The Practice of Socialist Internationalism Talbot C. Imlay, 2018

How did the early twentieth century socialist parties of Britain France and Germany cooperate with each other to create a united vision on international issues Talbot Imlay offers a new perspective on how European socialists practised

internationalism addressing issues such as post war reconstruction European integration and decolonization *Demolishing*

Whitehall Adam Sharr, Stephen Thornton, 2013 This book is about a lost world albeit one less than 50 years old In the era of Harold Wilson's white heat architect Sir Leslie Martin proposed a grand plan to demolish and rebuild a swathe of historic Whitehall London's government district At once optimistic and paternalistic it simultaneously reinforced and challenged a rigidly hierarchical social order at the scales of building city and nation This project was never realized but nevertheless the plans and the political history surrounding them offer unique insights into Wilson's government Wilson's Britain and Martin's distinctive scientific model of architecture and more broadly into the connections between architecture politics and society

The Life and Times of Thomas Balogh June Morris, 2007-04-01 Thomas Balogh 1905-1985 had a conspiratorial nature and deliberately kept to the shadows so that his substantial role in political life has been little known His predictions were usually right and he looked at economic and political issues from unconventional angles but he was an exasperating man who thrived on controversy He made many enemies and had numerous fallings out especially with the civil service and this affected the way his advice was perceived This first and only biography covers his life and work from his youth in Budapest to his coming to Britain in 1930 and being taken up by Keynes his advance to being a well known if highly controversial political economist his reputation as a brilliant though eccentric don at Balliol College Oxford his burgeoning interest in politics both domestic and in underdeveloped countries and the time of his greatest influence as economic advisor to his close friend Harold Wilson and later as a Minister of State The author provides new insights into the Labour Party and Labour government policies between the mid 1950s until 1982 Balogh was such an acute observer of the values and mores of the time that his diary comments throw new and entertaining light on social as well as on political life at the highest level Interviews with over thirty of the most eminent people in the political economic world of his era also throw new light on the issues and events of the period *Family Britain, 1951-1957* David Kynaston, 2010-05-03 Family Britain continues David Kynaston's

groundbreaking series *Tales of a New Jerusalem* telling as never before the story of Britain from VE Day in 1945 to the election of Margaret Thatcher in 1979 Enoch Powell and the Making of Postcolonial Britain Camilla Schofield, 2013-10-03

Enoch Powell's explosive rhetoric against black immigration and anti discrimination law transformed the terrain of British

race politics and cast a long shadow over British society Using extensive archival research Camilla Schofield offers a radical reappraisal of Powell s political career and insists that his historical significance is inseparable from the political generation he sought to represent Enoch Powell and the Making of Postcolonial Britain follows Powell s trajectory from an officer in the British Raj to the centre of British politics and finally to his turn to Ulster Unionism She argues that Powell and the mass movement against New Commonwealth immigration that he inspired shed light on Britain s war generation popular understandings of the welfare state and the significance of memories of war and empire in the making of postcolonial Britain Through Powell Schofield illuminates the complex relationship between British social democracy racism and the politics of imperial decline in Britain

The Labour Party in Opposition 1970-1974 Patrick Bell, 2012-11-12 1970 to 1974 was a pivotal period in the history of the Labour Party This book shows how the Labour Party responded to electoral defeat in 1970 and to what extent its political and policy activity in opposition was directed to the recovery of power at the following general election At a point in Labour s history when social democracy had apparently failed this book considers what the party came up with in its place The story of the Labour Party in opposition 1970 1974 is shown to be one of a major political party sustaining policy activity of limited relevance to its electoral requirements Not only that but Labour regained office in 1974 with policies on wages and industrial relations whose unworkability led to the failure of the Labour government 1974 1979 and the Labour Party s irrelevance to so many voters after 1979 Using primary sources the author documents and explains how this happened focusing on the party s response to defeat in 1970 and the behaviour of key individuals in the parliamentary leadership in response to pressure for a review of policy

Sacred Cows and Common Sense Tim Bale, 1999 Using Labour s postwar welfare policy it shows that we need to break down distinctions between the symbolic and the substantial in politics that cultural theory has potential as a way of understanding party political culture and that welfare policy has played a crucial but self defeating role in Labour s efforts to manage itself win hearts and minds and govern competently It concludes by arguing that New Labour s attempts to rethink welfare is largely rhetorical if one recalls what Labour did in office rather than promised in opposition Rather than a serious attempt to confront social realities the rethink represents a continuation of past practice and a way of signalling the government s soundness to the market

