Art And The Absolute:

Art and the Absolute William Desmond, 1986-01-01 Art and the Absolute restores Hegel's aesthetics to a place of central importance in the Hegelian system. In so doing it brings Hegel into direct relation with the central thrust of contemporary philosophy. The book draws on the astonishing scope and depths of Hegel's Lectures on Aesthetics exploring the multifaceted issue of art and the absolute. Why does Hegel ascribe absoluteness to art? What can such absoluteness mean? How does it relate to religion and philosophy? How does Hegel's view of art illuminate the contemporary absence of the absolute? Art and the Absolute argues that these aesthetic questions are not mere theoretical conundrums for abstract analysis. It argues that Hegel's understanding of art can provide an indispensable hermeneutic relevant to current controversies. Art and the Absolute explores the intricacies of Hegel's aesthetic thought communicating its contemporary relevance. It shows how for Hegel art illuminates the other areas of significant human experience such as history, religion, politics, literature. Against traditional closed views the result is a challenge to re-read Hegel's aesthetic philosophy. **Art as the Absolute** Paul

Gordon, 2015-09-24 Art as the Absolute is a literary and philosophical investigation into the meaning of art and its claims to truth. Exploring in particular the writings of Kant and those who followed after including Fichte, Schelling, Hegel, Schopenhauer and Nietzsche, Paul Gordon contends that art solves the problem of how one can know the absolute in non-conceptual, non-discursive terms. The idea of art's inherent relation to the absolute first explicitly rendered by Kant is examined in major works from 1790 to 1823. The first and last chapters on Plato and Nietzsche respectively deal with precursors and post-cursors of this idea. Gordon shows and seeks to redress the lack of attention to this idea after Hegel as well as in contemporary reassessments of this period. Art as the Absolute will be of interest to students and scholars studying aesthetics from both a literary and philosophical perspective. *The Absolute Artist* Catherine M. Soussloff, 1997 Analyzing the myth of the artist in western culture, this work considers the social construction of the artist from the 15th century to the present. Paths to the Absolute John Golding, 2023-10-17 A groundbreaking account of the meaning of abstract painting.

From Mondrian's bold geometric forms to Kandinsky's use of symbols to Pollock's dripped paintings, the richly diverse movement of abstract painting challenges anyone trying to make sense of either individual works or the phenomenon as a whole. Applying his insights as an art historian and a painter, John Golding offers a unique approach to understanding the evolution of abstractionism by looking at the personal artistic development of seven of its greatest practitioners. He re-creates the journey undertaken by each painter in his move from representational art to the abstract, a journey that in most cases began with cubism but led variously to symbolism, futurism, surrealism, theosophy, anthropology, Jungian analysis, and beyond. For each artist, spiritual quest and artistic experimentation became inseparable. And despite their different techniques and philosophies, these artists shared one goal: to break a path to a new ultimate pictorial truth. The book first explores the works and concerns of three pioneering European abstract painters: Mondrian, Malevich, Kandinsky, and then those of their American

successors Pollock Newman Rothko and Still Golding shows how each painter sought to see the world and communicate his vision in the purest or most expressive form possible For example Mondrian found his way into abstraction through a spiritual response to the landscape of his native Holland Malevich through his apprehension of the human body Kandinsky through a blend of religious mysticism and symbolism Line and color became the focus for many of their creative endeavors In the 1940s and 50s the Americans raised the level of pictorial innovation beginning most notably with Pollock and his Jung inspired concept of action Golding makes a powerful case that at its best and most profound abstract painting is heavily imbued with meaning and content Through a blend of biography art analysis and cultural history Paths to the Absolute offers remarkable insights into how a sense of purpose is achieved in painting and how abstractionism engaged with the intellectual currents of its time Please note All images in this ebook are presented in black and white and have been reduced in size

Jean Delville Brendan Cole,2014-11-10 This book is the first full length study of the art and writings of Jean Delville As a member of the younger generation that emerged during the end of the nineteenth century he was a dynamic leader of a group of avant garde artists who sought to establish a new school of Idealist Art in Belgium He was one of the most talented painters of his generation producing a vast body of works that in both scale and technical accomplishment is unsurpassed amongst his contemporaries In his extensive writings in contemporary journals and books he pursued a singular vision for the purpose of art to serve as a vehicle for social change as well as to inspire individuals to be drawn to a higher spiritual reality Delvilles thinking is heavily indebted to the hermetic and esoteric philosophy that was widely popular at the time and his paintings poetry and writings reformulate the main tenets of this tradition in a contemporary context In this regard his aesthetic and artistic goals are similar if not identical to those found in the writings and art of Kandinsky and Mondrian during the early twentieth century

The Music and Sound of Experimental Film Holly Rogers (Professor of music),Jeremy Barham,2017 Holly Rogers is Senior Lecturer in Music at Goldsmiths University of London Book jacket

Hegel and Aesthetics Colo.) Hegel Society of America Meeting 1996 (Keystone,Hegel Society of America. Meeting,2000-05-18 Leading scholars consider Hegel s philosophy of art and its contemporary significance **The Contemporary Review** ,1880 **The Eclectic Magazine of Foreign Literature, Science, and Art** ,1889 **End-of-Art Philosophy in Hegel, Nietzsche and Danto** Stephen Snyder,2018-11-04 This book examines the little understood end of art theses of Hegel Nietzsche and Danto The end of art claim is often associated with the end of a certain standard of taste or skill However at a deeper level it relates to a transformation in how we philosophically understand our relation to the world Hegel Nietzsche and Danto each strive philosophically to overcome Cartesian dualism redrawing the traditional lines between mind and matter Hegel sees the overcoming of the material in the ideal Nietzsche levels the two worlds into one and Danto divides the world into representing and non representing material These attempts to overcome dualism necessitate notions of the self that differ significantly from traditional accounts the redrawn boundaries show that art and philosophy

