Arms Control, Disarmament, and National Security Donald G. Brennan, 1961 Based on a special issue fall 1960 of Daedalus Bibliography p 457 470 *Essays on Arms Control and National Security* Bernard F. Halloran, 1986 These essays collected to commemorate the Arms Control and Disarmament Agency's 25th anniversary span not only ACDA's lifetime but the four decades of the nuclear era The articles provide a sampling of the arms control related speculation and controversy that has existed during those years Since many of the authors are either current members of the U S Government or have strongly influenced its policy over the years these essays on the formulation of U S arms control and national security policies have almost assumed the status of classics The authors represented include Fred Ikle Henry Rowen Paul Nitze George Kennan Robert McNamara Thomas Schelling Albert Wohlstetter and James Schlesinger S N 044 000 02164 1 12 00 **Arms Control, Disarmament, and National Security** Donald G. Brennan, 1961 **Winning and Losing the Nuclear Peace** Michael Krepon, 2021-10-19 The definitive guide to the history of nuclear arms control by a wise eavesdropper and masterful storyteller Michael Krepon The greatest unacknowledged diplomatic achievement of the Cold War was the absence of mushroom clouds Deterrence alone was too dangerous to succeed it needed arms control to prevent nuclear warfare So U S and Soviet leaders ventured into the unknown to devise guardrails for nuclear arms control and to treat the Bomb differently than other weapons Against the odds they succeeded Nuclear weapons have not been used in warfare for three quarters of a century This book is the first in depth history of how the nuclear peace was won by complementing deterrence with reassurance and then jeopardized by discarding arms control after the Cold War ended **Winning and Losing the Nuclear Peace** tells a remarkable story of high wire acts of diplomacy close calls dogged persistence and extraordinary success Michael Krepon brings to life the pitched battles between arms controllers and advocates of nuclear deterrence the ironic twists and unexpected outcomes from Truman to Trump What began with a ban on atmospheric testing and a nonproliferation treaty reached its apogee with treaties that mandated deep cuts and corralled loose nukes after the Soviet Union imploded After the Cold War ended much of this diplomatic accomplishment was cast aside in favor of freedom of action The nuclear peace is now imperiled by no less than four nuclear armed rivalries Arms control needs to be revived and reimagined for Russia and China to prevent nuclear warfare New guardrails have to be erected **Winning and Losing the Nuclear Peace** is an engaging account of how the practice of arms control was built from scratch how it was torn down and how it can be rebuilt **Hearings on Military Posture and Legislation to Authorize Appropriations During the Fiscal Year 1970** United States. United States, 2012 **Strategic Studies and Public Policy** Colin S. Gray, 2014-07-15 Strategic studies as a field of civilian scholarship has developed along distinctive lines in the United States since World War II. The rapid proliferation and increasing sophistication of weapons technology have required constant revision of strategic theory while the shifting political climate both internationally and in the United States has had an equally powerful impact. One of the field's leading theorists now examines the history and development of American strategic studies, the varied roles assumed by civilian strategists and their relationship with those charged with developing and carrying out American military and diplomatic policy. This provocative book clearly demonstrates the importance of a sound strategic theory if America is to survive in an age of high arms technology and increased world tensions.