Communing with the Enemy Merrilyn Thomas, 2005 Based on archival sources this book examines the secret role of British and German Christians in the Cold War both as non governmental envoys and as members of covert intelligence operations and demonstrates the way in which religion was used as a tool of psychological warfare

NYE Nick Thomas-Symonds, 2014-12-18 Aneurin Nye Bevan was one of the pivotal Labour figures of the post war era As Minister for Health in Attlee s government his role in the foundation of the NHS the world s largest publically funded health service and the centre piece of the Opening Ceremony of the 2012 London Olympics changed the face of British society forever The son of a coal miner from South Wales Bevan was a life long champion of social justice and the rights of working people and

became one of the leading proponents of Socialist thought in Britain He was also vehement in his dislike of the Conservative Party going so far as to oppose the wartime coalition between Attlee and Churchill Whilst he admired the Marxist critique of capitalism and felt that the drive for private consumer affluence in the 1950s flew in the face of social good he was certainly no communist He was a passionate believer in public ownership but had a complex relationship with the unions which may have prevented him from becoming party leader In this book acclaimed author Nicklaus Thomas Symonds provides the first full life biography of Bevan in over two decades from his birth in Tredegar in the South Wales Valleys in 1897 to his death from stomach cancer at the age of 62 in 1960 Thomas Symonds considers not just Bevan s political career but also his upbringing his career in local government in Wales and his relationship with his wife and fellow Labour MP Jennie Lee Drawing on first hand interviews as well as recently released sources he provides a unique portrait of one of the great British statesmen of the twentieth century

Labour's Thinkers Kevin Hickson, Matt Beech, 2007-04-27 Labour s Thinkers seeks to examine the key ideas emphasised by the twelve individuals whom the authors judge to have made the most significant development to the political thought of the Labour Party since the 1930s Hickson and Beech argue the Labour Party is a party of values but often not of ideas The number of people involved in the serious discussion of ideas in the Labour Party is relatively small and intellectuals are often viewed with suspicion in what is or was a party set up to represent the interests of the working classes The formulation and development of ideas are therefore crucial to understanding the outcomes of the Labour Party s internal struggles and the basis of the party s appeal Labour s Thinkers highlights influential and at times controversial figures involved in the battle of socialist ideas in the Labour Party thus exploring concepts such as equality liberty community power the state ownership and patriotism

Losing from the Inside Patricia Lee Sykes, 2018-01-16 This book focuses on the consequences of internal conflict for electoral competition and demonstrates why the Social Democratic Party SDP in alliance with the Liberals lost from the inside during two general election campaigns in Great Britain

The Postwar Legacy of Appeasement R. Gerald Hughes, 2014-01-16 Focusing on the Cold War and the post Cold War eras R Gerald Hughes explores the continuing influence of Appeasement on British foreign policy and re evaluates the relationship between British society and Appeasement both as historical memory and as a foreign policy process The Postwar Legacy of Appeasement explores the reaction of British policy makers to the legacies of the era of Appeasement the memory of Appeasement in public opinion and the media and the use of Appeasement as a motif in political debate regarding threats faced by Britain in the post war era Using many previously unpublished archival sources this book clearly demonstrates that many of the core British beliefs and cultural norms that had underpinned the Chamberlainite Appeasement of the 1930s persisted in the postwar period

The Labour Governments 1964-1970 Peter Dorey, 2006-04-18 The book re evaluates the 1964 1970 Labour Governments with regard to its economic social constitutional and foreign policies

Pistols at Dawn John Campbell, 2011-03-22 Benjamin Disraeli and William Gladstone

Edward Heath and Margaret Thatcher Gordon Brown and Tony Blair Personal rivalry is the very stuff of politics The causes and controversies the parties and technology may have changed over time but political conflict is still dramatised by the competition of ambitious individuals for the highest offices Over the past two hundred years the size of the electorate has grown enormously and the means of reaching it transformed out of all recognition but human nature itself hasn't changed In his thought provoking book John Campbell considers eight pairs of rivals and shows how their antagonism which often evolved into outright loathing has determined the course of political conflict In each of his cases studies Fox and Pitt Castlereagh and Canning Gladstone and Disraeli Asquith and Lloyd George Bevan and Gaitskell Macmillan and Butler Heath and Thatcher Brown and Blair he combines a vivid narrative with an authoritative assessment of the historical legacy that reveals how ideology is inextricably entwined with personality

The Centre of Things Christopher Harvie, 2005-08-02 An historical and critical work on the role of fiction in British politics focusing on Disraeli Galt Eliot Trollope Wells and Cary among others This witty book is the first treatment of its subject for nearly seventy years
