Arming America; how the U.S. Buys Weapons John Ronald Fox,1974 **The Politics of Defense Contracting** Gordon Adams,2020-02-18 This is the first systematic study of the relationship between government and defense contractors examining in detail the political impact of the eight most powerful defense contractors It details ways in which Boeing General Dynamics Grumman McDonnell Douglas Northrop Rockwell International and United Technologies influence government from their basic contract activity corporate structure and research efforts to their Washington offices Political Action Committee campaign contributions hiring of government personnel and membership on federal advisory committees Adams concludes with specific recommendations for changes in disclosure requirements that would curb some of the political power corporations can wield It also suggests specific ways in which the Iron Triangle can be made subject to wider congressional and public scrutiny **Professional Journal of the United States Army** ,1974 *American Defense Policy* Peter L. Hays,Brenda J. Vallance,Alan R. Van Tassell,1997 defense policies reviewing excerpts from key defense policy statements and assessing the likely challenges for future policy makers Brent Scowcroft International Affairs **The 1976 First Concurrent Resolution on the Budget** United States. Congress. Senate. Committee on the Budget,1975 **History of Acquisition in the Department of Defense, Volume 1** Elliott V. Converse,2012-06-12 This volume is a history of the acquisition of major weapon systems by the United States armed forces from 1945 to 1960 the decade and a half that spanned the Truman and Eisenhower administrations following World War II These instruments of warfare aircraft armored vehicles artillery guided missiles naval vessels and supporting electronic systems when combined with nuclear warheads gave the postwar American military unprecedented deterrent and striking power 1 They were also enormously expensive The volume is organized chronologically with individual chapters addressing the roles of OSD the Army Navy and Air Force in two distinct periods The first roughly coinciding with President Truman s tenure covers the years from the end of World War II through the end of the Korean War in 1953 The second spans the two terms of the Eisenhower presidency from 1953 through early 1961 The year 1953 marked a natural breakpoint between the two periods The Korean War had ended President Eisenhower and his defense team began implementing the New Look a policy and strategy based on nuclear weapons which they believed would provide security and make it possible to reduce military spending The New Look s stress on nuclear weapons along with the deployment of the first operational guided missiles and the rapid advances subsequently made in nuclear and missile technology profoundly influenced acquisition in the services throughout the 1950s and the remainder of the century As used in this study the term acquisition encompasses the activities by which the United States obtains weapons and other equipment In surveying the history of acquisition between 1945 and 1960 this study discusses or refers in passing to many of the hundreds of weapon system programs initiated by the services in that period but it is not a weapons encyclopedia Instead it investigates a few major programs in depth in the belief that such detailed examination best reveals

the evolution of acquisition policies organizations and processes and the various forces influencing weapons programs
