**The British National Bibliography** Arthur James Wells,2001 **As If There Were No Tomorrow** Tom Delaney,2012-07-20 Teachers are at times overwhelmed by the cultural disparities between themselves and their students the environmental

deterrents to learning and the degree of learning deficiencies they are asked to help students to overcome How can educators communicate state and national objectives to a streetwise inner city youth in a way that he feels inspired to buy into them How do they establish a pleasing interchange that draws a troubled child toward learning goals that are not within his frame of reference No Tomorrow addresses these problems It replaces shoptalk and generic theories with actual scenarios tested strategies and learning activities These are tools that Dr Delaney and his colleagues developed and implemented during his three decades as a classroom teacher administrator and staff developer Hence this book is a collection of ideas and inspiration that can help the teacher create an academic atmosphere where no student needs to feel left behind It also provides an attitude self check that helps teachers determine if their personal views are promoting or impeding learning or even worse precipitating a crisis His holistic student centered approach has proven effective in the most hostile classrooms in the state of Georgia Teachers will recognize problems and remediations that affirm their own challenges and triumphs The methods discussed are not prescriptive and not meant to be a touchstone for accomplished teaching They are however a fountain of ideas from which fellow educators are invited to draw inspiration
