Drinking Driving And Drugs:

Drinking, Driving and Drugs Jean McBee Knox, Solomon H. Snyder, 1991-01-01 Details the effects alcohol and drugs have on the body and includes some tragic examples of the consequences of teenagers drinking and driving Drinking, Driving & Drugs Jean McBee Knox, 1988 An overview of this national problem that focuses on teenage offenders victims **Drink and drug driving law** Great Britain: Parliament: House of Commons: Transport Committee, 2010-12-02 18% of all drivers killed in road accidents are over the drink drive limit In 2007 based on coroners data but only approximately 3% of drivers in the UK are stopped and tested for alcohol compared to the European average of 16% This report calls for the police to be given an additional power to permit preliminary breath tests as part of any designated drink drive enforcement operation Currently the police may stop any vehicle but can only test the driver s breath if there is an element of suspicion There is concern that a reduction in the blood alcohol concentration limit would send out mixed messages but that the aimed for effectively zero limit is too great a step at present Instead concentration should be on stricter enforcement of the current limit and public education It is felt that the success of Great Britain s drink driving policy to date is largely attributable to the deterrent effect of the current 12 month mandatory disqualification penalty and the Committee supports retaining that penalty The committee also calls for the improvement of the detection of drug driving and to strengthen public perception about the likelihood of drug drivers being caught by the police The Government s commitment to install drug screening devices in every police station by 2012 is welcomed though this interim measure should not eclipse the Government s aim over the medium term to develop and type approve a drug screening device for use at the roadside drawing on relevant experience of doing this in the other parts of the world *Drinking and Driving Research Findings* , 1993-05 Discusses the Surgeon General s Workshop on Drunk Driving research on and prevention of drinking and driving as well as alcohol drug interactions use of deterrent laws treatment versus deterrence and impersonal prevention Charts graphs black and white photos Drinking, Driving & Drugs , **The Drink- and Drug-Drive Offences: A Handbook for Practitioners** P. M. Callow, 2018-10-23 The provisions on drink and drug driving and their statutory predecessors have undoubtedly contributed to greater road safety The conviction rate is extremely high running at 95 per cent The consequences of conviction for a drink or drug drive offence go beyond the immediate penalty of a fine a community penalty or imprisonment They include disqualification from driving which may not simply inconvenience the offender but may lead to loss of employment and in due course to greatly increased insurance premiums Since the first edition of this book was published in 2011 there have been two major changes First the new s 5A of the Road Traffic Act 1988 came into force in March 2015 and created the offences of driving attempting to drive or being in charge with a concentration of a specified controlled drug above the specified limit for that drug This new edition includes a new chapter which describes the new offence As far as possible the provisions under s 5A mirror those relating to excess alcohol but the seventeen drugs in question are very different from alcohol and from each

other The law on s 5A is no doubt set to develop over the years to come Secondly the so called statutory option has been removed except in Northern Ireland the Isle of Man and the Channel Islands The new edition of The Drink and Drug Drive Offences A Handbook for Practitioners formerly The Drink Drive Offences provides a practical comprehensive accessible and up to date account of this broad area of law The book brings together the statutory provisions and the case law on the drink drive offences elucidating issues which are often surprisingly difficult It is intended for all practitioners concerned with this area of law whether police prosecution or defence and adopts a neutral standpoint between their various interests