grasp essential but different aspects of human existence Neither perspective however fully grasps the duality The appearance of art s end occurs when one aspect is given priority for Hegel and Danto it is the essentialist lens of philosophy and in Nietzsche s case the transformative power of artistic creativity Thus the book makes the case that the end of art claim is avoided if a theory of art links the internal practice of artistic creation to all of art s historical forms *Material Inscriptions* Andrzej Warminski,2016-06-30 This book focuses on the practice and pedagogical value of rhetorical reading Its readings follow an itinerary from poetic texts such as those by Wordsworth and Keats through theoretical or philosophical texts by Descartes and Nietzsche to narrative *Hegel's Philosophy of Spirit* Peter G. Stillman,1986-11-21 This book focuses on Hegel s philosophy of spirit his major concept and the core of his mature system It does not so much define Geist as it does illustrate its many forms and manifestations It is a broad ranging examination of Volume III of Hegel s Encyclopedia delineating his radical break with previous philosophy and illuminating the heart of his thought Several themes recur the meaning and content of recognition and intersubjectivity religion Hegel s predecessors and his contemporary successors or contrasts Hegel s intentions and his audacity are made both clear and sharp in this work *The Fine Art of Repetition* Peter Kivy,1993-02-26 Collection of essays on the following issues music and the liberal education work and performance the world of opera music and the history of ideas music and emotion and music alone **Art and Authority** K. E. Gover,2018 People engage with authored works all the time They buy paintings read books and download songs They might even be artists themselves And yet they tend to take the concept of authorship for granted The basic idea that an artist as author maintains some kind of claim to his creation even as it circulates in the world at large seems natural It is the basis for copyright law and moral rights legislation which protect the rights of authors But what is an author and why do artists receive special legal recognition and protection that the creators of other kinds of artifacts do not It is often assumed that artists have a special bond with their artworks but the nature of this bond and its function as the source of an artist s authority over his work often goes unquestioned *Art and Authority* is a philosophical essay on artistic freedom its sources nature and limits Artistic freedom can mean different things depending on the context in which it is invoked K E Gover argues that the most fundamental form of artistic freedom involves the artist s authority to accept or disavow the works she produces to curate the works that bear her name and come to represent her artistic oeuvre Our very concept of what an artwork is the intentional expression of the artist for its own sake depends on this second order endorsement by the artist of what he or she has made Using real world cases and controversies in contemporary visual art Gover argues that the leading accounts of artistic authorship in the legal and philosophical literature have overlooked the significance of this moment Idealism without Absolutes Tilottama Rajan,Arkady Plotnitsky,2012-02-01 *Idealism without Absolutes* offers an ambitious and broad reconsideration of Idealism in relation to Romanticism and subsequent thought Linking Idealist and Romantic philosophy to contemporary theory the volume explores the multiplicity of different philosophical incarnations of Idealism and materialism

and shows how they mix with and invade each other in philosophy and culture The contributors discuss a wide range of major figures in the long Romantic period from Kant and Hegel to Nietzsche as well as key figures defining the contemporary intellectual debate including Freud Heidegger Adorno Lyotard Derrida de Man and Deleuze and Guattari While preserving the significance of the historical period extending from Kant to the early nineteenth century the volume gives the concept of Romantic culture a new historical and philosophical meaning that extends from its pre Kantian past to our own culture and beyond

The Necropastoral Joyelle McSweeney, 2015 An exploration of poetry as an expression of biology

A *Companion to Contemporary Art in a Global Framework* Jane Chin Davidson, Amelia Jones, 2023-10-16 A *Companion to Contemporary Art in a Global Framework* explores the ways specialists and institutions in the fine arts curation cultural studies and art history have attempted to situate art in a more global framework since the 1980s Offering analyses of the successes and setbacks of these efforts to globalize the art world this innovative volume presents a new and exciting way of considering art in its global contexts Essays by an international panel of leading scholars and practicing artists assert that what we talk about as art is essentially a Western concept thus any attempts at understanding art in a global framework require a revising of established conceptual definitions Organized into three sections this work first reviews the history and theory of the visual arts since 1980 and introduces readers to the emerging area of scholarship that seeks to place contemporary art in a global framework The second section traces the progression of recent developments in the art world focusing on the historical and cultural contexts surrounding efforts to globalize the art world and the visual arts in particular global and transnational frameworks The final section addresses a wide range of key themes in contemporary art such as the fundamental institutions and ontologies of art practice and the interactions among art politics and the public sphere A *Companion to Contemporary Art in a Global Framework* is essential reading for undergraduate and graduate students scholars researchers and general readers interested in exploring global art beyond the traditional Euro American context

The View of Life Georg Simmel, 2011-01-15 Published in 1918 *The View of Life* is Georg Simmel's final work Famously deemed the brightest man in Europe by George Santayana Simmel addressed diverse topics across his essayistic writings which influenced scholars in aesthetics epistemology and sociology Nevertheless certain core issues emerged over the course of his career the genesis structure and transcendence of social and cultural forms and the nature and conditions of authentic individuality including the role of mindfulness regarding mortality Composed not long before his death *The View of Life* was Simmel wrote his testament a capstone work of profound metaphysical inquiry intended to formulate his conception of life in its entirety Now Anglophone readers can at last read in full the work that shaped the argument of Heidegger's *Being and Time* and whose extraordinary impact on European intellectual life between the wars was extolled by Jürgen Habermas Presented alongside these seminal essays are aphoristic fragments from Simmel's last journal providing a beguiling look into the mind of one of the twentieth century's greatest thinkers
