Drydens Aeneid A Selection With Commentary:

Dryden's Aeneid Virgil, John Dryden, 1986 In Search of the Classic Steven Shankman, 2010-11 The classical Steven Shankman argues should not be confused with a particular historical period of Western antiquity although it may owe its original articulation to the literary and philosophical explorations of ancient Greek authors Shankman's book searches for and attempts to formulate the shape of the continuing presence as embodied in particular literary works mainly from Western antiquity and the neoclassical and modern periods of what the author calls a classical understanding of literature For Shankman literature defined from a classical perspective is a coherent compelling and rationally defensible representation that resists being reduced either to the mere recording of material reality or to the bare exemplification of an abstract philosophical precept He derives his definition largely from his reading of Greek literature from Homer through Plato from the history of literary criticism and from the Greco Roman tradition in English American and French literature Shankman reveals unsuspected yet convincing connections among authors of such widely disparate times and places His idea of the classic that authorizes these connections is presented as normative thus making possible the evaluation of literary works and in turn forthright discussion of what constitutes the literary as distinct from other kinds of discourse Shankman's study runs counter to a strong tendency of contemporary criticism that argues precisely against any distinct category of the literary He offers a series of interpretations that cumulatively advance theoretical discussion by challenging scholars to rethink the critical paradigms of postmodernism At the center of the book is a discussion of the quintessentially classic Valéry poem *Le Cimetière marin* and the classic qualities it shares with Pindar's third Pythian ode from which Valéry derives the epigraph for his poem **The Oxford History of Classical Reception in English Literature: The Oxford History of**

Virgil Philip Hardie,1998-07-02 Virgil by Philip Hardie revisits the topics of the first New Survey in the Classics published in 1967 This latest Survey explores how literary approaches have changed over the last thirty years with individual chapters on Eclogues Georgics and The Aenid and style *Poems of Nation, Anthems of Empire* Suvir Kaul,2000 In *Poems of Nation Anthems of Empire* Suvir Kaul argues that the aggressive nationalism of James Thomson's ode *Rule Britannia* 1740 is the condition to which much English poetry of the late seventeenth and eighteenth centuries aspires Poets as varied as Marvell Waller and Dryden Defoe Addison John Dyer and Edward Young or Goldsmith Cowper Hannah More and Anna Laetitia Barbauld all wrote poems deeply engaged with the British nation in the making These poets and many others like them recognized that the nation and its values and institutions were being defined by the expansion of overseas trade naval and military control plantations and colonies Their poems both embodied and were concerned about the culture and ideology of Great Britain itself an idea of the nation that developed alongside the formation of a British Empire Poems in this period thus flaunt various images of poetic inspiration that show poetry and culture following triumphantly where mercantile and military ships sail Or sometimes more self aggrandizingly for the poet they enact the process by which the Muses use their powers to inspire and show the way Even at their most hesitant these poems were written as interventions into public discussion their creativity is tied up with that desire to convince and persuade Finally as Kaul writes it is their encyclopedic desire to incorporate new experiences visions and values that makes these poems such fine guides to the world of poetry in the long years in which Great Britain was consolidated as an empire at home and abroad

The Iliad of Homer, Volume 1 Steven Shankman,2021-09-02 In his Preface to the *Iliad* Alexander Pope declared that in his poetic invention Homer possessed unequalled fire and rapture Pope spent his formative years as a poet translating Homer beginning with the *Iliad* and in his translation he successfully found a style that answers the sublimity and grace of Homer Steven Shankman provides scholarly critical apparatus for this Penguin English Poets edition which is based on the 1743 edition that contains the poet's final revisions Pope's Preface and the three indexes are also included Most importantly this edition makes available for the first time in paperback Pope's notes in their entirety enabling us to observe one poetic genius illuminate the work of another
