonialism in Zambia Burawoy s odyssey began in 1968 in the Zambian copper mines and proceeded to Chicago s South Side where he worked as a machine operator and enjoyed a unique perspective on the stability of advanced capitalism In the 1980s this perspective was deepened by contrast with his work in diverse Hungarian factories Surprised by the collapse of socialism in Hungary in 1989 he journeyed in 1991 to the Soviet Union which by the end of the year had unexpectedly dissolved He then spent the next decade studying how the working class survived the catastrophic collapse of the Soviet economy These essays presented with a perspective that has benefited from time and rich experience offer ethnographers a theory and a method for developing novel understandings of epochal change **The American Class**

Structure in an Age of Growing Inequality Dennis Gilbert,2008 Why is social inequality in America increasing This text answers this question through a discussion of nine key variables and the best historical and contemporary empirical studies of class inequality in American society providing students with a broad overview of social inequality in America **An**

Ethnography of the Goodman Building Niccolo Caldararo,2019-04-25 An Ethnography of the Goodman Building vividly incorporates a wide variety of methods to tell the story of class struggle in a building neighborhood and city that is replicated globally I read it as a number of boxes inside each other opened in the course of reading Caldararo recounts the building s personal biography to convey not only the facts about but the feelings about the flesh and blood of the building and its surrounding neighborhood Jerome Krase Brooklyn College of The City University of New York USA This unique contribution to the field of urban and regional studies counteracts current trends in the ethnographies of urban movements by offering with great hindsight an analysis from a physical space and from first hand experience The focal point is one building and the author is a former tenant This perspective is appealing especially in an era of global connections where macro social movements are on the front line of urban life and research Nathalie Boucher Director and Researcher Respire and Affiliated Professor Assistant Department of Sociology and Anthropology Concordia University Canada Through in depth analysis and narrative investigation of an actual building occupation Niccolo Caldararo seeks to not only offer an historical account of the

Goodman Building in San Francisco but also focus on the active resistance tactics of its residents from the 1960s to the 1980s Taking as its focal point the building itself the volume weaves in and out of every life involved and the struggles that surround it San Francisco's urban renewal ethnic clearing gentrification and municipal governance at a time of booming urban growth Caldararo a tenant at the center of its strikes and activities provides a unique perspective that counteracts current trends in ethnographies of urban movements by grounding its analysis in physical and tangible space *In the Hotel Abyss* Robert D. Lanning, 2013-10-10 This book is a critical analysis of a selection of Adorno's work framed by four essential concerns 1 Adorno's method of analysis 2 the absence of a theory of social change 3 the relationship of his approach to the dialectics of Hegel and Marx particularly to others in and around the Frankfurt School Benjamin Kracauer Marcuse and in contrast to scholars such as Lukács and Bloch and 4 Adorno's use of his approach with respect to jazz popular music radio and pro fascist propaganda of the 1930s and 40s as an instrument to disparage the working class The argument is not an affirmation of Adorno's work but argues against the significance of aspects of his theoretical perspective *Race Harmony and Black Progress* Mark Ellis, 2013-10-16 Founded by white males the interracial cooperation movement flourished in the American South in the years before the New Deal The movement sought local dialogue between the races improvement of education and reduction of interracial violence tending the flame of white liberalism until the emergence of white activists in the 1930s and after Thomas Jackson Jack Woofter Jr a Georgia sociologist and an authority on American race relations migration rural development population change and social security maintained an unshakable faith in the effectiveness of cooperation rather than agitation *Race Harmony and Black Progress* examines the movement and the tenacity of a man who epitomized its spirit and shortcomings It probes the movement's connections with late 19th century racial thought Northern philanthropy black education state politics the Du Bois Washington controversy the decline of lynching the growth of the social sciences and New Deal campaigns for social justice **The Chicago Guide to Collaborative Ethnography** Luke Eric Lassiter, 2024-05-31 Collaboration between ethnographers and subjects has long been a product of the close intimate relationships that define ethnographic research But increasingly collaboration is no longer viewed as merely a consequence of fieldwork instead collaboration now preconditions and shapes research design as well as its dissemination As a result ethnographic subjects are shifting from being informants to being consultants The emergence of collaborative ethnography highlights this relationship between consultant and ethnographer moving it to center stage as a calculated part not only of fieldwork but also of the writing process itself *The Chicago Guide to Collaborative Ethnography* presents a historical theoretical and practice oriented road map for this shift from incidental collaboration to a more conscious and explicit collaborative strategy Luke Eric Lassiter charts the history of collaborative ethnography from its earliest implementation to its contemporary emergence in fields such as feminism humanistic anthropology and critical ethnography On this historical and theoretical base Lassiter outlines concrete steps for achieving a more deliberate and overt collaborative practice

throughout the processes of fieldwork and writing As a participatory action situated in the ethical commitments between ethnographers and consultants and focused on the co construction of texts collaborative ethnography argues Lassiter is among the most powerful ways to press ethnographic fieldwork and writing into the service of an applied and public scholarship A comprehensive and highly accessible handbook for ethnographers of all stripes The Chicago Guide to Collaborative Ethnography will become a fixture in the development of a critical practice of anthropology invaluable to both undergraduates graduate students and faculty alike A Room Full of Mirrors Keiko Ikeda,1998 Drawing on candid personal narratives derived from reunions ranging from the fifth to the fiftieth this pathbreaking book demonstrates that for many Americans the high school reunion is a rich poignant experience and a dramatic moment in the construction of self and meaning in adulthood Encyclopedia of the Great Depression Robert S. McElvaine,2004 These volumes discuss depression era politics government business economics literature the arts and more **The SAGE Handbook of Social Research Methods** Pertti Alasuutari,Leonard Bickman,Julia Brannen,2008-02-25 The SAGE Handbook of Social Research Methods is a must for every social science researcher It charts the new and evolving terrain of social research methodology covering qualitative quantitative and mixed methods in one volume The Handbook includes chapters on each phase of the research process research design methods of data collection and the processes of analyzing and interpreting data The volume maintains that there is much more to research than learning skills and techniques methodology involves the fit between theory research questions research design and analysis The book also includes several chapters that describe historical and current directions in social research debating crucial subjects such as qualitative versus quantitative paradigms how to judge the credibility of types of research and the increasingly topical issue of research ethics The Handbook serves as an invaluable resource for approaching research with an open mind This volume maps the field of social research methods using an approach that will prove valuable for both students and researchers The Myth of Research-Based Policy and Practice Martyn Hammersley,2013-03-13 Martyn Hammersley s provocative new text interrogates the complex relationship between research policymaking and practice against the background of the evidence based practice movement Addressing a series of probing questions this book reflects on the challenge posed by the idea that social research can directly serve policymaking and practice Key questions explored include Is scientific research evidence based What counts as evidence for evidence based practice Is social measurement possible and is it necessary What are the criteria by which qualitative research should be judged The book also discusses the case for action research the nature of systematic reviews proposals for interpretive reviews and the process of qualitative synthesis Highly readable and undeniably relevant this book is a valuable resource for both academics and professionals involved with research American Sociological Review Frank Hamilton Hankins,1936 Includes sections Book reviews and Periodical literature **Sociological Abstracts** Leo P. Chall,2002 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral

sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers
