Art And Existence A Phenomenological Aesthetics:

Art and Existence Eugene Francis Kaelin, 1971 Handbook of Phenomenological Aesthetics Hans Rainer Sepp, Lester Embree, 2010-03-11 Historically phenomenology began in Edmund Husserl's theory of mathematics and logic went on to focus for him on transcendental first philosophy and for others on metaphysics philosophical anthropology and theory of interpretation The continuing focus has thus been on knowledge and being But if one began without those interests and with an understanding of the phenomenological style of approach one might well see that art and aesthetics make up the most natural field to be approached phenomenologically Contributions to this field have continually been made in the phenomenological tradition from very early on but so to speak along the side The situation has been similar with phenomenological ethics A great deal of thought about art and aesthetics has nevertheless accumulated during a century and a handbook like the present one is long overdue The project of this handbook began in conversations over dinner in Sepp's apartment in Baden Baden at one evening of the hot European summer in the year 2003 As things worked out he knew more about whom to ask and how much space to allocate to each entry and Embree knew more about how to conduct the inviting preliminary editing and prodding of contributors who were late returning their criticized drafts and copyedited entries and was able to invest the time and other resources from his endowed chair That process took longer than anticipated and there were additional unfortunate delays due to factors beyond the editors's control Beautiful, Bright, and Blinding H. Peter Steeves, 2017-10-27 Phenomenological analysis of beauty and art across various aspects of lived experience and culture Through a careful analysis of concrete examples taken from everyday experience and culture Beautiful Bright and Blinding develops a straightforward and powerful aesthetic methodology founded on a phenomenological approach to experience one that investigates how consciousness engages with the world and thus what it means to take such things as tastes images sounds and even a life itself as art H Peter Steeves begins by exploring what it means to see and considers how disruptions of sight can help us rethink how perception works Engaging the work of Derrida Heidegger and Husserl he uses these insights about seeing to undertake a systematic phenomenological investigation of how we perceive and process a range of aesthetic objects including the paintings of Arshile Gorky the films of Michael Haneke Disney's Beauty and the Beast zombie films The Simpsons the performance art of Rachel Rosenthal and Andy Kaufman and even vegan hot dogs Refusing hierarchical distinctions between high and low art Steeves argues that we must conceptualize the whole of human experience as aesthetic art is lived and living is an art This is a brilliant new contribution by our preeminent phenomenologist of culture It is extremely accessible illuminating original and sophisticated while being philosophically probing David Wood author of *The Step Back Ethics and Politics after Deconstruction* **The Phenomenology of Aesthetic Experience** Mikel Dufrenne, 1973 The Phenomenology of Aesthetic Experience *Phénoménologie de l'expérience esthétique* was first published in 1953 In the first of four parts Dufrenne distinguishes the aesthetic object from the work of art In the second he elucidates types of works

of art especially music and painting He devotes his third section to aesthetic perception In the fourth he describes a Kantian critique of aesthetic experience A perennial classic in the SPEP series the work is rounded out by a detailed Translator s Foreword especially helpful to readers in aesthetics interested in the context and circumstances around which the original was published as well as the phenomenological background of the book Policing and the Poetics of Everyday Life Jonathan M. pragmaticity test which science indubitably applies in its verification of technology philosophy phenomenology at last reaches the full significance of reality the fullness of the vital fact of life which comprises not only the works and enjoyment of the mind and the spirit but those of the bios and the cosmos too The full fledged dialogue with the hard core sciences opens up philosophy of life and the human creative condition draws together all the radiations of life into its field of inquiry Tymieniecka thus proposes a new mathesis universalis the dream of Leibniz and Husserl which can at least be fulfilled

Process and
Aesthetics Ondřej Dadejík, Martin Kaplický, Miloš Ševčík, Vlastimil Zuska, 2021-04-01

While Alfred North Whitehead did not dedicate any books or articles to aesthetics specifically aesthetic motifs permeate his entire philosophical opus Despite this aestheticians have devoted little attention to Whitehead most attempts to reconstruct Whitehead's aesthetics have come from process philosophers and even in that context aesthetics has never occupied a central position In this book four scholars of aesthetics provide another angle from which Whiteheadian aesthetics might be reconstructed Paying special attention to the notion of aesthetic experience the authors analyze abstraction versus concreteness immediacy vs mediation and aesthetic

contextualism vs aesthetic isolationism For their interpretation of Whiteheadian aesthetics the concepts of creativity and rhythm are crucial Using these concepts the book interprets the motif of the processes by which experience is harmonized the sensation of the quality of the whole and directedness towards novelty The first chapter introduces Whitehead's philosophical method of descriptive generalization This method assumes that every philosophical system is based on a particular entry point We show that for Whitehead this entry point was aesthetics Chapter Two compares Whitehead and Dewey's philosophies to show that both viewed aesthetic experience in terms of complex rhythms this helps us better understand the differences and the continuities between everyday experience and art Chapter Three compares Whitehead's ideas with those of Henri Bergson showing the way art reveals the form of immediate experience and how the aesthetic experience of art relates to truth The final chapter details the processes that constitute aesthetic experience in a narrower sense analyzing aesthetic experience from the perspective of the types of abstractive processes it involves and the complex types of experience it produces

Art and Interpretation Eric Dayton, 1999-02-02 Art and Interpretation is a comprehensive anthology of readings on aesthetics Its aim is to present fundamental philosophical issues in such a way as to create a common vocabulary for those from diverse backgrounds to communicate meaningfully about aesthetic issues To that end the editor has provided selections from a wide variety of challenging works in aesthetic theory both classical and modern The approach is often cross disciplinary Within the discipline of philosophy it seeks to balance readings from the analytic tradition with continental European hermeneutical postmodern including deconstructionist and feminist readings The anthology is thus broadly conceived but by grouping the readings into sections such as Expression and Aesthetic object Psychology and Interpretation Marxist Theory and Culture Gender and Difference it aims as well to provide depth of coverage for each topic or issue The book opens with a historical section containing substantial selections from Plato Aristotle Hume Kant Shelley and Nietzsche these readings introduce themes that recur and are developed in the remainder of the anthology

The Oxford Handbook of Modern French Philosophy, 2024-06-25 French philosophy is an internationally celebrated national philosophical tradition and this Oxford Handbook offers a comprehensive approach to its history since 1800 The Handbook features essays written by renowned international specialists illuminating key movements and positions themes and thinkers in nineteenth twentieth and even twenty first century French philosophy The volume takes into account developments in recent historical scholarship by broadening the notion of Modern French Philosophy in two ways Whereas recent approaches in the field have often ignored early nineteenth century developments this volume offers comprehensive treatment of French thought of this period in order to grasp better later developments Moreover the volume extends the canon at the other end of the period of Modern French Philosophy by including work on philosophers who have come to prominence only in the last ten or twenty years The volume takes French philosophy in a broad sense to include all philosophy carried out in France over the last 200 years and it illuminates the institutional and cultural background of this

national philosophical tradition in such a way as to provide a fuller and more comprehensive understanding of its unity and of its more famous moments in the twentieth century
