APAIS 1991: Australian public affairs information service , The Australian Nationalist White Book - New Edition Nathan Sykes, 2022-01-16 A frank and brave discussion about Australian nationalism where it came from what it means and why it is needed The White Book examines the many areas that affect national identity challenges globalist dogma and asks questions about the individual and the state Perhaps the most wide ranging reflection on Australian nationalism in modern times As the Great Reset looms in western society the book defines Australian identity and highlights the threat to the existence of the Australian people taking place under the guise of COVID 19 Asia, the US and Extended Nuclear Deterrence Andrew O'Neil, 2013-09-02 Since the end of the Cold War significant attention has focussed on the issue of nuclear deterrence and in particular whether formal nuclear security guarantees from nuclear weapons states to non nuclear weapons states involving the possible use of nuclear weapons have a place in the twenty first century global strategic landscape Growing support for nuclear disarmament in the US and elsewhere has seen serious doubts being raised about the ongoing utility of extended nuclear deterrence This book provides the first detailed analysis of the way in which extended nuclear deterrence operates in contemporary Asia It addresses the following key questions What does the role of extended nuclear deterrence in Asia tell us about the broader role of extended nuclear deterrence in the contemporary international system Is this role likely to change significantly in the years ahead O Neil uses a theoretical and historical framework to

analyse the contemporary and future dynamics of extended nuclear deterrence in Asia and challenges many of the existing orthodox perspectives on the topic Providing a new perspective on debates surrounding extended nuclear deterrence this book will be of interest not only to students and scholars of Asian politics international relations and security studies but also to policy makers and professionals The Big Fix Albert Palazzo,2025-07-16 The character of war is constantly changing and so too must the approach to national security But Australia s defence policy is broken Successive governments have not approached the nation s security with the intelligence resoluteness and seriousness it requires After more than 120 years of defence policy centred on dependency the geopolitical situation demands new thinking by politicians and policymakers to secure the nation for the future In light of technological progress the shifting balance of power in the Pacific and the worsening danger of climate change Australia needs a new approach in order to charts its own course In The Big Fix defence strategist Albert Palazzo proposes a defence policy centred on the strategic defensive which presents the best military fit for Australia given its geography and the current state of military technology Crucially he elevates climate change to primacy in the national security hierarchy and explains how we cannot afford to ignore it as a security factor And he asks what is stopping Australia s leaders from seriously considering other options for the nation s security The New Australian Militarism Graeme Cheeseman,St. John Kettle,1990 Essays by Marcia Langton and Chris Tremewan annotated separately

Dunn,2025-03-04 The real story of how power works in this country In recent years the trust in Australian politics and politicians has been at an all time low From political polarisation and the spread of disinformation to the lack of trust in the public institutions that underpin our government the truth can often be hard to find How Australian Democracy Works is a pulse check of our country s political health and a helpful guide to understanding our nation s political history and our place in the world from government parliament the Constitution and pressing policy issues Discover the best most current analysis from people with valuable experience and expertise to better understand who we are how we got here and where we might go next From The Conversation s top academic writers comes an honest and informed call to examine rethink and safeguard Australia s unique democracy This is the book I wish I had when I enrolled to vote for the first time Accessible and essential reading for all Australians Bridget Hustwaite presenter and bestselling author of How to Endo A comprehensive look at Australian democracy past and present How Australian Democracy Works covers absolutely everything you need to know to

