Arts Management Carla Walter, 2015-05-22 Arts Management is designed as an upper division undergraduate and graduate level text that covers the principles of arts management. It is the most comprehensive up to date and technologically advanced textbook on arts management on the market. While the book does include the background necessary for understanding the global arts marketplace, it assumes that cultural fine arts come to fruition through entrepreneurial processes and that cultural fine arts organizations have to be entrepreneurial to thrive. Many cases and examples of successful arts organizations from the United States and abroad appear in every chapter. A singular strength of Arts Management is the author's skilful use of in-text tools to facilitate reader interest and engagement. These include learning objectives, chapter summaries, discussion questions and exercises, case studies and numerous examples and cultural spotlights. Online instructor's materials with PowerPoints are available to adopters.

**Van Gogh on Demand** Winnie Wong, 2022-12-22 Unsettles contemporary art's unspoken hierarchies and topples modernist and postmodernist assumptions about originality, authenticity and authorship. *caa Reviews* In a metropolis in south China lies Dafen, an urban village that houses thousands of workers who paint van Gogh's, Da Vinci's, Warhol's and other Western masterpieces for the world market, producing an astonishing five million paintings a year. Winnie Wong infiltrated this world first, investigating the work of conceptual artists, then working as a dealer, apprenticing as a painter, surveying wholesalers and retailers in Europe, East Asia and North America, establishing relationships with local leaders and organizing a conceptual art exhibition for the Shanghai World Expo. The result is *Van Gogh on Demand*, a fascinating book about a little-known aspect of the global art world, one that sheds surprising light on the workings of art artists and individual genius. Wong describes an art world in which migrant workers, propaganda makers, dealers and international artists make up a global supply chain of art. She examines how Berlin-based conceptual artist Christian Jankowski, who collaborated with Dafen's painters to reimagine the Dafen Art Museum, unwittingly appropriated the work of a Hong Kong-based photographer, Michael Wolf. She recounts how Liu Ding, a Beijing-based conceptual artist, asked Dafen

assembly line painters to perform at the Guangzhou Triennial styling himself into a Dafen boss Through such cases Wong shows how Dafen's painters force us to reexamine our preconceptions about the role of Chinese workers in redefining global art A fantastically detailed exploration of a topic which touches the heart of many of the issues surrounding China's economic rise South China Morning Post Crime and Art Naomi Oosterman, Donna Yates, 2021-11-05 This volume brings together work by authors who draw upon sociological and criminological methods theory and frameworks to produce research that pushes boundaries considers new questions and reshape the existing understanding of art crimes with a strong emphasis on methodological innovation and novel theory application Criminologists and sociologists are poorly represented in academic discourse on art and culture related crimes However to understand topics like theft security trafficking forgery vandalism offender motivation the efficacy of and results of policy interventions and the effects art crimes have on communities we must develop the theoretical and methodological models we use for analyses The readership of this book is expected to include academics researchers and practitioners in the fields of criminology sociology law and heritage studies who have an interest in art and heritage crime **Yishu**, 2007 **Limited Edition** Sophie Lovell, 2013-01-30 Limited Edition is the new buzzword in furniture design The demand for unique pieces is steadily increasing With prototypes one offs and limited product lines designers are celebrating a cult of individuality for all price classes Furniture prototypes have always been an element of the industrial design process but now they are being brought from the workshops and presented to the public as embodiments of one of the most exciting creative fields of our age In the global village with its standardized commodities exclusive one offs with an artisanal flavor are turning into coveted objects Limited furniture series satisfy the collector's thirst for objects that dissolve the boundary between art and design Limited Edition pursues this new phenomenon and uncovers its background in meticulous investigative essays based on the author's ongoing interchange with key designers gallery owners auctioneers and manufacturers With a rich selection of magnificent images and an attractive layout it presents the best and most breathtaking pieces by the leading designers **Whitaker's Shorts: Five Years in Review** Bloomsbury Publishing, 2013-11-07 Now in its 146th edition Whitaker's Almanack is the definitive reference guide containing a comprehensive overview of every aspect of UK infrastructure and an excellent introduction to world politics Available only as ebooks Whitaker's Shorts are selected themed sections from Whitaker's Almanack portable and perfect for those with specific interests within the print edition Whitaker's Shorts Five Years in Review includes a digest of the year's events from 2008/9 to 2012/13 in the UK and abroad and articles covering subjects as diverse as Archaeology Conservation Business and Finance Opera Dance Film and Weather There is also an A-Z listing of all the results for the major sporting events from Alpine Skiing through to Fencing Football Horse Racing Polo and Tennis **Frieze**, 2002 Plastic Cameras Michelle Bates, 2012-11-12 Take a tour of the burgeoning world of plastic cameras and low tech photography in this fun and funky guide to creating the most artistic pictures of your life Whether you're an experienced enthusiast or toy camera neophyte you
