War and Society in Habsburg Spain I.A.A. Thompson, 2024-10-28

The historical study of war in the Spain of Philip II forms the starting point for the articles in this volume They approach this not so much from a military angle but as a problem of organization procurement and finance In a sense the articles represent an assessment of the effectiveness of the Spanish government and so given the apparent precocity of government growth in 16th century Spain they can also be seen as a critical commentary on the operational capabilities of the early modern absolutist state Six of the essays here focus on the Spanish Armada in terms of its political and military objectives but demonstrating how these were conditioned by basic systems limitations not least in the procurement of suitable cannon In the final articles Dr Thompson turns to the impact of war and its financing on the social structure bearing in particular on the definition of nobility and its sale and on local democracy and making full use here as elsewhere of the relatively unexplored local sources Two of the papers here appear for the first time in English whilst a third has been newly prepared for this volume

L'étude historique de la guerre sous Philippe II roi d'Espagne est la base des articles contenus dans le présent recueil Ceci est abordé non tant sous l'angle militaire mais comme un problème d'organisation d'acquisition de matériel et de financement En un certain sens ces documents représentent une évaluation de l'efficacité du gouvernement espagnol et peuvent par conséquent donner l'apparence de la précocité de la croissance gouvernementale en Espagne au 16^{si} siècle Les derniers taient conditionnés par des contraintes structurales

The Military Revolution and the Trajectory of Spain: War, State and Society 1500-1700 I.A.A. Thompson, 2020-12-21

I.A.A. Thompson Emeritus Fellow of the Royal Historical Society is the author of *War and Government in Habsburg Spain* a seminal study of the impact of war on the development of the state in Spain in the 16th and 17th centuries In this volume he reprints for an English readership ten essays examining the implications for government the financial system and Spain's position in Europe of the fundamental changes in the art and practice of war both on land and at sea that took place during this period This Military Revolution has been one of the most contentious debates among historians for the last fifty years but little attention has so far been paid to Spain itself despite her predominance in Europe for much of the period These essays are designed to correct that omission and to assist in a fuller understanding both of the Military Revolution and of the strengths and weaknesses of the Spanish state

Monasticism has a special position in the history of pastoral care It produced

innovations in various aspects of pastoral care despite or more precisely because of its isolation in legal or social terms from the secular world The thirteen papers contained in this volume will reveal that there was a great variety in the ways pastoral care continued to be practised by monasticism depending on time space and the nature of each religious order Adopting a comparative approach their historical and geographical range of investigation is not limited to medieval Europe but expands to the Americas and even to Japan in the early Modern Age This volume bases on a conference held on 1 and 2 March 2019 at Okayama University Japan as part of the close collaboration between a Japanese research group on Christian Buddhist religious movements and the Research Project Monasteries in the High Middle Ages Innovation Laboratories for European Life Designs and Regulatory Models of the Saxon and the Heidelberg Academies of Sciences and Humanities as well as the Research Center for Comparative History of Religious Orders FOVOG Dresden *English Prose* Sir Henry Craik, 1893 This collection shows the growth and development of English prose by extracts from the principal and most characteristic writers