ensure you go into vote as informed as possible Leo Puglisi 6 News Thoughtfully conceived and artfully curated How Australian Democracy Works provides a compelling argument for why the humanities their scholars and their disciplines are not only relevant in today s town square but also vitally necessary Rigorous insightful and critically engaged without a hint of jargon or affect these essays collectively and cumulatively demonstrate the value of polyvocal discourse a hallmark of democracy itself How Australian Democracy Works deserves a place in every school library and on a few politicians and journalists bookshelves too Superb Professor Clare Wright Professor of History and Professor of Public Engagement La Trobe University and author of the Democracy Trilogy It s more important than ever that Aussies are equipped with the tools they need to feel empowered to engage with the world around them How Australian Democracy Works does just that it takes the meatiest topics that underpin our democracy and package it up in a way we can all understand and learn from We all need to play a role in moving this country forward and this book gives you the toolkit to be part of that solution Zara Seidler The Daily Aus How Australian Democracy Works pools some of our country s most prized journalists into a thorough and engaging account of Australia s political system This is a fascinating and hugely vital book one that simultaneously recounts our country s political history and current structure while proving how pivotal it is to safeguard democracy Complex concepts are broken down into layman s terms and reading this left me feeling smarter and more encouraged to be an engaged political citizen I wish I had this book earlier Maggie Zhou writer editor and podcaster [United States Engagement in the Asia Pacific: Perspectives from Asia - Student Edition](#) Sato, Yoichiro, Tan, See Seng, 2015-07-30 Note this is an abridged version of the book with references removed The complete edition is also available on this website This study brings together Asian and Asia based experts of international relations and U S foreign policy to present diverse Asian views about preferred modes of U S engagement in the region and compare their views with U S interests in the region a prerequisite exercise to truly multilateral regional security governance With the rise of Chinese power in absolute and relative terms over the next decades as a key driving factor of the international relations in the Asia Pacific the United States has announced its Rebalance to Asia previously referred as Pivot to Asia strategy Asian responses perceptions and even interpretations of the U S strategy have been diverse Misconceptions of the U S strategy can be attributed to the built in contradictions among its objectives deliberate ambiguities left by the architects of the strategy mismatch between the stated strategy and actual policy implementations during the last three years and subjective reading by the Asian countries through the lens of their own interests This book will illuminate the diversity of Asian responses and perceptions and analyze the underlying reasons of the diversity The overarching framework of analysis for this book is the very dilemma of alliances abandonment and entrapment which hedging aims at evading Abandonment fear is primarily of the junior partner of an alliance that its senior partner may not come to its aid in crisis Meanwhile entrapment fear works both ways The United States may drag its allies into its conflict against a third party but U S allies may also drag the United States into their regional conflicts in which the

United States has no direct or significant stake The Asian choices of their strategic responses to the U S Rebalancing will be described and analyzed through the lens of the perceived balance between the abandonment and entrapment fears as well as other historical and domestic factors unique to each Asian country The reading of the U S strategy by Asian countries is a subjective matter and their interests likely influence their analysis and consequently strategies It is not the aim of this volume to establish well defined cause and effect chain between the U S strategy and Asian strategies but thick descriptions have enabled some chapter authors to identify reciprocal relations between the two While China s growth is the most important driver of the changing strategic landscape in the Asia Pacific and the new U S strategy the new U S strategy inevitably influence the Chinese strategy which in turn triggers a chain reaction of strategic revisions in Asian countries This book is essential reading for scholars in Asian politics U S foreign policy international relations as well as for policy makers

Quarterly Essay 39 Power Shift Hugh White,2010-08-30 In Power Shift Hugh White considers Australia s future between Beijing and Washington As the power balance shifts and China s influence grows what might this mean for our nation Throughout our history we have counted first on British then on American primacy in Asia Now the rise of China as an economic powerhouse challenges US dominance and raises questions for Australia that go well beyond diplomacy and trade questions about our place in the world our loyalties and our long term security Will China replace the US as regional leader If so we will be dealing with an undemocratic and vastly more powerful nation Will China wield its power differently from the US If so should we continue to support America and so divide Asia between our biggest ally and our biggest trading partner How to define the national interest in the Asian century This visionary essay considers the shape of the world to come and the implications for Australia as it seeks to carve out a place in the new world order This year China overtook Japan to become the world s second biggest economy It is already bigger relative to the US than the Soviet Union ever was during the Cold War A Chinese challenge to American power in Asia is no longer a future possibility but a current reality Few issues are more important to Australia s future than how this plays out You would not know it to listen to our leaders Hugh White Power Shift
