Donald A. Yerxa, 2009 New insights on global histories and Western civilization from leading scholars in the field Described as the New York Review of Books for history Historically Speaking has emerged as one of the most distinctive historical publications in recent years actively seeking out contributions from a pantheon of leading voices in historical discourse from both inside and outside academia Recent Themes in World History and the History of the West represents some of the best writing on Western civilization and world history in the past five years This collection of essays and interviews from Historically Speaking gives leading historians approaches to the continually evolving field of world history with a specific emphasis on the relationship of Western civilization to the history of the world The book also discusses the effect of empire on global history and the many ways empire continues to manifest in the contemporary world The contributors discuss world history as an intricate story of the connections within the global community rather than a tidy static narrative that attempts to summarize everything in our global past In this volume the study of world history is presented as a constantly comparative endeavor concerned with the major themes that link and divide humanity

The Development Trajectory of Eastern Societies and the Theories and Practices of Socialism Zhao Jiaxiang, 2022-07-30 In the four volumes of The Development Trajectory of Eastern societies and the Theories and Practices of Socialism the author re examines Marx and Engels theories on the development trajectory of Eastern societies by integrating theoretical analysis of Marxist theories and an historical investigation of socialist revolution and socialist construction around the world The collection challenges some predominant interpretations of Marx and Engels historical materialism by focusing on that materialism explaining the general laws of historical development and its particular trajectory in Eastern societies discussing the attempts of the Russian Commune to avoid the torments of the capitalist system and tracing the victories and failures of the 100 year trajectory of socialism The significance of Marx and Engels socialist theories for contemporary social development in the Eastern societies is henceforth laid bare The book will be a key reference for readers studying Marxism Marxist philosophy and the history of philosophy

Graeme Snooks, 2002-09-26 In this unorthodox and trail blazing work Graeme Snooks argues that it is possible to construct a scientific theory of human history but only if we adopt a radically materialist theory of human nature Marxism, Socialism

and Religion Karl Marx, 2001 This work brings together new translations of Marx s most important texts in political philosophy written after 1848 Marx challenged political theory to its very fundamentals as his works do not follow traditional

models for exploring politics theoretically In his introduction Terrell Carver situates Marx in a politics of democratic constitutionalism and revolutionary communism The works are presented here complete according to the first editions or the earliest manuscript state and include the Manifesto of the Communist Party the preface of 1859 to A Contribution to the Critique of Political Economy The Civil War in France and the little known Notes on Adolph Wagner More than most political theorists Marx made contemporary politics the focus for his theoretical work He created a distinctive kind of political theory and this volume aims to make it accessible today
